HARMONIC
TECHNOLOGY

Clinic Brushless Electric Micromotor
STAR 800EM
Easy To Upgrade Your Dental Unit

Specifications :

1. LED Light
2. Internal Water Spray
3. Revolutions: Min 2,000 – Max 40,000rpm
4. Dimension of Micromotor: φ22×L71mm
5. Weight of Micromotor: 67 g
6. Power: AC 24V and DC 36V
7. Noise: ≤ 60dB
8. Forward / Reverse Switchable
9. Torque: 3.4 Ncm

*** Exact revolutions adjustment make treatment realize precise operation**
*** Super torque Saving operation time, especially tooth preparation time**

It makes everything easy that Micromotor is operated by Foot Control of dental unit just like air turbine motor!

Wider Clinical Application:
International Standard E Type, Compatible with HARMONIC or NSK, KAVO, W&H etc. international famous brand handpieces, such as 1:5 increasing, 1:1 direct drive, 4:1 or 16:1 Reduction contra angle and straight.
