ENDO MOTOR

CE 0197

Micro-motor for root canal preparation
with intergrated apex locator

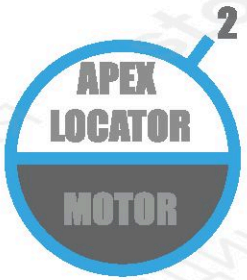

iRoot pro

> APEX LOCATOR + ENDO MOTOR

TWO WORKING MODES

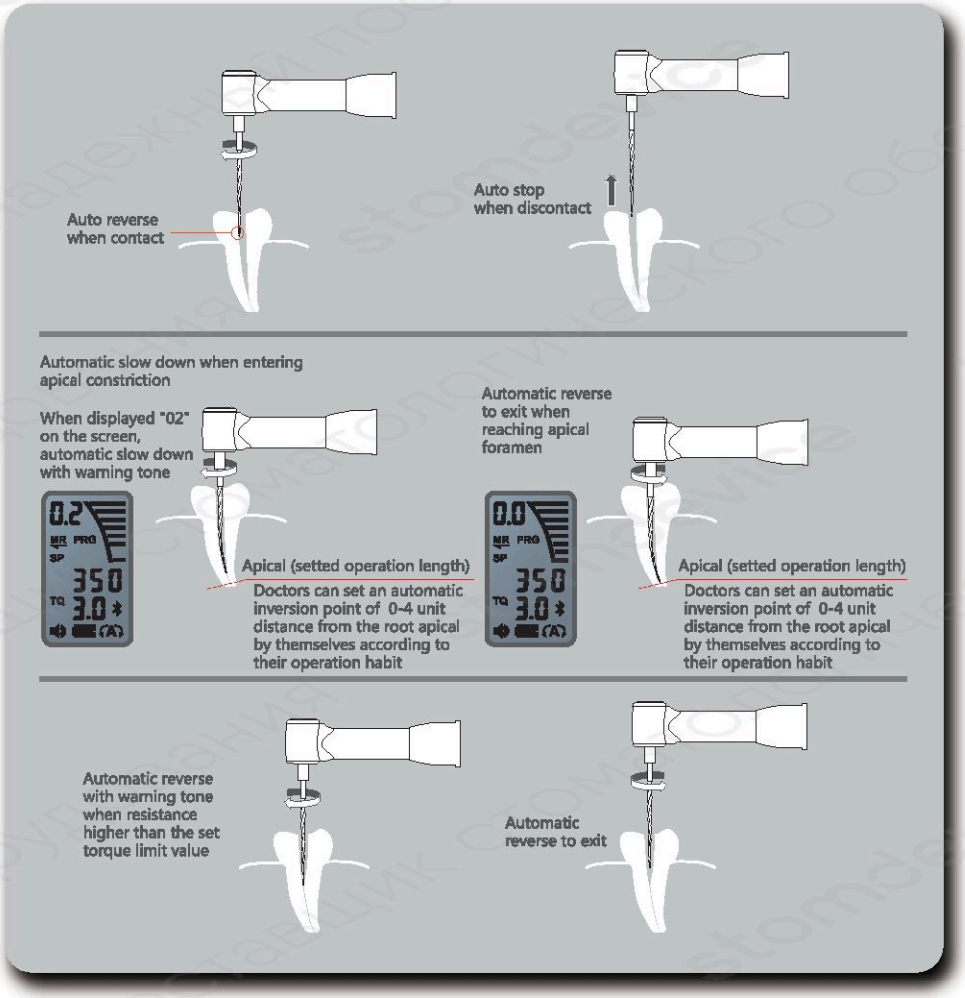

type	portable
memory	10 memory setting + quick start memory
rotation	clockwise/anti-clockwise/reciprocating
torque control	auto reverse/auto stop
battery	rechargable/replaceable
charging	charging base/Micro USB
display	OLED/Blue Teeth
available contra angle	4:1 10:1 16:1 20:1
apex locator control motor working mode	auto start/auto stop/auto reverse

The most convenient root canal treatment system , complete root canal length measurement and root canal preparation on the handpiece, you just need to connect a lip hook with the motor to make the canal length measurement and preparation at the same time

Apex locator control motor working mode:Auto start/Auto stop/Auto reverse

We are committed to producing safe and reliable medical equipment to let doctors use more handy, so we recommend doctors to use the apex locator control motor working mode

Torque and Speed

The product can be set up with ten memory modes. Auto reverse mode and reverse alarm function make the treatment process much safer. Users can set the corresponding speed and torque according to the parameters of different files at home and abroad. Users can get different speed by matching the contra angle with different reduction gear ratio. The product is applicable to 4:1, 10:1 ,16:1 or 20:1 contra angle. For the Reciprocating Rotation, there are clockwise cutting and anti-clockwise cutting. The speed of the reciprocating rotation is adjustable.

