DIPLOMAT
DENTAL
SOLUTIONS

The right choice.

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

Endless possibilities.

Don’t even let us get started on the dozens of options you can choose from. You can customize every little detail of the dental unit to completely satisfy your needs.

Timeless design.

The basis of the design and materials used in the Model One comes from our premium Model Pro line. The design follows proven principles of ergonomics. Enjoy the essential version to comfortably perform your basic daily activities.

Reliable partner.

Model One is built with similar and simpler mechanics and electronics than our premium line Model Pro. It is made from premium materials.

Its manufacturing technology has been standardized with our premium line and has already been tested and proven reliable long before product release. Each dental unit is thoroughly tested before it is sent to customers.

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

The right choice.

Looking for the right dental unit that brings outstanding performance and provides exceptional comfort for your patient at a competitive price? Model One might just be it.

Model One 100.

Model One 200.

Model One 100.

Carried version

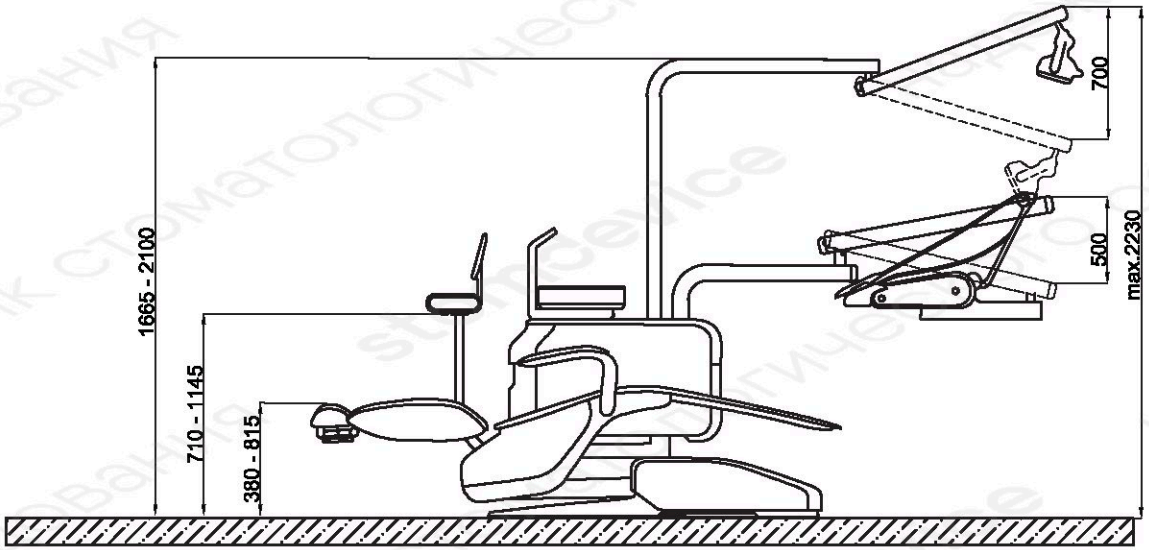

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

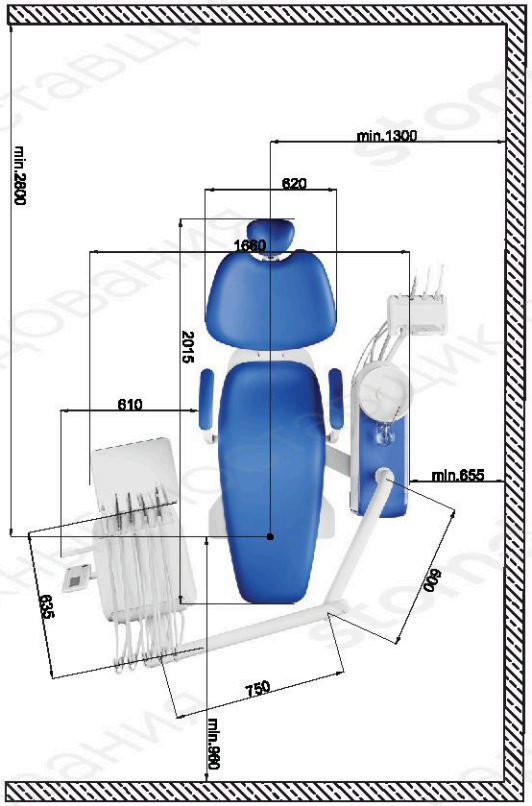

Model One 200.

