Orchid LED light

Overview | Tech Specs | Photos

LED light manufactured by Admetec combines ergonomics with advanced optical technologies. PowerLight Orchid is a our brand new model designed for dentists and surgeons.

PowerLight Orchid is a lightweight lamp for personal use. It generates well-focused uniform and shadow-free round beam that provides bright white illumination.
It can be easily adjusted to the loupes of the most popular brands such as Orascoptic, Surgitel and Zeiss as well as to the loupes manufactured by Admetec.
PowerLight set includes PowerLight and two original PowerPacks equipped with a digital dimmer and a battery charge indicator. Highly reliable Li-Ion Polymer batteries enable long and undisturbed working hours. Each set is supplemented with a yellow flip-up curing filter.
PowerLight available in black and silver colours; PowerPack is available in black-and-white or black body.
