stomdevice

A superior performance using C+Files

• Buckling force

- **Easier location of canal orifices**
- **Easier access to apical third**
- **Better negotiation of calcifications**
- **Better tactile feel**

• Depth gauge

- Makes it easier to determine the working length when working with X-rays
- Easier positioning of the silicone stop at working length

• Pyramid-shaped tip

- Easier penetration during catheterization

• Polished instruments

- Better removal of debris
- Smoother insertion of the instrument in the canal

• Square section

- Better resistance to distortion
- Consistent cutting sensation across the whole range of instruments
- Increased safety

• C+Range

- **Two available lengths, 21mm and 25mm allow optimal efficiency in all clinical cases**