Lift version

Model One 100.

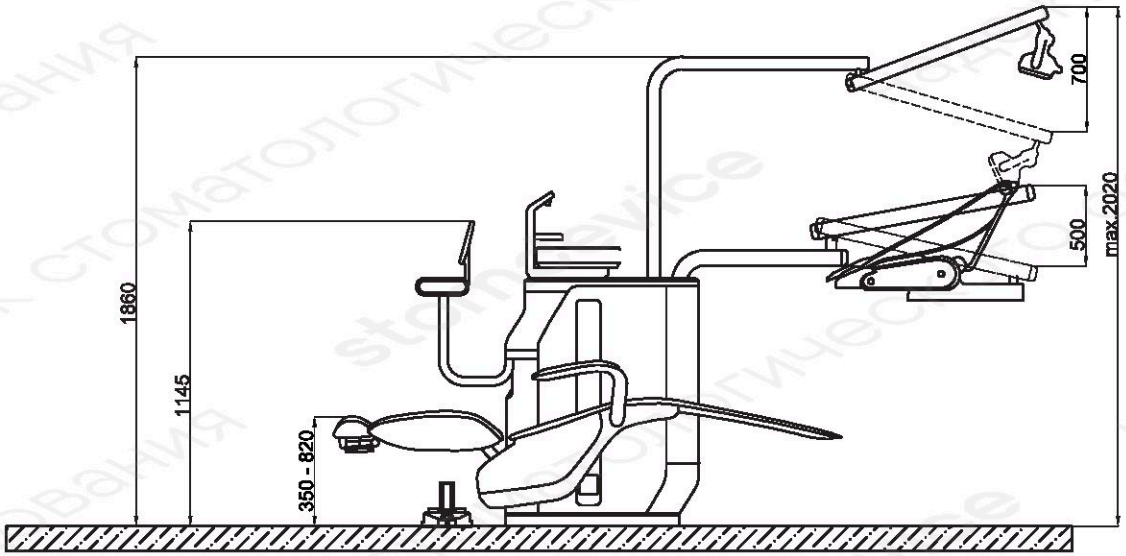

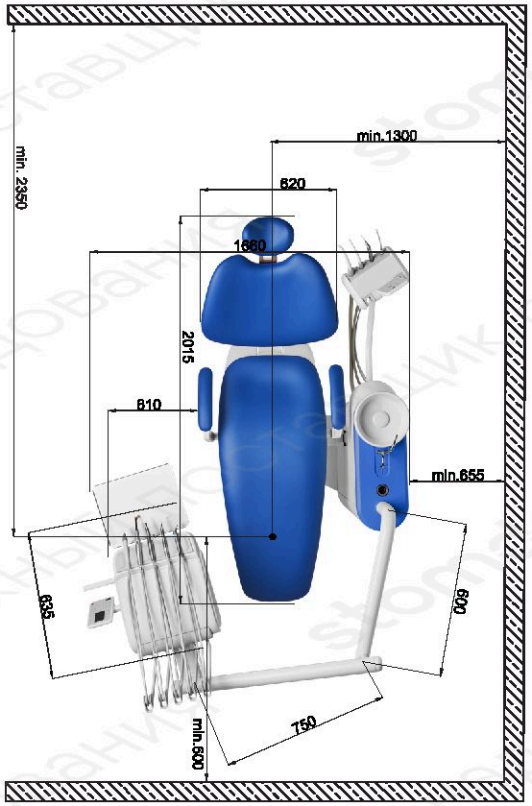

The dental unit with spittoon block and patient chair with synchronized movement. They allow the patient to maintain an optimal distance with the cuspidor bowl during rinsing phases, regardless of the patient's height.

