MONT BLANC® BY ANTHOGYR

The MONT BLANC® contra-angles from anthogyr are a complete line of general dentistry, implant

Manufactured in France in a state of art manufacturing facility, the MONT BLANC® contra-angles feature the latest technological advancements, such as LED Technology for the surgical and implant handpieces.

Robust and reliable, the MONT BLANC® contra-angles have been designed to yield efficiency and security in your dental practice. The design and the ergonomics of the MONT BLANC® handpieces have been examined to offer the practitioner ideal comfort.

With the latest advancements of the MONT BLANC® range, and for over 60 years, anthogyr has

efficient.

i-coat® COATING

The i-coat® surface treatment creates a durable surface with ideal roughness for optimal handgrip even during long procedures in a moist environment.

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

RANGE FOR GENERAL DENTISTRY

The **MONT BLANC®** 1:5 is now fitted with the **smallest head on the market :** only 13,75 mm !

This technological achievement allows easier access and better visibility in the patient's mouth. Recognized for reliability, the anthogyr contra-angles are user-friendly. Its ergonomics delivers perfect handgrip, and the ceramic ball-bearings make use quiet.

The combination of two noble materials, titanium and stainless steel, makes it both lightweight and powerful.

Finally, the quadruple spray outlets prevent tool from overheating.

CONTRA-ANGLES FOR IMPLANTOLOGY

The **MONT BLANC®** contra-angles for implantology are now available with LED light, with fiber optics or without light.

LED technology provides « Day light » quality lighting and allows optimal visibility of the working area.

The **MONT BLANC®** contra-angles for implantology deliver torque of up to 80N.cm making it possible to complete any implant sequences.

CONTRA-ANGLES FOR SURGERY

The **MONT-BLANC®** surgery line of handpieces was especially designed for surgical applications ; these instruments will provide you maximum safety and optimum ergonomics.

Incorporating the latest technological advancements, these instruments are available with LED light, with fiber optics* and without light.

The quality and unrivalled design of the **MONT BLANC®** handpieces will yield greater efficiency in your practice and will be a trusted partner during surgery.

*Only for surgery contra-angle.

THE SMALLEST HE
THE MARKET: 13.75 MM

CONTRA-ANGLES FOR GENERAL DENTISTRY

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

REACH FOR THE TOP

UNRIVALLED !

1:5 **THE SMALLEST HEAD ON THE MARKET: ONLY 13.75 MM!**

The small head allows for **greater visibility and easier access in the mouth.**

ANTI-PARTICLE FILTER

Avoidance of dirt particles and blockages in the spray channels.

QUIET OPERATION

Due to high quality components.

QUADRUPLE SPRAY OUTLETS

The MONT BLANC® range is fitted with 4 spray outlets for **excellent tool and tooth cooling**.
It also prevents the instrument from overheating.

1:5 **CERAMIC BEARINGS**

Ceramic bearings are harder than conventional stainless steel bearings, and only half the weight. Lower friction results in heat-free operation, especially at high speeds and contributes to **longer handpiece life**.

CELLULAR GLASS OPTICS LIGHTING

The MONT BLANC® contra-angle is fitted with cellular glass optics with 25 000 LUX light output, **providing well-lit working area**.

LIGHTWEIGHT

Only 67g due to optimisation and integration of titanium components.

OPTIMAL HANDGRIP

The surface treatment creates a durable surface with ideal roughness for **optimal handgrip** even during long surgical procedures.

CONTRA-ANGLES FOR SURGERY

LED TECHNOLOGY*

- **«Day light» quality lighting** provides optimal visibility with exceptionally true color.
- **Larger volume of lighting for more comfortable working space.**
- **Power 31 000 Lux.**
- **Unrivalled LED durability.**

* These surgical instruments are also available without LED.

