T2 REVO – FLEXIBLE, ECONOMICAL, REVOLUTIONARY

Brilliantly simple, simply brilliant.

The Dental Company sirona.

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

T2 REVO –
the revolution is in the detail.

Sits and fits without vibration!
The robust contra-angle unit with fixed head.

Revolution

Simply revolutionary! The new T2 REVO contra-angle handpiece programme is simply brilliant, with its attention to minute detail. Air and water are fed through an innovative SmartClip™, a separable media insert that is a perfect ergonomic fit and is simple to attach.

"Do it yourself" –
media changes in just seconds with SmartClip™.

SmartClip™

Always ready to use! You know the situation: the spray nozzle is blocked. Even though this is just a minor problem, it is still a nuisance. All this is now a thing of the past, because T2 REVO is ready for use again in just seconds with a simple "do-it-yourself" process. No tools are required.

**T2 REVO with SmartClip™ –
an overview of product benefits.**

- Ergonomic perfection. Contra-angle handpiece programme with exchangeable media insert
- No downtime due to quick changes with SmartClip™
- Extremely robust; complies with the highest hygiene standards
- Technology with a long life span, "made in Germany"

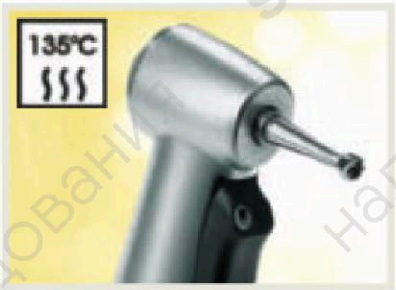

Perfect combination!
The kink-free contra-angle handpiece without transitions features an integrated media insert.

A solid affair!
The attachment ring offers an optimal fit for the media insert.

Hygiene

Always a clean solution! No matter whether it is used by itself or in a combination of contra-angle and SmartClip™, T2 REVO is exceptionally durable and can be repeatedly sterilized in autoclaves up to temperatures of 135 °C.

Made in Germany

Unbeatable advantages! Benefit now in many ways: T2 REVO is simply unbeatable when it comes to quality, functionality, and economical viability. Discover innovation and expertise "made in Germany" at the best price-performance ratio on the market.

T2 REVO –
brilliantly simple, simply brilliant.

SmartClip™ ISL:
with internal spray nozzle
and fibre rod

SmartClip™ IS:
with internal spray nozzle,
without fibre rod

SmartClip™ ES:
with external spray nozzle,
without fibre rod

T2 REVO:
an overview of product benefits.

- Ergonomic perfection combined with sophisticated technology
- A contra-angle handpiece programme that grows with your demands
- Customized solutions without additional costs – the drive always remains the same
- "Do-it-yourself" changes in just seconds

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

A secure future

All in one piece! In T2 REVO, the treatment head and the instrument form a single unit – without vibration. The smart combination of contra-angle handpiece and SmartClip™ guarantees your instrument grows with your demands. Exchange your SmartClip™ and a light bulb comes on in your instrument.

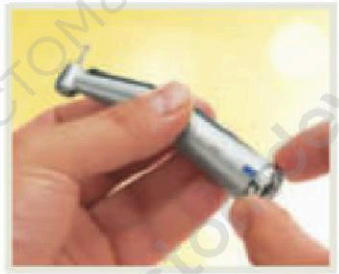

1. Push the media insert underneath the attachment ring until it locks in place.

2. Firmly press it into its guiding groove and slide it into the attachment setup on the side of the head.

3. Now tighten the attachment ring. Done!

Changes in just three simple steps

Always ready! With the sophisticated technology of T2 REVO. Due to the fast and easy changes with SmartClip™ you can use your instrument whenever and in any way you wish.

T2 REVO –
the choice is yours. Today, tomorrow, always.

2-in-1 principle

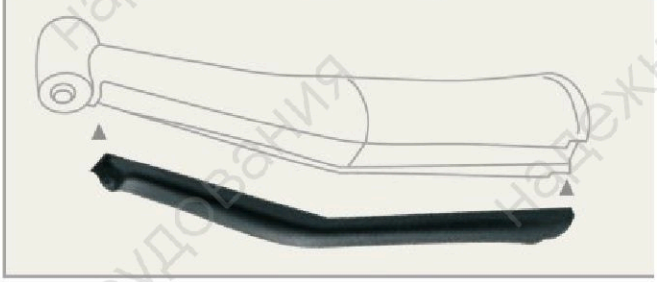

Turn 1 into 2! The T2 REVO handpiece is designed in such a way that you can attach both burs and prophylactic heads to the same handpiece. That saves both time and money.

Free choice! You decide what you want – T2 REVO with the revolutionary SmartClip™ has it all. To suit your needs, you can set up all three contra-angle handpieces, each with 3 different media inserts. Internal spray nozzle, light, or no light – it's your choice and everything works.

SmartClip™ ISL: with internal spray nozzle and fibre rod

SmartClip™ IS: with internal spray nozzle without fibre rod

SmartClip™ ES: with external spray nozzle without fibre rod

Ergonomics

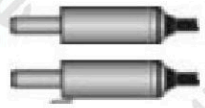

Even more internal feeds! T2 REVO can be equipped with the SmartClip™ ES for supplying external media. To do this, the silicone hose is simply placed into a small tube on the insert. In just a few seconds, the external media feed turns into an internal supply.

Types		Gear ratio	Light	Applica-tion	Equip-ment	Strokes/ Speeds** [min⁻¹]	REF