Both models are equipped with a robust chair handling mechanism capable of lifting up to 200kg, making them an excellent choice for practices with a high volume of patients.

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

Model One 200.

The dental unit with a suspended patient chair and a floor-mounted water unit. It is perfect for practices with limited space due to its compact design. The chair can be lowered significantly to allow easy entry and exit for all patients (the chair can be lowered up to 350 mm from the floor).

Both models are equipped with a robust chair handling mechanism capable of lifting up to 200kg, making them an excellent choice for practices with a high volume of patients.

Endless possibilities.

Close your eyes and imagine the dream dental unit. Now open them, and make it happen with Model One. With almost endless customization options, the way your Model One looks and works is just up to you.

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

Up or down?

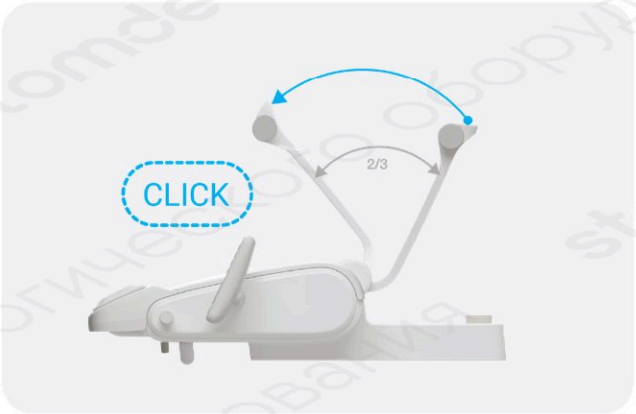

Enhance your dentist's element with an upper or lower hose delivery system.

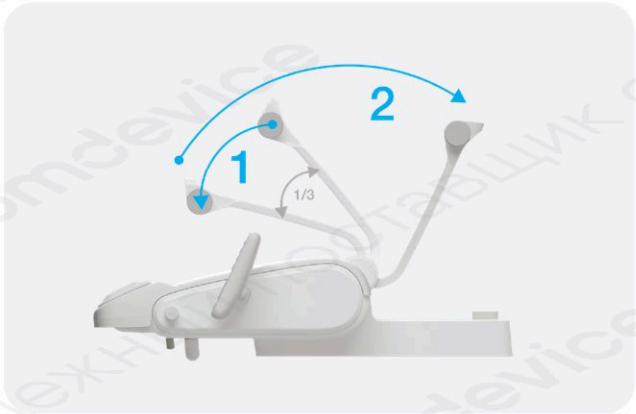

Hold the whip hand.

The dentist's element with instrument hoses routed in the upper hoses configuration may be equipped with a whip lock. An instrument whip is routed to the instrument placed in a designated slot. The whip is pulled towards the stop to unlock. The whip then returns to its resting position.

Put your skills on display.

The control panel on the dentist's element comes in two variants. The button layout of both options include controls for four custom chair positions and the getting-on position. You can also pre-program two unique dentist profiles for both of the variants.

Control panel One.

The standard control panel comes with a 5-digit display unit which provides you with information regarding the RPM of the currently used micromotor. This version of the control panel includes buttons for the chair, light, cup and cuspidor control. It also rocks a fancy negatoscope!

Control panel One Plus.

The advanced control panel comes with a full-color display and extra buttons to control the endodontics fuctions of your instruments. This choice also supports automatic hygiene.

1 **Buttons for light,cup, cuspidor**

2 **Buttons for chair control**

3 **Buttons for instrument settings***

*Some functionalities are only available on Control Panel One Plus

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

Intuitive instrument control.

The instruments on the dentist’s element are activated once removed from the individual holsters.

One button to rule them all.

The instrument settings can be customized with four different presets.

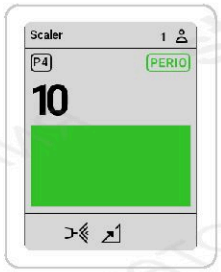

Multi-colored LED indicators on Control panel One.

To support a dentist's workflow while using Control Panel One we use intuitive multi-colored LED indicators to recognize switching functionalities.

