ROTARY

professional rotating laser

Стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

stomdevice

WORKING IN EXTREME CONDITIONS

PROTECTION CLASS IP65

Due to the protection of the device, the rotating laser will be a excellent helper when working in any conditions.

BATTERY PROTECTION

Rubber seals prevent water from entering the battery compartment

SPECIAL SHAPE OF THE HANDLES

The rubberized handles of the device not only provide a reliable grip, but also protect the instrument housing from drops and impacts from all directions.

ABSOLUTE CONTROL TECHNOLOGIES

ROTATION SPEED

The rotation speed is adjustable from 0 to 600 RPM

PROTECTIVE DAMPERS

Protective shock absorption ensures the device is strong and durable when falling.

ADDITIONAL MARKUP

For easy outlining, the top cover has X-Y axis aimpoints

ENLIGHTENED OPTICS

The unique coated optics improves the clarity and range of the laser beams, making them more visible over long distances.

stomdevice

100 m

WORKING FROM A DISTANCE HAS BECOME EVEN BETTER

Ths remote control extends the functionality of the rotary level allowing you to:

- Set the slopes along the axes
- Move scan lines
- Change the rotation speed
- To manage the Shock Warning mode

ADA INSTRUMENTS

ROTARY

Accuracy	±0.1mm/m
Accuracy of the plumb point downwards	±1,5mm/m
Self-leveling range	±5°
Dust/moisture protection class	IP 65
Operating range	500 m diameter with detector
Laser class	II
Tripod thread	2x5/8"
Rotation speed	0,120,300,600
Scan function	0°, 10°,45°, 90°,180°
Remote control operating distance	100m
Power supply	4xAA NI-MH battaries/4xAA alkaline batteries /charger device DC 5.6V700mA
