COMPLETE PICTURE. CLEAR VIEW. DEPENDABLE OPTIONS.

No matter which option you choose, you and your team will enjoy an ergonomic solution that offers richer patient-staff interactions. Robustly built and painstakingly tested, all monitor mounts are VESA compatible to accommodate various sizes* of medical-grade monitors up to 20 pounds (9 kg).

CHAIRSIDE: INCREASE CASE ACCEPTANCE.

A chairside monitor brings the screen closer to the patient, so it's easier to discuss oral health, explain treatment procedures, and gain case acceptance.

CHAIRSIDE MONITOR MOUNT

- **Close-to-the-patient positioning.** Chairside mount encourages consultation and education.
- **Tilt and swivel.** Offers comfortable viewing even in seated and supine positions.
- **Easy-grip handle.** Maneuver and tilt the monitor with one hand.

INTEGRATED: GET A BETTER VIEW.

Integrate a monitor into A-dec Inspire® cabinets. The A-dec gliding monitor mount slides and pivots for picture-perfect positioning between you and your assistant. Mounted at 12 o'clock, it's out of the patient's direct view.

A-DEC INSPIRE® GLIDING MONITOR MOUNT

- **Smooth and precise.** Telescoping monitor glides vertically and horizontally for task-based positioning.
- **Clean and sleek.** Design neatly conceals cables inside the arm, out of site.
- **Positionable for privacy.** At 12 o'clock, the monitor can move outside of treatment room for discussions

* Ensure monitor's dimensional size does not interfere with other equipment.

CEILING/WALL/CABINET: EXPAND VISIBILITY.

Keep the monitor within reach when you need it, and move out of the way when you don't.

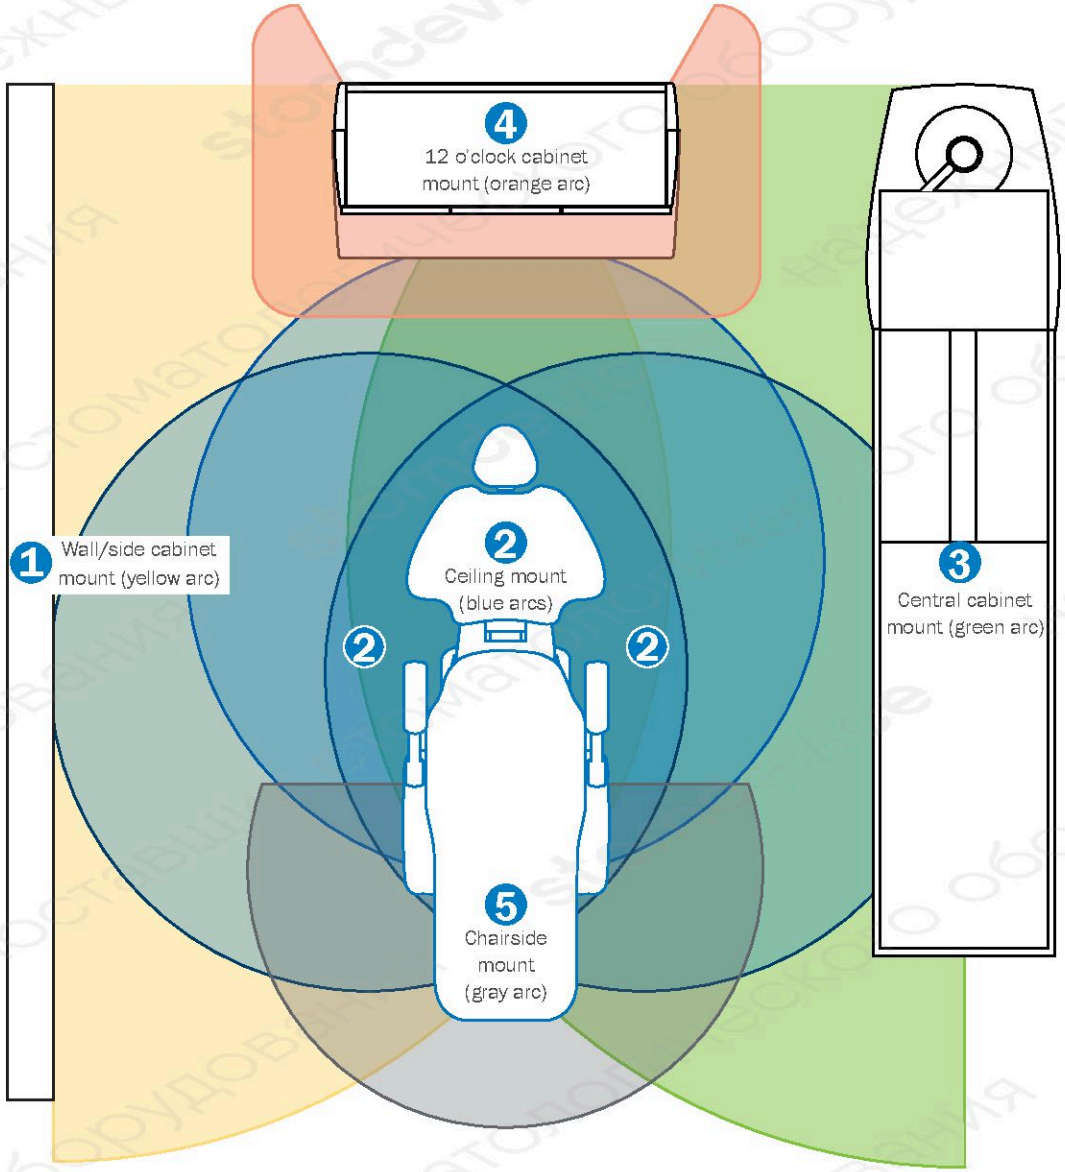

- **Exceptional range of motion.** Get a full spectrum of viewing angles for you, your team, and your patients.
- **Versatile flexarm design.** Easy adjustments and smart cable routing simplifies installation and streamlines appearance.
- **Space-saving design.** Moves out of the way during procedures, and works well for patient entertainment.