	LIGHT OFF	WHITE LIGHT	BLUE LIGHT	GREEN LIGHT
	Cooling down	Spray cooling	Water cooling	Air cooling

Pick your scaler.

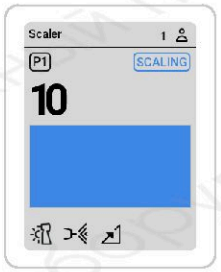

The selection of scalers compatible with Model One's Control panel One Plus includes:

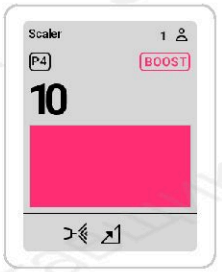

PERIO

ENDO

SCALING

BOOST

Scaler	PERIO	ENDO	SCALING & GENERAL	BOOST
Satelec SP Xinetic	•	•	•	
Satelec NEWTRON	•	•	•	•
Satelec NEWTRON LED	•	•	•	•
NSK VA170	•	•	•	
NSK VA170 LED	•	•	•	
WOODPECKER		•	•	
EMS	The EMS scalers do not have specific functions. Their intensity range is from 0-10, which covers all modes.			

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

Endodontic functions.

Control Panel One Plus with micromotor DX Pro or DX Pro Blue enables you to use additional endodontic functions. This includes auto-reverse and auto-forward features.

It’s possible to adjust the speed range from 100 to 40,000 RPM and the torque is adjustable to 3.5Ncm.

And yet it moves!

The standard version of the Model One's cuspidor is fixed to the cuspidor. However if you want to provide your patients with additional comfort, you can choose the rotary option.

What light will you turn on?

You can choose from the XENOS or the MAIA dental lamps. The Xenos lamp reaches up to 26.000 Lux. The MAIA lamp up to 35.000 Lux and CRI>95. Both lamps have hands-free operation functions thanks to the no-touch sensor.

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

stomdevice

Pedal to the metal.

Even though you might not feel the same adrenaline as in a racing car, you get ergonomic and practical benefits from using foot controllers. You can select from four options compatible with Model One.

MARQUARDT

Stable and skid-proof thermoplastic housing with rubber feet.

NOK

Vertically operated multifunction foot pedal to control instruments, chair and water unit.

UNO

Horizontally operated multifunction foot pedal for controlling instruments, chair, and water unit.

SWING

Horizontally operated multifunction foot pedal for controlling instruments, chair, and water unit. With Improved ergonomics and easy control of the instruments' spray with the lever.

Ready for an extra pair of hands.

The assistant’s element has six instrument holders. Two versions are available: BASIC and ADVANCED. The BASIC assistant element allows the assistant to control cuspidor rinsing and cup refilling. With the ADVANCED assistant's element, you will also be able to control the chair’s movements, including the Trendelenburg position.

Basic

Advanced

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

Fast, faster, Model One.

Model One has simple manual hygiene in the standard version, but you can upgrade to fully automatic hygiene. Model One maintenance is fast and easy, regardless of your choice.

Even manual disinfection is an easy chore.

If you choose the standard version of Model One, which is not equipped with an automatic water channel and suction hose hygiene system, regular manual hygiene is still possible. All of the systems are very easily maintained and come with simple and clear recommendations.

Automatic disinfection of instrument water channels.

The recommended disinfectants are Alpron, Sanosil S003, or Dentosept P in a 1% concentration with distilled water. These products in a 1% concentration are completely inert with respect to patients.

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

Hygiene holder.

Instrument hoses in hygiene holder.

Automatic hygiene of big and small suction hoses.

Intensive disinfection of instrument water channels.

The recommended disinfectants are Alpron, Sanosil S003, or Dentosept P in a 100% concentration. The cooling system channels are kept clean and there is no need to use other means of disinfection.

Automatic hygiene has 4 settings options:

1. Beginning of a workday hygiene.
2. After treatment hygiene.
3. End of a workday hygiene.
4. Intensive hygiene.

Timeless design.

We shaped the award-winning design of our Model Pro Series and used it to create the Model One fundamental design, to support the dentist in their essential needs. The same materials, body parts, and ergonomically oriented design philosophy.

