FRESH IDEAS
IN DIGITAL IMAGING

THE BEST OF BOTH WORLDS

Phosphor plates have all the benefits of traditional X-ray film with the immediacy and environmental benefits of digital radiography. There is no more need for hazardous and costly film processing chemicals with the DIGIREX® PSP Scanner. Patient comfort is also assured with thin flexible plates in multiple sizes. After a quick scan of exposed plates, high resolution images are ready to be stored, emailed, and printed at the touch of a button. Plates can be used over and over saving time and money on costly traditional film. Digital imaging is finally within the reach of any dental office's financial and technical abilities.
