THE INSTRUMENT MANAGEMENT SYSTEM

It may seem like a small step, but instrument management can have a big impact on your practice. Keeping instruments organized and managing them properly improves the flow of your practice. The sterilization area can run more efficiently, and staff members can remain focused on the patient and providing the best level of care. The INSTRUMENT MANAGEMENT SYSTEM (IMS®) BY HU-FRIEDY keeps instruments organized and protected in cassettes. This allows clinicians to efficiently move instruments from chairside through instrument reprocessing to storage in a safer, more compliant process.

1. Chairside: Patient Preview & Presentation

- Systematically organizes instruments according to procedure type, allowing for more focus on patients and less time spent looking for missing instruments.
- Neatly organized instruments offer a more professional appearance and can help enhance referrals.

2. Cleaning: Processed & Prepped

- Instruments are kept together throughout cleaning, rinsing and drying, reducing the potential for breakage or loss.
- Minimizes handling of instruments, reducing the chance for sharps injuries.

3. Sterilization: Wrapped & Ready

- Less likely to overload the sterilizer, which ensures instruments are properly sterilized.
- Reduced handling of instruments provides safer protocol and minimizes liability.

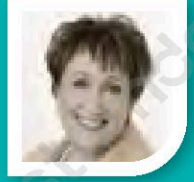

4. Storage: Neat & Complete

- Ready for use or storage until needed for increased time savings.
- Complete procedural set-ups for easy set-up and teardown.

	Chairside	

Visit **HU-FRIEDY.COM/IMS** to learn more about how IMS saves time for practices.

MORE EFFICIENT

At every dental office, the sterilization center is the central hub. Everything flows in and then flows back out. When reprocessing moves slowly, it creates a bottleneck that impacts the entire office.

It can be easy to overlook the importance of the sterilization center. Though it's often the busiest area of a practice, it doesn't generate any revenue, and the required labor is a large expense.

With IMS, practices can **STREAMLINE REPROCESSING** by eliminating the time-consuming steps that slow down staff. Instruments don't need to be scrubbed by hand and they don't need to be sorted and pouched. That time saved adds up quickly. On average, offices that use IMS see a time **SAVINGS OF 5 TO 10 MINUTES** per procedure.* Over the course of a day, that saves offices an hour or more.

Your practice doesn't have extra time to waste on more time-consuming processes. With IMS, staff is able to work faster and get more done during the day, instead of working later to wrap up everything that didn't get done.

"When presenting at our design courses, we ask attending dentists "Do you know how to sterilize your own instruments?" The response is either a blank stare or a definitive "No I can't." And each time it highlights the disconnect for dentists in developing an efficient and effective sterilization area within their facility. This disconnect often results in undersized, improperly sequenced and ill-equipped outcomes.

We as designers rely upon and highly recommend that our clients resource Hu-Friedy's expertise in all aspects of instrument processing. In our experience, all dentists can benefit from Hu-Friedy's sterilization observation consult. It is an excellent entry point to identify sterilization issues and provide solutions."

–JEFF & PAT CARTER

*Based on Hu-Friedy market survey results when compared to single instrument reprocessing.

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

RETURN ON INVESTMENT

When practices invest in IMS, they often see an immediate change, most noticeably in their bottom line. That's because the time saved with IMS adds up throughout the day.

Even a conservative estimate of 5 minutes saved per procedure – most practices **SAVE 5 TO 10 MINUTES PER PROCEDURE*** with IMS – means more time to see new patients. That can lead to **TENS OF THOUSANDS OF DOLLARS IN NEW REVENUE**.

Refer to the chart on the right to see the potential growth your practice can see with IMS based on the your current number of procedures and revenue per day.

You can also calculate your potential savings at **Hu-Friedy.com/IMS-calculators**.