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

Business class tickets, please.

Next time your patients visit you, let them know they may as well imagine they're sitting in a limo. Why? We've teamed up with ergonomics experts from the dental industry to design this absolute masterpiece of a dental chair to reduce your patient's physical strain and make them as comfy as possible.

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

Simple is an understatement.

The control panels use a clear and simple button layout, graphics, and a high-quality surface finish. We've kept it simple, so you can completely focus on your job without any distractions or mistakes.

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

Hard to get your eyes off of it.

Clean geometry, well-designed user interface, compact size, and great ergonomics. All of these combine to make Model One not just a sight to see, but, also a great product to use.

Pleasant to the touch.

Most of the materials used, such as UV-resistant and chemically resistant ASA plastic or galvanized semi-matte metals, can match even the most premium products on the market.

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

stomdevice

Love at first seat.

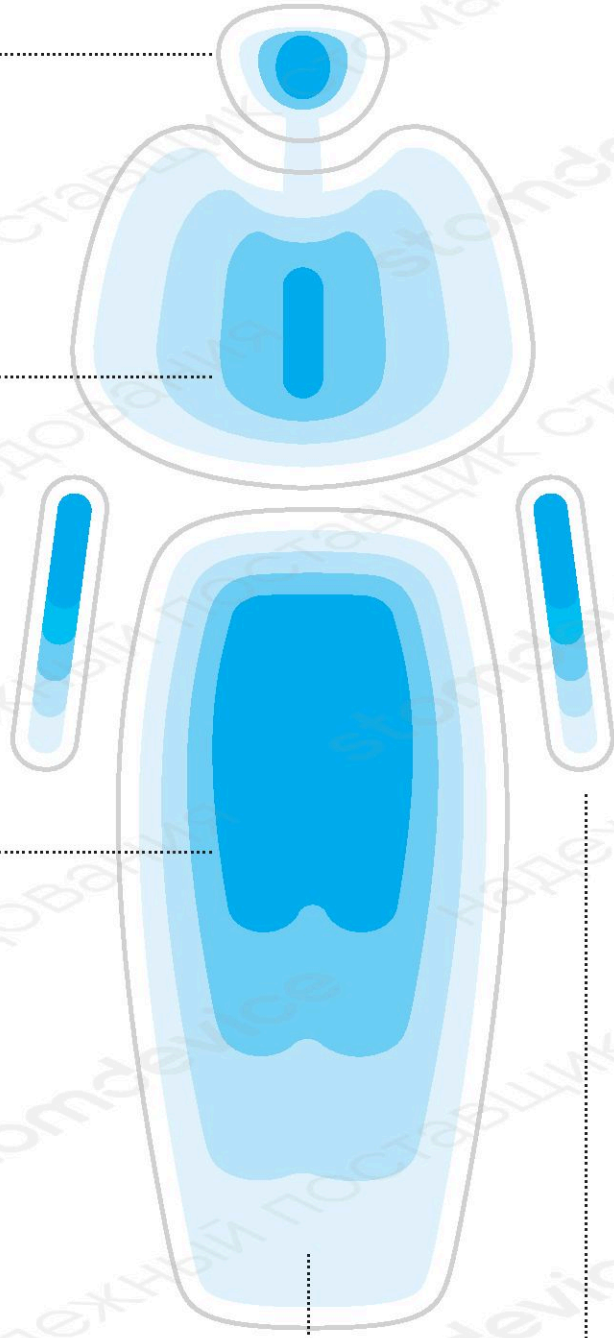

Headrest accepts and copies the shape of the neck and head of any patient.

Shoulders naturally drop so as to ensure a comfortable back position.

Seat and backrest relieve the patient and make them feel supported.

The Trendelenburg position is a standard feature.

Lying position with legs fully supported and arms resting comfortably to enhance relaxation.

The base of Model One's design, ergonomics and materials used come from our premium model line Model Pro.

a) The backrest is wide enough to ensure patients' upper body side movement.

b) For the most demanding dentist, a 3D headrest is essential to allow a lateral flexion position of the patient head.

