Be equipped for success with NEW 3Shape TRIOS innovation

3Shape TRIOS® 4

The most powerful 3Shape intraoral scanner to date!

Caries diagnostic aid*

The world's first intraoral scanner with digital detection of possible surface and interproximal caries** without the need for an additional scanning device.

Smart tips

New generation of tips with instant-heat technology so you are scan-ready in seconds, and enabling 30% additional battery life. Plus a dedicated tip to aid the detection of interproximal caries.**

3Shape TRIOS 3 Basic

The entry-level intraoral scanning solution

> Core award-winning TRIOS scanning technology.
> Simple 'scan and send-to' workflow.

CELLERANT
BEST OF CLASS
TECHNOLOGY AWARD
6 TIME WINNER

It all starts with superior scanning technology

3Shape TRIOS® – more than just a digital impression!

Wireless innovation for enhanced comfort and ease

The world's first wireless scanner option enables you to scan unrestricted by wires, optimizing comfort for both you and your patients, and making scanning easier.

TRIOS Patient Specific Motion to enhance patient dialogue

Record a series of different bite positions and highlight occlusal contacts for dynamic patient specific articulation.

Realistic colors for patient engagement

Create high-quality digital impressions in lifelike colors to evaluate treatment and activate quality dialogue with patients.

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

stomdevice

Strong research evidence for excellent TRIOS accuracy

10 independent studies report statistically higher accuracy for TRIOS compared with conventional impressions and/or impressions made with other major intraoral scanners for full arch impressions.[1]

NEW! Ai

AI scan technology for simplified scanning

Removes unnecessary soft tissue as you scan to make scanning easier.

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

Open clear aligner options

New clear aligner treatment providers are entering the market. TRIOS® seamlessly connects you to these new alternatives, as well as your preferred lab, so you can immediately get started with offering your patients clear aligner treatments.

You've got open options with TRIOS:

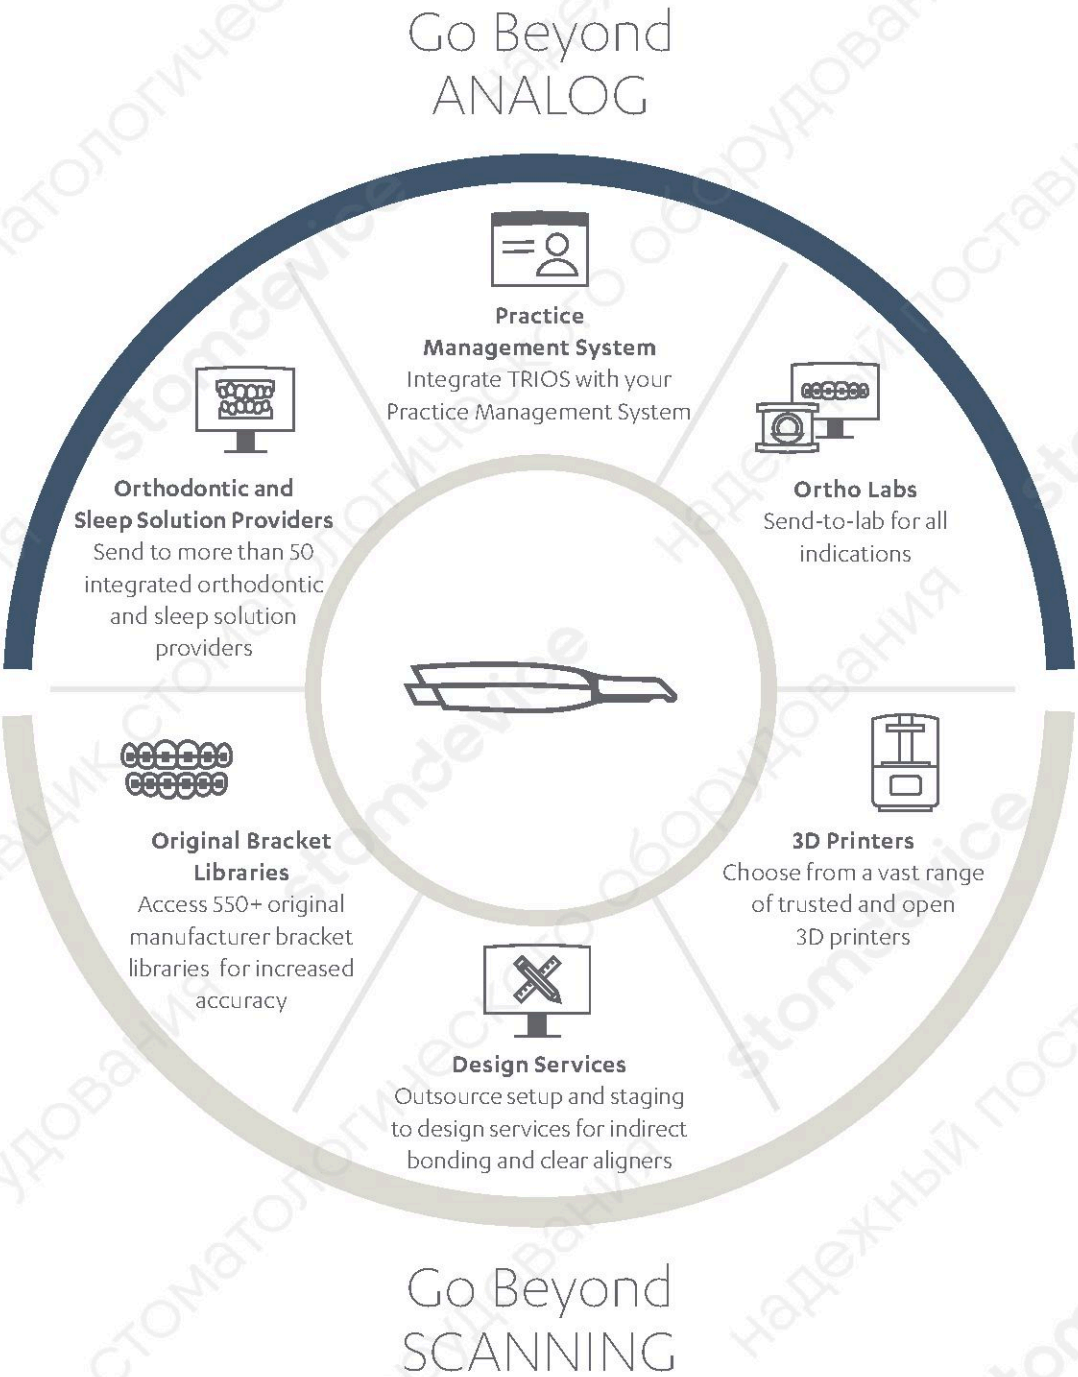

› The widest range of integrated global clear aligner treatment providers
› Work with your preferred lab for design and/or production

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

Access an unrivalled ecosystem

Empower your practice with the comprehensive, ever-expanding and open TRIOS ecosystem. With total integration to your preferred partners, you can secure the best and most cost-effective options for your business.

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

Excite your patients and advance case acceptance

Bring expected treatment outcomes to life with TRIOS® MOVE and TRIOS excitement apps.

Gain next-level patient engagement and great ergonomics with TRIOS MOVE

Excite your patients by displaying their scans and treatment designs up close, and enjoy the ease of always being able to position the setup in the right place for optimal comfort.

Give patients remote access to their digital data to stimulate treatment acceptance

Allow patients to view their intraoral scans on their mobile device using the My3Shape app, and encourage them to share and decide on treatment with family and friends.

stomdevice

Engage patients and increase treatment acceptance with TRIOS Treatment Simulator

Scan and show patients their current dentition transform into a beautiful smile, onscreen, and in full color to advance treatment acceptance. The simulation can be used to envision results for both clear aligner and bracket treatments, and the TRIOS scan can be sent to any treatment provider.

Show patients their future smile with TRIOS Smile Design

Take a photo of your patient's face and design their beautiful new smile in just minutes. Share the photorealistic results to complement the orthodontic treatment.

"Patients react extremely positively when they see the outcome of the TRIOS Treatment Simulator tool, and get convinced much faster. Acceptance rates without [the TRIOS Treatment Simulator] I think would drop 40%."

Dr. Pedro Gonçalves
Switzerland

Clear Aligner Studio

Rethink your clinic's clear aligner workflow with Clear Aligner Studio. This innovative all-in-one clear aligner software solution gives you the power to make clear aligners in your own office.
3Shape.com/clearalignerstudio

Control your business
Enhance your competitive edge with full control of the entire clear aligner treatment process in your hands.

Offer same-day treatments
Give your patients a fast and hassle-free experience with the option of same-day treatment start.

Increase your efficiency
Automated features, such as attachment placement and sizing, save you valuable time and increase efficiency during the design process.

One integrated workflow with Clear Aligner Studio

Scan
Digital impression with the award-wining TRIOS® scanner

Simulate & Communicate
Excite patients for increased case acceptance with the TRIOS Treatment Simulator

Plan & Design
Plan and design clear aligner treatments in-house

Produce
Produce clear aligners with an open choice of manufacturing equipment

"3Shape orthodontic software, included with TRIOS, expanded my opportunities to care for my patients,
as far as aligners, indirect bonding, getting things to the lab quicker, and in cutting down on errors."

Dr. James Paschal
Paschal Orthodontics, USA

Enable preventive care with caries diagnostic aid and monitoring tools

TRIOS® Patient Monitoring for preventive insights

Scan every patient every time to accurately monitor and track the dental condition. Visually monitor changes in tooth surface and movements. Share with patients to advance their understanding of issues and the need for treatment.

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

stomdevice

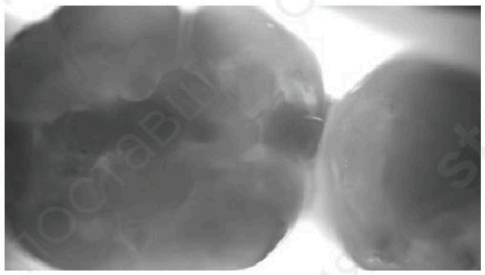

NEW WITH TRIOS 4!

Caries diagnostic aid* for early detection and timely intervention of suspected caries

Surface caries

Use TRIOS 4's built-in fluorescent technology and identify possible caries by overlaying the standard 3D TRIOS scan with new color-coded data. Compare to earlier scans to visually identify potential changes.

Interproximal caries**

Without radiation, the new TRIOS 4 transillumination smart tip aids the identification of possible interproximal caries** undetectable to the eye. Show the results to your patients to help them understand the need for any recommended treatment.

"Creating an aid for caries detection without radiation has been an elusive goal in dentistry – this is a ground-breaking achievement. Once again, 3Shape TRIOS redefines scanning!"

Dr. Jonathan L. Ferencz
New York, USA