The most convenient root canal treatment system , complete root canal length measurement and root canal preparation on the handpiece, you just need to connect a lip hook with the motor to make the canal length measurement and preparation at the same time

Early generation motor requires a tip hook, sleeve and cable complicated and stumble

Portable(rechargable), smart, cordless

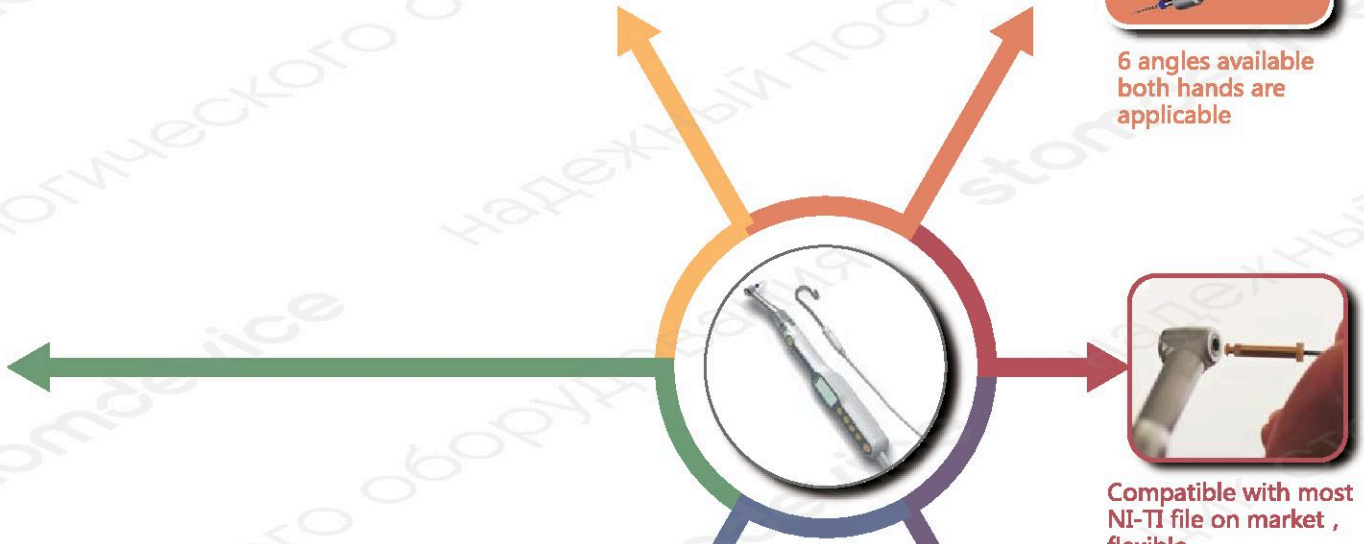

6 angles available both hands are applicable

BOMEDENT motor, no accessories required, clean and clear

Optional Blueteeth function, displayed data synchronize with our apex locator iRoot apex, perfect visibility

Compatible with most NI-TI file on market , flexible

Push button, convenient

High temperature autoclavable parts

APEX LOCATOR CE 0197

iRoot apex

SMART PRECISE

High resolution, wide angle of view LCD, the root canal changes can be clearly observed from different angles
Based on multiple frequency network impedance measurement technology, automatic calibrating ensures the measurements are accurate.

ENDO MOTOR

CE 0197

MARC III

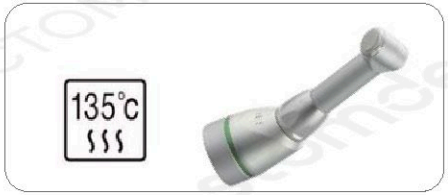

Both hands are applicable

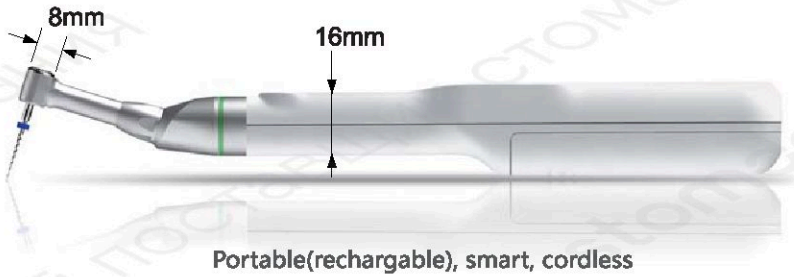

Push button, convenient

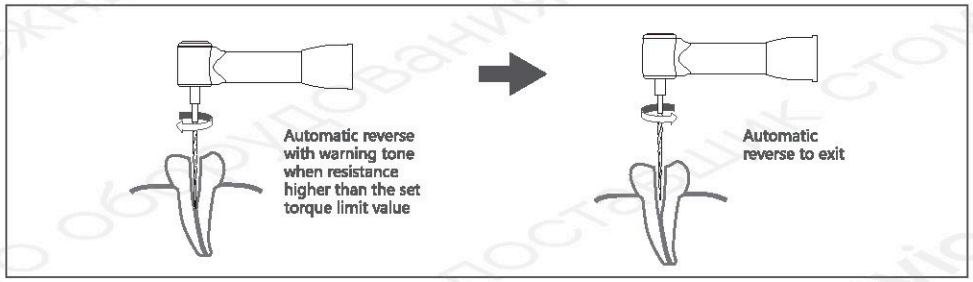

Compatible with most NI-TI file on market , flexible

Can be sterilized by high temperature and high pressure

Portable(rechargable), smart, cordless

The endo motor MAR III can be connected with the apex locator (iRoot apex) by measuring cable to achieve auto start in the root canal and auto reverse when reaching the apex.