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

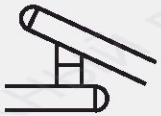

Model One takes care of you.

It’s not just your patients but you that deserve the best. Musculoskeletal problems appear to be the leading cause of dental practitioners’ premature retirement from practice.

Great ergonomics are essential for your long-term health. Model One meets all the conditions for ergonomic work, from palatine treatment to operational positions.

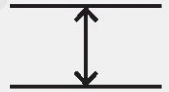

Some of the ergonomic highlights:

The dental unit’s arms are ergonomically adapted for your daily work.

The backrest allows the sideways movement of the patient’s upper body.

Minimum backrest thickness to allow dentists to get close to the patient’s head.

The dentist's and assistant's elements can get incredibly close for a two-handed treatment at the 12 o’clock position.

The assistant's element can free the space for four-handed treatment.

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

Feeling frisky?

Whatever you feel like, we're giving you the freedom to express yourself. With the choice of dozens of color and upholstery options, it's just about your preference. Take a look at the most popular choices. You'll find all available options in our **upholstery catalogue.**

Standard Collection.
By picking the Standard version, you will be able to enjoy the typical leather look. This soft-to-touch and flexible material is highly durable, resistant to scratches, and well-protected from UV radiation.

Special Collection.
By picking the Special version, you will be able to enjoy the typical leather look. This soft-to-touch and flexible material is highly durable, resistant to scratches, and well-protected from UV radiation. Not only that, you will have unique colors to choose from!

Special Plus Collection.
Light material with high flexibility and a perfect finish. By being phthalate-free, the Swiss-made Special Plus version brings extra safety for the user while being easily cleanable and meeting all fire safety standards.

Premium Collection.
With its natural grainy look, the Ultra-leather Premium version delivers a quintessentially classic style that elevates the experience of leather. It is soft to the touch with reinforced rayon backing and industry-leading cutting-edge durability. Premium stitched upholstery is available to order only with active foam to ensure maximum patient comfort.

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

Choose custom color for upholstery and plastic cover.

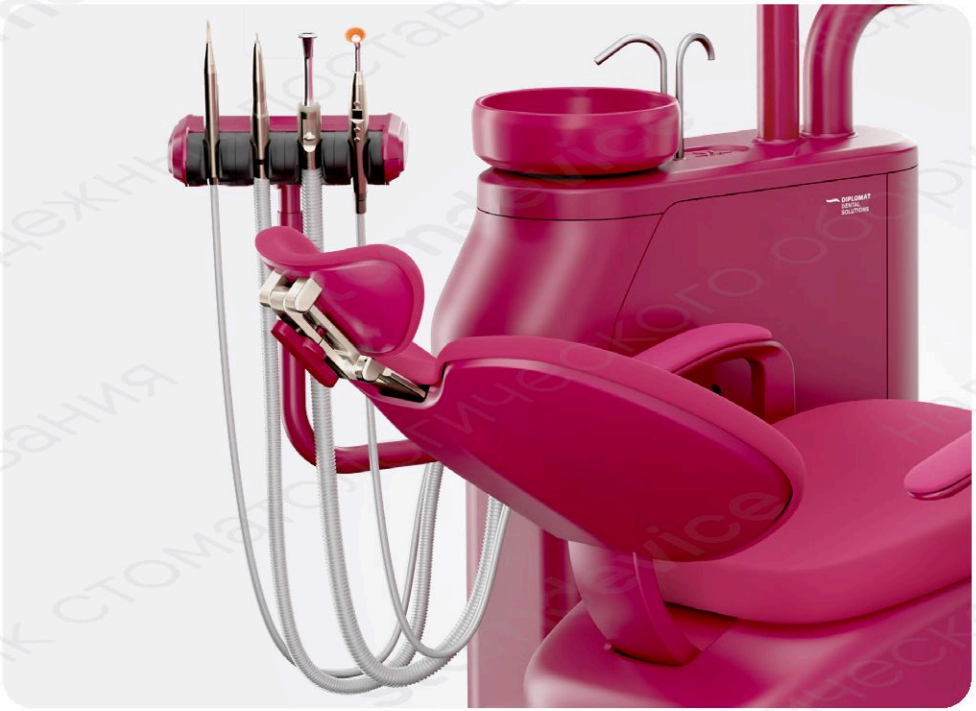

Express your style.

