FONA 1000 C

BUILT FOR RELIABILITY

FONA 1000 C is a durable solution based on German Baustein valve system which is extremely powerful and resistant to water quality. Main construction parts, made of aluminum or steel, are protected by phosphating and are build to survive even in demanding environment.

EASE OF USE AND MAINTENANCE

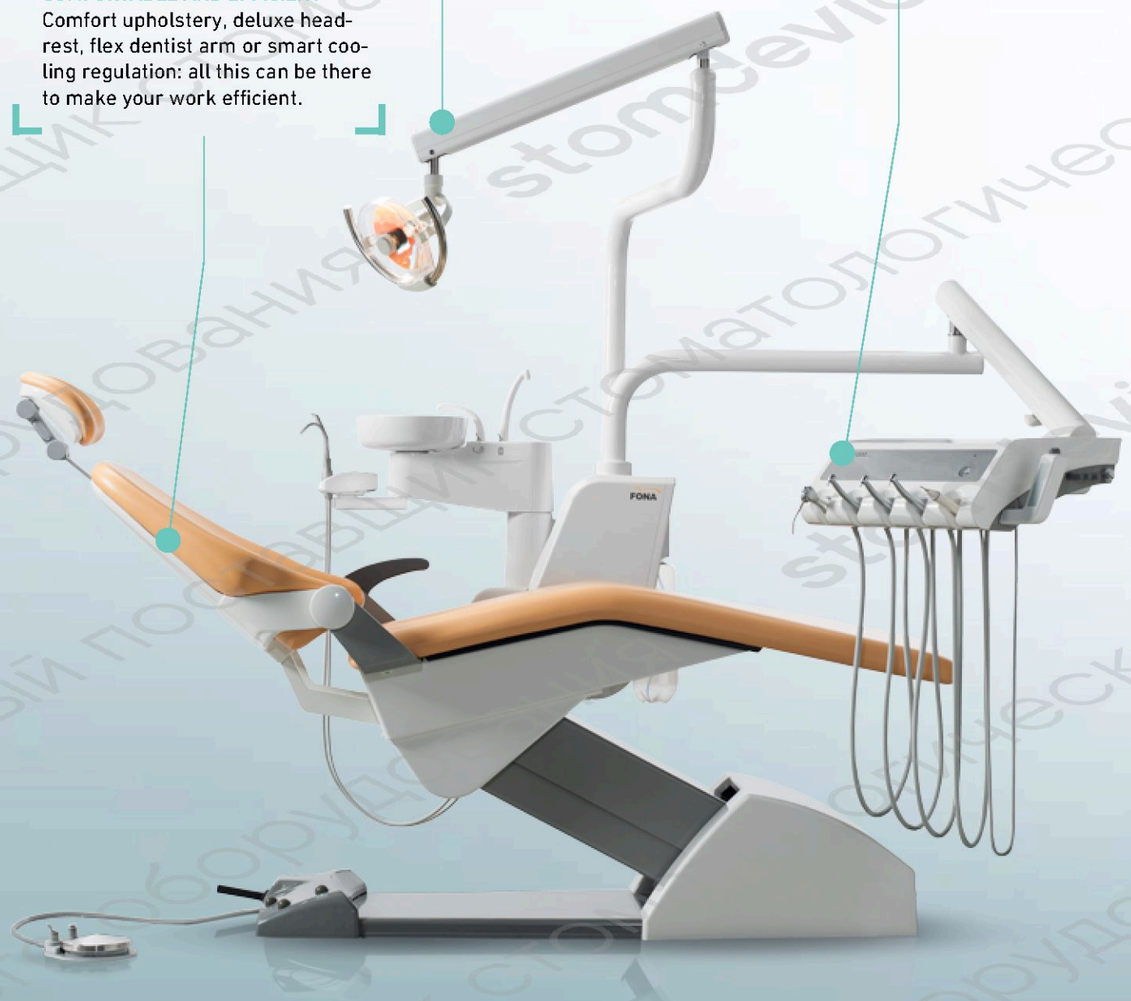

Patient head positioning with just one hand, touch-less cleaning of filters and hands-free control of the chair is just smooth and easy.

RELIABLE EVERY DAY

Dentist element is based on the German Baustein system, which combines lasting reliability with high performance.

COMFORTABLE AND EFFICIENT

Comfort upholstery, deluxe headrest, flex dentist arm or smart cooling regulation: all this can be there to make your work efficient.

Features

Hanging hoses dentist element
Can be equipped with up to 6 instruments. Easy to fix in desired position with integrated mechanical brake.

Built to last
Aluminium and coated steel construction ensures long life of dental unit.

Hands-free operation
All functions are controlled by feet to eliminate the possibility of cross contamination.

Upholstery protection
Protective PVC cover prevents the damage to upholstery.

Ergonomic and hygienic
Easy to clean silicon water regulators are located ergonomically on the side of dentist element.

Assistant element
Single instrument assistant element equipped with saliva ejector.

Options

Two instruments assistant element
Double suction solution for advanced treatments.

X-ray viewer
Diagnose the x-ray directly on dentist element.

Junction box
Allows remote installation of media.
