Redefining the Endo Experience

The X-Smart IQ® handpiece is a continuous and reciprocating cordless motor controlled by an Apple® iOS® application.

Full-Treatment Solution that supports you through every step of your endodontic process – from patient education to treatment data.

Digital Ecosystem through a custom iOS app for synchronization of future products and immediate updates.

Portability and Freedom of Movement in the operatory with an ergonomically-designed cordless handpiece.

Full-Treatment Solution

Seamlessly combining the convenience of a cordless motor with the ease of use and intelligence of an iOS® app, the X-Smart IQ® handpiece redefines the endo experience at every step of your procedure.

1 Pretreatment

Engage and Educate Patients

- If your patients have questions, help address and ease their concerns with the interactive app. Using the tablet makes it easy to engage with patients and educate them about the procedure.

2 Treatment

Flow through your sequence with peace of mind.

- The X-Smart IQ® handpiece lets you flow through your file sequence with comfort, control and peace of mind. Within the iOS® app, select a pre-set Dentsply Sirona file sequence for ease and simplicity. Or, create your own file sequence and save your customized settings for future use. And, if your sequence calls for it, you can quickly switch from reciprocating to continuous motion.

3 Post Treatment

Treatment Data Capture and Transfer

- Capture treatment notes including, tooth number, working length, last file used, obturation, and notes for a specific patient. Transfer your treatment report to your patient file.

Digital Ecosystem

With app-based technology, the X-Smart IQ® handpiece is designed to grow with your practice. Stay up-to-date with new features, easily connect with future products and create customizable treatment plans based on your technique.

X-Smart IQ handpiece offers the same torque and power as a tabletop motor for the pre-set files.
Select a pre-programmed Dentsply Sirona file sequence or easily create and save your own custom settings.

Feel safe with the powerful capabilities of an iOS® app.

- Instant torque level indication: visual and audible sound
- Auto-reverse function available in continuous and reciprocating motion
- Calibration function (CAL) for more precise torque settings
- Graph showing real-time torque applied to each file over time
- RTTM™ Technology (Real-Time Torque Monitoring)

Portability and Freedom of Movement

Slim, well-balanced and cordless, the X-Smart IQ® handpiece sets the new standard in ergonomics and user experience.

*A treatment is defined as 2 canals with 4 files per canal used for 30 seconds each.