Choose from new color options and match your upholstery with other parts of the dental unit.

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

The full painted units photos presented are demonstrative. Some of the elements of the unit, such as foils (control panel, assistant element), instrument holders, whip arms, rubber covers, must remain in original colors, cannot be painted. Ask your dealer for details.

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

Reliable partner.

Ease of use and essential functions are the main philosophy behind Model One. Even on your first day with Model One, it will feel like you've worked with it for ages.

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

In your natural habitat.

Model One provides comfortable access to all your tools, instruments and control panels at all times.

Comfortable for all shapes and sizes.

The range of the chair lift is extremely large – from 35 cm to 82 cm. Thanks to this, your child patients will easily be able to hop onto the chair. It also provides a comfortable workspace for dentists of smaller or even larger stature.

Installation? Eaaaasyyyyy.

The installation of Model One is very easy and swift, and you can start working almost as soon as it’s delivered to you.

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

Get to know Diplomat Dental.

Diplomat Dental is a family company with a traditiondating back to 1945. Located in the European dental valley, in Piešťany, approximately 100 kilometers away from Vienna, it holds the perfect position not only in terms of location but also experience gained over the 60 years of development. With thousands of satisfied dentists all overthe world, the company is now making the breakthrough into digitized dentistry with the help of the 3rd generation of Nerád family CEO.

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

1945

Miroslav Nerád becomes the CEO of Chirana, the predecessor of Diplomat Dental.

1950

The first dental accessories are being developed.

1989

Chirana is divided into multiple independent companies.

1992

Eur-Med distribution company is founded by Miroslav Nerád II.

1996

Nerád family invests into the Piešťany headquarters.

2012

Chirana rebrands to Diplomat Dental.

2013

Tomáš Nerád becomes CEO of Diplomat Dental.

2021

A new premium product line Model Pro is introduced. It won multiple design awards including the most prestigious one – Red Dot Design Award.

2022

Model One is introduced to the market.

