Industrial Image sensor
1.3 megapixel HD CMOS sensor could ensure high quality intraoral images.

Professional dental lens
Professional lens is an important precondition to generate high quality images which reflect the objects truly and make it easier to take photos.

Direct digital imaging
USB2.0 interface with direct digital imaging, no capture card required, achieve higher speed and lossless images.

Powerful imaging management software
HandyDentist provide multifunction for image processing and case management which facilitate better communication between dentists and patients.

Support the third party software
SDK of hardware are available to OEM customers and our Twain driver make the hardware possible to work smoothly in any other software with Twain function.

Double-side freeze button
Ergonomic design of double-side freeze button brings dentists much more convenience in pratice

Specification

Image Sensor	1/4" HD CMOS
Active Pixels	1280 x 1024 (1.3MP)
Resolution	1280 x 720 (720p)
Frame Rate	30fps@720p
Focus Range	5mm~35mm
Angle of View	80°
Distortion	＜5%
Lighting	6 LEDs
Signal Output	USB 2.0
Length of Cable	2.5m
Driver Type	UVC/WDM
TWAIN	Yes
Operation system	Windows 2000/XP/Vista/Windows 7/Win8(32bit&64bit)