"As the former CEO of T.H.E. Design, I was involved with the design of thousands of elegant offices, but few items enhanced the efficiency of the practice like the IMS cassettes by Hu-Friedy. We could create an extremely efficient sterilization area which was smaller by a third when the practice employed IMS cassettes...as opposed to the practice employing trays with bagged instrumentation. ... By utilizing IMS cassettes and an instrument washer, the average practice was saving two hours of labor every day in sterilization. Two big reasons I strongly recommended, and continue to recommend, the use of IMS cassettes."

– MARK THOLEN, DDS, MBA

*Based on Hu-Friedy market survey results when compared to single instrument reprocessing.

HOW CAN IMS GROW YOUR BUSINESS?

CURRENT		POTENTIAL NEW REVENUE	
PROCEDURES PER DAY	REVENUE PER DAY	PER DAY	PER 6 MONTHS
10	$1,000	$104	$11,440
	$2,000	$208	$22,880
	$3,000	$313	$34,430
	$4,000	$417	$45,870
	$5,000	$521	$57,310
20	$1,000	$208	$22,880
	$2,000	$417	$45,870
	$3,000	$625	$68,750
	$4,000	$833	$91,630
	$5,000	$1,042	$114,620
30	$1,000	$313	$34,430
	$2,000	$625	$68,750
	$3,000	$938	$103,180
	$4,000	$1,250	$137,500
	$5,000	$1,563	$171,930
40	$1,000	$417	$45,870
	$2,000	$833	$91,630
	$3,000	$1,250	$137,500
	$4,000	$1,667	$183,370
	$5,000	$2,083	$229,130
50	$1,000	$521	$57,310
	$2,000	$1,042	$114,620
	$3,000	$1,563	$171,930
	$4,000	$2,083	$229,130
	$5,000	$2,604	$286,440

Example: A practice bills $2,000 of revenue per day, doing 20 procedures. $2,000 ÷ 480 minutes (8 hours) = $4.17 revenue per minute. 20 procedures x 5 minutes saved per procedure x $4.17 per minute = $417.00 of new revenue per day. $417.00 new revenue per day x 110 days = $45,870 of new revenue per 6 months.

Ergonomic latch with positive locking mechanism is safe and easy-to-use, allows one-handed opening and visual confirmation if the cassette is locked / unlocked. (Figure 2)

Revolutionary hole pattern design provides more access to instruments during cleaning and sterilization and increases compatibility with today's cleaning equipment, including automated washers.

Innovative color-coded silicone rail system, available in 11 color options, significantly reduces instrument contact, allowing for more water flow while protecting the instruments during reprocessing. (Figure 1)

High quality, electropolished stainless steel protects against corrosion while providing a professional appearance.

Smooth round corners and slotted edges increase drainage and reduce drying time.

Beveled edge allows for a more ergonomic grasp.

Figure 1

Figure 2

"The IMS cassette system significantly aids efficiency at chairside and during processing – it is also important for the protection of my staff and our delicate instruments. We've found longevity of expensive instruments is increased and handling time is decreased."

– EDWARD PAT ALLEN, DDS, PhD

IMS INFINITY SERIES™ CASSETTES

"As an orthodontic clinical consultant, I work with offices to increase their efficiency. Implementing IMS into their practice has been a huge benefit to many successful practices across the country. The clinicians love the system and doctors feel the stress level decrease and production increase. The patients' perception of the high quality care they receive is of great internal marketing value as well."

–ANDREA COOK

IMS PARTS BOX

Designed to keep small items such as rubber dam clamps and matrix band retainers organized during the sterilization process.

IMS Large Parts Box
| IMS-1273
Exterior Dimensions: 3.5" x 1.12" x 1"
(89 mm x 29 mm x 25 mm)

IMS Small Parts Box
| IMS-1271
Exterior Dimensions: 1.56" x 1.25" x 1"
(40 mm x 32 mm x 25 mm)

IMS CASSETTE BARCODE CLIP

Snap-on Barcode for outside of Cassettes

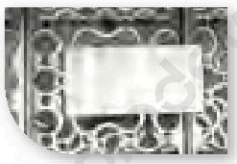

IMS Cassette Barcode Clip
| IMS-CABL
Dimensions: .75" x 2.26" x .067"
(19 mm x 57.4 mm x 1.7 mm)

Contains lasermarked barcode to be used for identification and tracking purposes. Compatible with standard barcode reader. Follows HIBC barcode standards. Lasermark tested to last more than 800 sterilization cycles.