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

MAXIMUM SAFETY

The MONT BLANC® surgical contra-angle and handpiece were specifically designed for use with your surgery and implantology motor :

- **Effective and precision external irrigation:** spray can be adjusted in accordance with the length of the drill.
- **No air is projected from the instrument,** thereby avoiding the risk of necrosis, bacterial transmission, subcutaneous emphysema.
- **Instruments can be disassembled for an efficient cleaning!**
- **Thermo-disinfectable.**

OPTIMUM ERGONOMICS

The profiled design of the MONT BLANC® range provides **ideal working comfort** and avoids hand contraction resulting in a feeling of hand fatigue.

RELIABILITY AND POWER

- **No vibrating feedback** even during difficult use provides accurate and pleasant work!
- Robust stainless steel components contribute to the durability and **longevity of these instruments.**

CAN BE DISMANTLED FOR EASY MAINTENANCE!

The instruments can be **easily and quickly dismantled without tooling**. Designed for effective decontamination and deep cleaning : solution for ever increasing rigorous sterility standards, especially in a hospital environment!

NEW !

iMPLANTEO® LED IMPLANTOLOGY AND SURGERY MOTOR

Take advantage of the LED Technology with the MONT BLANC® implantology and surgery handpieces in conjunction with the new iMPLANTEO® LED implantology and surgery motor.

DAYLIGHT QUALITY LIGHTING - LED TECHNOLOGY!

LED is here! LED from the handpiece provides the **maximum working comfort** and compliments the operating room lighting.
Equipment maintenance is improved by the LED's resistance and durability: 10 times superior to a conventional bulb.

- Optimum light quality « **Natural light** »: 5500°K.
- **Ideal lighting,** no more shadows in the working area.
- Illumination field wider than classical lighting.
- Adjustable power: 31,000 LUX.
- Resistance & durability of the LED component.
- Sterilizable.

SIMPLE, USER-FRIENDLY... FREEDOM!

A large color touch screen, pictograms and intelligent applications... Technology from your everyday life: **intuitive, simple, user-friendly and intelligent!** Freedom to make quick adjustments, settings or modifications: your « surgical assistant » adapts to your practice and makes life easier.

- Large color touch screen: **try the « Touch » technology!**
- Optimal visibility of essential information: **5.7-inch screen!**
- **Intuitive navigation** with descriptive icons
- Useful applications for easy navigation.
- **Unique working comfort!**

POWER AND PRECISION

Your **iMPLANTEO**® micromotor: reliable and powerful, it remains flexible and extremely comfortable during use. The unit allows you to confidently perform high-precision procedures...

- Large speed and torque range with the **MONT BLANC**® 20 :1contra-angle handpiece.
  - Speed from 15 to 2,000 rpm.
  - **Torque from 5 to 80 N.cm.**
- **Contra-Angle Calibration:** the precision of the motor is adapted to the contra-angle connected.

DESIGN & APPEARANCE

Appearance and aesthetics will compliment your operating room environment.

- Fluid and modern lines: a **unique design** !
- Ultra-sanitary smooth surfaces.
- Easy to move : **compact and lightweight** unit.

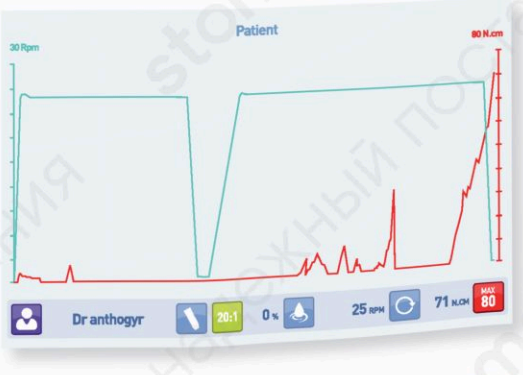

SURGICAL INTELLIGENCE AND PERFORMANCE

The essential procedure related data can be configured and precisely monitored in real-time throughout the procedure. You can also record important clinical data **for improved patient record tracking.**

- 10 configurable programs; up to 10 sequences per program.
- Simple data set-up and manipulation.
- Real-time display of critical data:
  - Torque in N.cm.
  - Speed.
- Real-time graphical display is only one click away !
- **Guaranteed patient tracking :** data is saved to a USB key: File (.csv) / graph (.TIFF), see **Fig. A.**