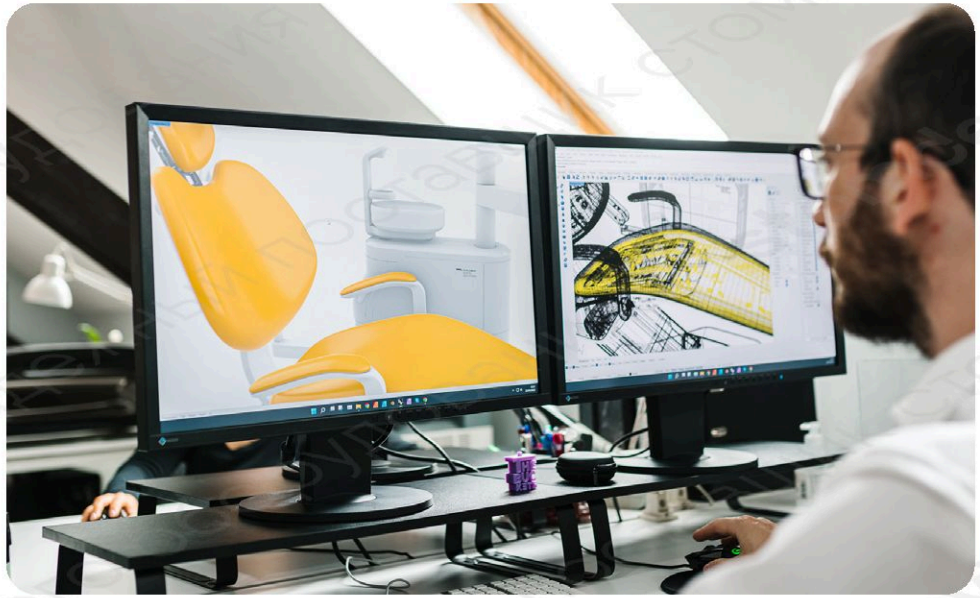

2023

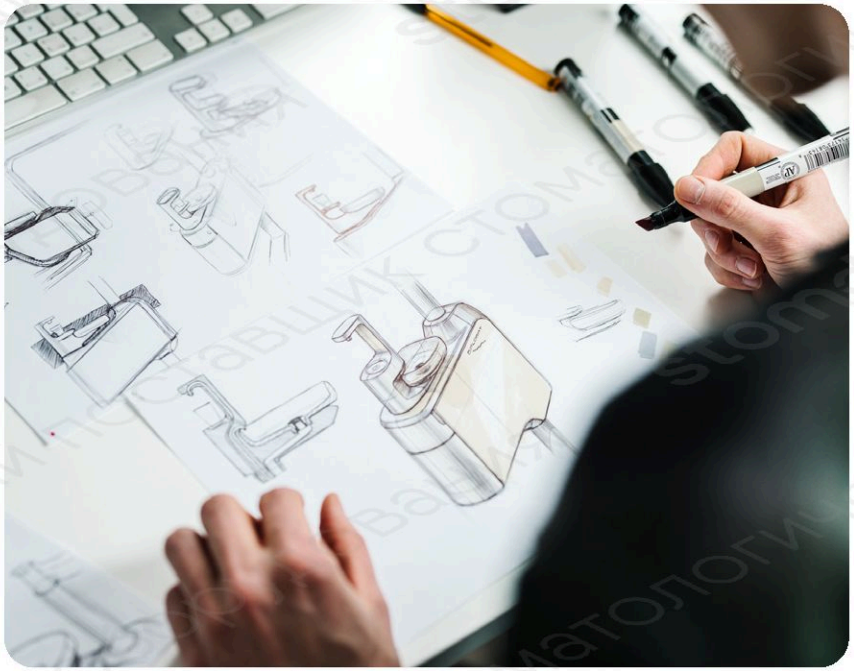

Tomáš Nerád wins the EY Technical Entrepreneur of the year award.

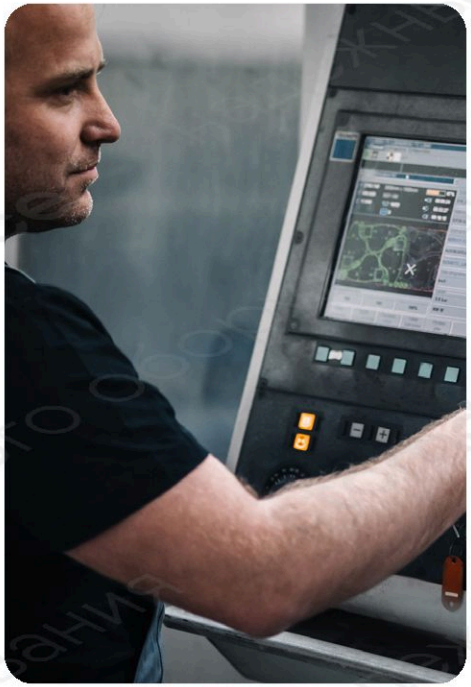

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

Focus on reliability & high quality.

All our products are carefully designed and engineered to meet the specific needs of our customers while always attaining our high-quality standards.

90% of our components are manufactured in-house. Each component of every dental unit is thoroughly checked more than 15 times during the manufacturing process as we process it from the input material to the final element of the dental unit.

One of our biggest strengths lies in our R&D team and our numerous cooperations with experienced partners and industry experts.

Each newly developed product is tested internally for four months

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

to a year in our internal test room. After this process, our beta tester dentists work with the prototypes for up to one year while we use their feedback to fine-tune the product.

Diplomat Dental products are highly customizable. We can accommodate specific requirements and needs of our customers.

"Our product philosophy in to focus on open platforms, modular and intelligent solutions that improve the workflow of your dental office – making advanced technologies and smart tools easy to use and accessible to every dentist."

Tomas Nerad,
CEO – Diplomat Dental
