DO M

Mobile, powerful and stand-alone dental suction pump DO M (Aspina) can fully replace the suction on the dental unit. It provides high-performance, mobile, independent and ergonomic suction suitable even for demanding treatments. Suction hoses and holders with suction regulation are fully compatible with variouse suction tips. Separation and waste collection is realised into the built-in separation vessel. DO M is suitable for alternating work between multiple treatment rooms and is especially useful in places with no connection to the drainage system. For its quiet operation and high performance, it is popular everywhere, where high suction performance and the comfort of a patient are required.
