Utility Room set-up shown with AirStar 30, VacStar 50H and Acadia using Utility Stack Rack Mini.

Accessories for your utility room equipment are just as important as the equipment itself. Accessories offer a wide range of benefits such as: space savings, environmental responsibility, energy savings and more. Along with proper cleaning and maintenance, accessories can help to keep your product running smoothly and extend the life of your equipment.

Create a more efficient office with accessories that increase performance of your compressor or vacuum and utilize only the power you need.

Protect your office and investments with the use of many Air Techniques accessories. Office downtime from equipment servicing is reduced when preventative accessories are used. Keeping your office functioning smoothly means being able to see more patients and increasing profits.

With just a few simple product additions, you can ensure that you are getting the highest quality performance from the products you rely on to keep your practice running.

ORDERING INFORMATION

A1250	Acadia Amalgam Separator
A1370	Acadia Recycling Kit Only

H5229	Mojave MT10 to CT20 Conversion Kit
H5231	Mojave Powered Auto Drain Pump

56600	Utility Stack Rack - Mini
56650	Utility Stack Rack - XL

57850	CleanStream - 2.5 Liter Bottle
57665	CleanStream Dispenser
57660	CleanStream Starter Kit

53111	Remote Control Panel - 1 Switch
53251	Remote Control Panel - 2 Switch
53250	Remote Control Panel - 3 Switch
53133	Remote Control Panel - 4 Switch

54580	CleanShield Washout System

56200	Vacuum Equalizer

67002	Buck Boost Transformer 208/230 VAC, 3.9 kVA
67000-1	Buck Boost Transformer 208/230 VAC, 7.8 kVA

H-2	Hydromiser for VacStar 20
H-4	Hydromiser for VacStar 40
56041	Hydromiser for VacStar 50
56042	Hydromiser for VacStar 80

53020T	Remote Water Control Valve - with Filter, with Transformer 3/4" pipe 24V
53020-1	Remote Water Control Valve - with Filter 3/4" pipe 115V
53021T	Remote Water Control Valve - with Transformer without Filter 3/4" pipe 24V
53021-1	Remote Water Control Valve - without Filter 3/4" pipe 115V
53170T	Remote Water Control Valve - with Transformer with Filter 1" pipe 24V
53171	Remote Water Control Valve - with Filter 1" pipe 115V
53173T	Remote Water Control Valve - with Transformer without Filter 1" pipe 24V
53174	Remote Water Control Valve - without Filter 1" pipe 115V

85491	Remote Air Intake - AirStar 10
85492	Remote Air Intake - AirStar 21, 22, 30
85493	Remote Air Intake - AirStar 50
85494	Remote Air Intake - AirStar 70
89831	Remote Air Intake - Filter Replacement

stomdevice

AMALGAM SEPARATOR

Acadia® safely and effectively collects amalgam waste.

- Easy, no hassle installation - wall or floor mount
- Translucent container provides a clear view into filter
- Supports up to 10 operatories
- Filter twists on/off for less-than-a-minute replacements
- Prepaid shipping and packaging available with the Acadia recycling kit

UTILITY STACK RACKS

Optimize space and organize your equipment.

- Available in two sizes: Mini (for AS30, STS-5 and VS50/50H) and XL (for AS 50/70, STS-6/10 and VS80/80H)
- Strong enough to accommodate either compressor atop suction system or vice versa
- 3 height adjustments for upper shelf
- Adjustable top rails to accommodate all equipment sizes

EVACUATION SYSTEM CLEANER

Monarch CleanStream® cleans vacuum systems and prevents debris buildup.

- Prolonged vacuum life and uninterrupted workflow
- Environmentally friendly and biodegradeable
- Easy to use dispenser cleans two operatories with one bottle
- Works in both wet and dry vacuums
- Non-foaming, enzyme based, neutral pH

REMOTE CONTROL PANELS

Control your air, water and vacuum equipment using remote switches from your office.

- Customizable to fit your practice needs
- All four control panels fit over a standard 2 gang electrical box
- Streamlined design with a stainless steel cover plate
- Centrally located in office

BUCK BOOST TRANSFORMER

Regulates the voltage of the machine.

- If voltage is low, it will boost to a higher voltage by 10%
- If voltage is high, it will buck to a lower voltage by 10%

stomdevice

WASHOUT SYSTEM

CleanShield automatically controls the washout cycle of a CAS tank to ensure proper daily tank maintenance.

- Rinse cycle automatically activates when pump is turned off
- Prevents debris buildup

HYDROMISER

Water recycling system for wet-ring vacuums.

- Recycles up to 75% of water used
- Savings of over 65,000 gallons of water per year
- Operates without any electricity or moving parts

VACUUM EQUALIZER

Monitors vacuum demand throughout the day to provide optimal suction for your practice.

- Automatically switches pumps as needed to extend service life
- Boosts vacuum pump efficiency for up to 4 pumps - wet or dry
- Turns motors on or off based on demand for suction and how much can be provided by each motor

REMOTE CONTROL WATER VALVES

Controls water supply from a remote location.

- Installed in easily accessible locations
- Ability to completely shut off water supply
- 24 volts or 115 volt models offered
- Available with or without filter

REMOTE AIR INTAKE

Delivers fresh air to the compressor heads.

- Enables you to comply with local building codes
- Reduces compressor head noise by 2-3 decibles
- Can be mounted vertically or horizontally
