EQUIPPED FOR LIFE WITH AIR TECHNIQUES

THE FUTURE IS OURS

Dear Valued Customer:

This year, we look forward to a year of growth through our best-in-class sales organization. We are excited to serve you with our brand new sales team as they best prepare us for the future and enable us to further provide our dealer partners and dental professionals with the best customer service.

Our portfolio strategy includes growing existing brands and introducing new products that align with our values and complement our product offerings. As you review our 2018 product catalog, you will notice several outstanding new product advancements.

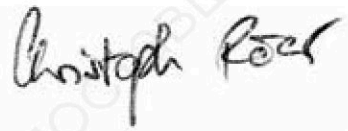

In our Digital Imaging category, we bring you an expanded line of ScanX® digital radiography systems. Our new ScanX Intraoral View and ScanX Swift View provide excellent image quality for easier diagnosis with WiFi functionality and a high-resolution touchscreen. Also, 2018 brings innovation to our CamX® camera systems as we introduce our new CamX Triton HD Proxi interchangeable head for detecting caries in between teeth. Early diagnosis for interproximal caries has never been easier.

In our Utility Equipment category, we have expanded our line of Mojave® dry vacuum systems with the addition of our quiet, compact and energy-efficient Mojave LT tankless dry vacuum. It delivers all the power and suction you need with a potential energy savings of 85% over conventional liquid ring systems.

Our online capabilities have also improved. We recently unveiled a new shop feature on our Air Techniques website. Currently, all Monarch products, CamX accessories, ScanX accessories, Chemistry and Processor Cleaners are available through our new shopping cart platform. I invite you to visit our website and see how easy it is for dental professionals to place orders 24/7 via their preferred dealer.

We greatly appreciate our dealer partners and dental professionals. With your support, we will continue to enrich our customer service and product portfolio as the dynamics of today's business environment and rapidly changing technology impact the dental industry. Together, the future is ours.

Thank you for your continued support and trust in Air Techniques.

MISSION/DISCOUNTED PARTS

AIR TECHNIQUES COMPANY MISSION

To develop and bring our customers the products they value. Our products are superior by invention, are professionally supported and provide years of lasting service to their users.

Air Techniques endorses and supports high quality and customer service as a company-wide way of life, focusing on managing the prevention of problems and the continuous improvement of our products to assure customer requirements are met.

Our success is achieved by empowering employees on every level to prevent defects (even where this might include the temporary stoppage of work or shipments) and improving and refining our processes and products.

Suggested Retail Prices are effective February 5, 2018.
This price list supersedes all other Parts Price Lists.
All prices are subject to change without notice.

Each "Monarch" branded product and other hygiene product is warranted to be free from defects in material and workmanship through to and including its expiration date.

All product and component warranty returns require a Return Materials Authorization (RMA). Returns must be received within 90 days of the RMA issue date and in appropriate packaging to prevent shipping damage. Products or components returned without an RMA, or included with other products or components for which an RMA has been issued, will be returned to the customer at Air Technique's discretion and at the customer's cost. Any Product returned and covered under warranty will be repaired (excluding Monarch and other hygiene products) or replaced at Air Techniques' option at no charge to the customer. This is the customer's sole remedy for products or components returned under, and covered by, warranty. Air Techniques is not liable for any indirect or consequential damages or loss of any nature in connection with any defective or damaged products or components. Dealer labor, shipping and handling charges relating to the warranty return of products or components are not covered by this warranty.

Products or components returned under warranty that exhibit damage due to shipping, misuse, careless handling, improper installation or repairs or service by a Dealer or by other unauthorized personnel, abnormal physical stress, abnormal environmental conditions or use contrary to the products' or components' specifications or operating instructions are not covered by warranty. The warranty is void if the product or component is installed incorrectly or installed or serviced by anyone other than authorized Dealer or other Air Techniques' authorized personnel.

Credit, or partial credit, will not be issued until the products or components have been received and assessed by Air Techniques. If, after the evaluation by Air Techniques, it is determined that there is no-fault found and the product or component is working in accordance with is specifications, the product or component will be returned to the customer at the customer's cost, and no credit will be issued.

This warranty is in lieu of all other warranties expressed or implied. No representative or person is authorized to assume any liability on behalf of Air Techniques in connection with the products or components.

WARRANTY AND RETURN POLICY

If a customer requests the replacement of a product or component returned under warranty in advance of Air Techniques' receipt and evaluation of the returned Product, Air Techniques will provide the replacement product or component to the customer at full invoiced price. If the returned product or component is found to have a fault covered by warranty, the invoiced price of the replacement product or component will be credited to the customer. If no-fault is found, the customer shall pay the invoice for the replacement product or component.

ONLINE WARRANTY REGISTRATION

Quickly and easily register your new Air Techniques product online. Just have your product model and serial numbers available. Then go to the Air Techniques' website, www.airtechniques.com, click the Warranty Registration link and complete the registration form. This on-line registration ensures a record for the warranty period and helps Air Techniques keep you informed of product updates and other valuable information.

RETURNS FOR CREDIT

Products and components cannot be returned after 6 months from the original invoice date. Returned products or components, other than warranty returns, must be new, unused, and factory sealed in original packaging with tamper-proof seal intact. Products which are returned for credit are subject to a minimum charge of 15% of the purchase price thereof to cover inspection, damage in transit, reconditioning and repacking.

CERTAIN PRODUCTS AND COMPONENTS ARE NOT ELIGIBLE FOR RETURN FOR CREDIT

Consumables e.g. Accessory Kits, "Monarch" and other hygiene products, customized products and components, and products or components with a value of less than $50 per item are not returnable.

RETURNS IN GENERAL

Returns of products or components, other than warranty returns are subject to Air Techniques' authorization, which may be given or withheld in Air Technique's discretion. All products or components returned require a Return Materials Authorization (RMA) from Air Techniques. Products or components returned without an RMA, or included with other products or components for which an RMA has been issued, will be returned to the customer at Air Technique's discretion and at the customer's cost. Returns must be received within ninety (90) days of the RMA issue date. Returns of products or components that exhibit damage due to shipping, misuse, or careless handling will not be accepted, and no credit will be given for those. Credit, or partial credit, will not be issued until returned products or components have been received and compliance with the above returned product or component requirements has been verified. Transportation charges on returns must be prepaid by the customer. Risk of loss with respect to returned products or components shall remain with the customer until received by Air Techniques.
