Orchid-F LED light

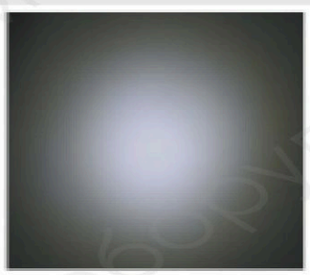

Overview | Tech Specs | Photos

LED light manufactured by Admetec combines ergonomics with advanced optical technologies. PowerLight Orchid-F is a our brand new model designed for dentists and surgeons.

PowerLight Orchid-F is a lightweight lamp for personal use. It generates
well-focused uniform and shadow-free round beam that provides bright
white illumination.
It can be easily adjusted to the loupes of the most popular brands
such as Orascoptic, Surgitel and Zeiss as well as to the loupes
manufactured by Admetec.
PowerLight set includes PowerLight and two original PowerPacks
equipped with a digital dimmer and a battery charge indicator.
Highly reliable Li-Ion Polymer batteries enable long and undisturbed
working hours.
PowerLight available in black and silver colors; PowerPack is available in black-and-white or black body.

The Anti-curing filter is built in and is controlled from the battery.
In all other technical parameters the Orchid-F is Identical to the Orchid.
