# EQUIPPED FOR LIFE WITH AIR TECHNIQUES

Dear Valued Customer:

At Air Techniques, we are focused on high quality products, innovative new technology and unparalleled customer satisfaction – all to support your dental practice. We are proud of our 55+ year heritage of delivering reliable products and support to dental professionals throughout the world.

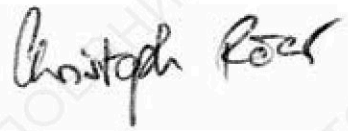

Our portfolio strategically focuses on seven key product categories - Digital Radiography, Cameras & Caries Detection, X-Ray Systems, Air Compressors, Vacuum Systems, and Infection Prevention – we promise to bring even more innovation and variety to our customers in 2019.

Products like ScanX Swift View and ScanX Intraoral View digital radiography systems in our Digital Radiography category. These new scanners provide excellent image quality, feature high-resolution color touchscreens, and WiFi functionality. Aiding in advancing your diagnostic capabilities and workflow.

In our Vacuum Systems category, Mojave LT3 dry vacuum system was designed to provide the highest operational performance with low operating costs. Providing all of the power and suction, you need with a potential savings of 80% over conventional liquid ring systems.

We appreciate the opportunity to help power your practice and aid you in your diagnostic capabilities. Air Techniques' skillful engineering team, knowledgeable sales representatives, and customer care team are all prepared to help you operate a more profitable business and deliver the best oral health care to your patients.

Thank you for your continued support and trust in Air Techniques.

Each "Monarch" branded product and other hygiene product is warranted to be free from defects in material and workmanship through to and including its expiration date.

All product and component warranty returns require a Return Materials Authorization (RMA). Returns must be received within ninety (90) days of the RMA issue date and in appropriate packaging to prevent shipping damage. Products or components returned without an RMA, or included with other products or components for which an RMA has been issued, will be returned to the customer at the discretion of Air Techniques' and at the customer's cost.

Any item returned and covered under warranty, will be repaired (excluding Monarch and other hygiene products) or replaced at Air Techniques' option at no charge to the customer. This is the customer's sole remedy for products or components returned under, and covered by, warranty. Air Techniques is not liable for any indirect or consequential damages or loss of any nature in connection with any defective or damaged products or components. Dealer labor, shipping and handling charges relating to the warranty return of products or components are not covered by this warranty.

Products or components returned under warranty that exhibit damage due to shipping, misuse, careless handling, improper installation or repairs or service by a Dealer or by other unauthorized personnel, abnormal physical stress, abnormal environmental conditions or use contrary to the products' or components' specifications or operating instructions are not covered by warranty. The warranty is void if the product or component is installed incorrectly or installed or serviced by anyone other than authorized Dealer or other Air Techniques' authorized personnel.

Credit, or partial credit, will not be issued until the products or components have been received and assessed by Air Techniques. If, after the evaluation by Air Techniques, it is determined that there is no-fault found and the product or component is working in accordance with its specifications, the product or component will be returned to the customer at the customer's cost, and no credit will be issued.

# WARRANTY AND RETURN POLICY

This warranty is in lieu of all other warranties expressed or implied. No representative or person is authorized to assume any liability on behalf of Air Techniques in connection with the products or components.

If a customer requests the replacement of a product or component returned under warranty in advance of Air Techniques' receipt and evaluation of the returned Product, Air Techniques will provide the replacement product or component to the customer at full invoiced price. If the returned product or component is found to have a fault covered by warranty, the invoiced price of the replacement product or component will be credited to the customer. If no-fault is found, the customer shall pay the invoice for the replacement product or component.

**Online Warranty Registration**

Quickly and easily register your new Air Techniques product online. Just have your product model and serial numbers available. Then go to the Air Techniques' website, www.airtechniques.com, click the Warranty Registration link and complete the registration form. This on-line registration ensures a record for the warranty period and helps Air Techniques keep you informed of product updates and other valuable information.

**ProVecta S-Pan and S-Pan Ceph Extended Parts Warranty**

Purchase of this optional extended parts warranty (36mo. of additional coverage of x-ray sensor(s) and generator) must be done by or before 1 month from date of installation. Purchase Order must include model and serial number of unit to be covered, clinic contact information, dealer contact information. Coverage is limited to the parts mentioned beyond the Full System Warranty Period.

**Returns for Credit**

Products and components cannot be returned after 6 months from the original invoice date. Returned products or components, other than warranty returns, must be new, unused, and factory sealed in original packaging with tamper-proof seal intact. Products which are returned for credit are subject to a minimum charge of 15% of the purchase price thereof to cover inspection, damage in transit, reconditioning and repacking.

**Certain Products and Components Are Not Eligible for Return for Credit**

Consumables e.g. Accessory Kits, "Monarch" and other hygiene products, customized products and components, and products or components with a value of less than $50 per item are not returnable.

**Returns in General**

Returns of products or components, other than warranty returns are subject to Air Techniques' authorization, which may be given or withheld at Air Technique's discretion. All products or components returned require a Return Materials Authorization (RMA) from Air Techniques. Products or components returned without an RMA, or included with other products or components for which an RMA has been issued, will be returned to the customer at Air Technique's discretion and at the customer's cost. Returns must be received within ninety (90) days of the RMA issue date. Returns of products or components that exhibit damage due to shipping, misuse, or careless handling will not be accepted, and no credit will be given for those. Credit, or partial credit, will not be issued until returned products or components have been received and compliance with the above returned product or component requirements has been verified. Transportation charges on returns must be prepaid by the customer. Risk of loss with respect to returned products or components shall remain with the customer until received by Air Techniques.

**ProVecta Refurbished Products**

ProVectsa Products sold as refurbished are covered under a 1yr Full Systems Warranty, with the same coverage and limitations as the original Full Systems Warranty (see above) but running for 12mos. from the date of installation. If for any reason the original Full Systems Warranty has not yet expired, warranty coverage of the refurbished product falls under whichever provides the longer coverage, original 2yr Full Systems Warranty, or the additional 1yr warranty for refurbished products.

# TRAINING PARTNER TRAINING PROGRAM

Our hands-on, dynamic technical and sales training program will provide you with new knowledge and skills to better assist you in the field.

In order to provide the best training, we offer a variety of specialty classes for your sales team as well as your technical team in imaging, utility or both. Feel free to discuss with your local Air Techniques Territory Manager, keeping in mind that training requests need to go through your corporate center. We will reach back out to confirm your attendance, along with arranging your transportation to the hotel and airport.

- Courses are held at Air Techniques corporate headquarters located in Melville, NY, or On-Site at your branch or regional location
- Lodging, meals and ground transportation is provided by Air Techniques
- The only thing you will be responsible for is your airfare

If you would like to attend a class outside the posted schedule, please contact your company's designated representative. Please note, your information will be sent to your company's designated training coordinator.

**Corporate Headquarters**
