AIR-FLOW® KILLS BIOFILM

ems-swissquality.com

> A specially designed disposable PERIO-FLOW® nozzle delivers a mix of fine subgingival powder, water and reduced air-pressure directly into the pocket

> Optimum gentle kinetic energy removes biofilm in the pocket in only 5 seconds per site

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

stomdevice

ORIGINAL AIR-FLOW® THERAPY →

SUB- AND SUPRAGINGIVAL PROPHYLAXIS ON NATURAL TEETH AND IMPLANTS

ORIGINAL AIR-FLOW® THERAPY → SUPRAGINGIVAL

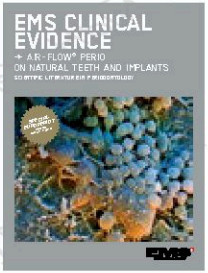

> Gentle application of the kinetic energy – no damage to the epithelium or connective tissue, no scratching of the tooth surface

> Reliable, fast and efficient for the practice – stress-free and comfortable for the patient (no curette – no noise)

ORIGINAL AIR-FLOW® PERIO THERAPY → SUBGINGIVAL

> Effective air-polishing beneath the subgingival border with optimum removal of bacteria in deep periodontal pockets (up to 10 mm)

> Sustained reduction in bacteria helps prevent tooth loss (periodontitis) or loss of implants (periimplantitis)

> Clinical evidence of the superiority of the Original AIR-FLOW® PERIO Therapy. Download the electronic edition on www.air-flow-perio.com

INSTRUMENT A

To remove supragingival deposits in all quadrants

DS-001A

INSTRUMENT B

To clean lingual surfaces with heavy stains and calculus

DS-003A

INSTRUMENT P

To remove supra- and subgingival deposits in all quadrants

DS-011A

INSTRUMENT C

To remove deposits and stains – especially suitable for removing bonding residue, e.g. in orthodontics

DS-002A

INSTRUMENT PS

For fine scaling and root debridement

"EMS Perio Slim had best interproximal and subgingival access"
– *Clinical Research Associates Newsletter, USA, June 1998*

DS-016A

INSTRUMENT PL3

Instrument to irrigate and disinfect periodontal pockets – especially suitable for follow-up and recall visits

DS-032A

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

INSTRUMENT PL1 / PL2

Instrument for periodontal debridement – especially suitable for difficult-to-reach interproximal surfaces

PL1 – left-curved	DS-030A
PL2 – right-curved	DS-031A

INSTRUMENT PL4 / PL5

Instrument with small ball [> *0.8 mm diameter*] on instrument tip for the periodontal debridement of furcations and concavities

PL4 – left-curved	DS-033A
PL5 – right-curved	DS-034A

INSTRUMENT HPL3

Diamond-coated (70µm granulation) periodontal instrument for in-depth root debridement using direct vision [> "flap"] – for smoothing restoration overhangs as well as expanding root furcations [> odontoplastics]

DS-075A

INSTRUMENT DPL3

Diamond-coated (15µm granulation) periodontal instrument for in-depth root debridement using direct vision [> "flap"] – for smoothing restoration overhangs as well as expanding root furcations [> odontoplastics]

DS-065A

INSTRUMENT PI - IMPLANT CLEANING WITH PIEZON®

For the effective and gentle cleaning of implants and corresponding restorations

PI STARTER KIT FS-295#

4 Instruments PI, 1 file holder (120°), 1 flat wrench

PI REFILL DT-065A

4 Instruments PI

ENDODONTICS

INSTRUMENT RT1

Diamond-coated instrument for the entry location of root canals and removal of calcifications in the coronal third of the root system

DS-066A

INSTRUMENT D

For the removal of cemented crowns, bridges and pins

DS-005A

INSTRUMENT RT2

Diamond-coated instrument for the removal of shoulders and other obstacles as well as for the creation of straight canals for easy access to broken instruments

DS-067A

INSTRUMENT H

For lateral thermal condensation of gutta-percha

DS-004A

INSTRUMENT ESI

Non-cutting NiTi instrument with safe round tip for effective cleaning and irrigation of the root canal system – to be used with 90° or 120° file holders

ESI STARTER KIT
6 Instruments ESI ISO 15, 1 file holder (120°), 1 Flat wrench

FS-279#

ESI REFILL
6 Instruments ESI ISO 15

DT-069A

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

FILE HOLDER 180°

To be used with RT3 instruments as well as Berutti and RE2

DS-069A

FILE HOLDER 120°

For the flexible use of different endodontic files, works well in anterior and premolar area. Also suitable for RT3, RE2, Berutti and ESI instruments

DS-010A

FILE HOLDER 90°

For the flexible use of different endodontic files, including ESI. Recommended for the molar area

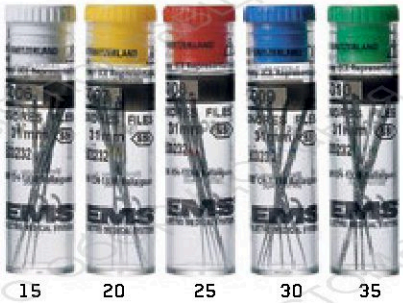

DS-012A

FLAT WRENCH

To change the instruments in all three file holders

DT-018

ENDODONTIC FILES COMPLETE SET

For shaping, cleaning and disinfecting the root canal systems

6	Endodontic files ISO 15	(White)	DT-006
6	Endodontic files ISO 20	(Yellow)	DT-007
6	Endodontic files ISO 25	(Red)	DT-008

COMPLETE SET OF ENDO FILES - ORDER N° DT-011

stomdevice

ENDODONTICS

INSTRUMENT RT3

Very long and titanium alloy-coated instrument for the removal of broken parts. To be used with 120° or 180° file holders

5 pieces **DT-062**

INSTRUMENT RE2

Instrument for the preparation of retrograde root canal connecting isthmuses. To be used with 120° or 180° file holders

5 pieces **DT-061**

BERUTTI INSTRUMENT

Diamond-coated instrument for retrograde root canal preparation. To be used with 120° or 180° file holders

5 pieces **DT-060**

CONSERVATIVE MEASURES

INSTRUMENT SP

For the cementation of ceramic inlays, onlays and veneers [> without SP cap]

1 Instrument SP **DS-015A**

6 SP Caps **EL-063**

INSTRUMENT F

For the condensation of large amalgam fillings

DS-007A

INSTRUMENT E

For the condensation of small to medium amalgam fillings

DS-006A

INSTRUMENT G

To smooth and burnish amalgam fillings and gold foil fillings

DS-008A

CAVITY PREPARATION

INSTRUMENT SM

Partially diamond-coated instrument for the preparation of mesial cavities – without damaging the adjacent tooth

DS-051A

INSTRUMENT PF

Diamond-coated instrument for cleaning and enlarging fissures

DS-062A

INSTRUMENT SD

Partially diamond-coated instrument for the preparation of distal cavities – without damaging the adjacent tooth

DS-052A

INSTRUMENT VE

Diamond-coated instrument for the preparation of veneers – for clearly defined margins with maximum protection of the gingiva and the adjacent tooth

DS-064A

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

INSTRUMENT SBM

Partially diamond-coated instrument for finishing approximal mesial cavity margins

DS-060A

INSTRUMENT SBD

Partially diamond-coated instrument for finishing approximal distal cavity margins

DS-061A

INSTRUMENT SB

Diamond-coated instrument for opening small occlusal and buccal defects

DS-057A