Signature Series Barcode Plate

Metal plate can have barcode label affixed or can be lasermarked with text. Barcodes cannot be lasermarked onto the metal.
| IMS-1378
Dimensions: .88" x 1.88" x .047"
(22 mm x 48 mm x 1.2 mm)
For Signature Series cassettes only. Installed by Hu-Friedy.

Infinity Series Barcode Plate
| IMS-1379
Dimensions: .88" x 1.75" x .047"
(22 mm x 44 mm x 1.2mm)
For Infinity Series cassettes only. Snaps into place.

IMS ENDODONTIC STAND

Hinged, double-lid stand holds endodontic files and reamers. Lid is etched with a ruler to measure stop positions easily from either direction.

IMS Endodontic Stand, Holds 24
| IMS-1275
Exterior Dimensions:
2.6" x 2.25" x 1.2"
(67 mm x 57 mm x 30 mm)

IMS Endodontic Stand, Holds 48
| IMS-1275D
Exterior Dimensions:
2.6" x 2.25" x 1.2"
(67 mm x 57 mm x 30 mm)

IMS-1275

AIR WATER SYRINGE CLIPS – RESIN CASSETTES

Designed to fit large or small Resin Cassettes. Clip holds air/water syringe tip securely in place throughout cleaning and sterilization.

IMS Resin Cassette Clip
| IMS-1278
For large resin cassettes

IMS Resin Cassette Clip
| IMS-1279
For small two-tier resin cassettes

IMS-1278

AIR AND WATER CLIPS

Designed for IMS Cassettes. Air and Water clips can be permanently installed in your cassettes.

Infinity Series Air/Water Clip	**| IM1005N**
Signature Series Air/Water Clip	**| IM1005**
Infinity and Signature Series Double-Decker Air/Water Clip	**| IM1006**

CASSETTE ACCESSORIES

IMS BUR CUSHIONS

A hollow, rectangular, silicone base with a stainless steel lid that is designed to hold burs securely in place during cleaning and sterilization. Hollow design allows drainage and proper cleaning.

IMS 1/2 Bur Cushion, Short Lid
| IMS-1372SH
Holds 6 burs.
Exterior Dimensions:
1.75" x 1.3" x 0.9"
(44 mm x 33 mm x 22 mm)

IMS 1/2 Bur Cushion, Tall Lid
| IMS-1372TH
Holds 6 burs.
Exterior Dimensions:
1.75" x 2.44" x 0.9"
(44 mm x 62 mm x 22 mm)

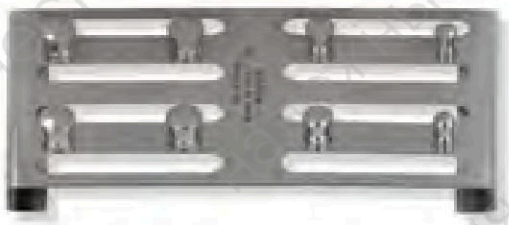

IMS Bur Cushion, Short Lid
| IMS-1372S
Holds 12 burs.
Exterior Dimensions:
3.3" x 1.3" x 0.9"
(84 mm x 33 mm x 22 mm

IMS Bur Cushion, Tall Lid
| IMS-1372T
Holds 12 burs.
Exterior Dimensions:
3.3" x 2.44" x 0.9"
(84 mm x 62 mm x 22 mm)

IMS RUBBER DAM CLAMP ORGANIZING BOARD

RDC Organizing Board
| RDCOB
Dimensions: 4.6" x 2.4" x .375"
(117 mm x 61 mm x 10 mm)

Holds up to 8 clamps during sterilization.
Fits into cassette accessory area of most cassettes.

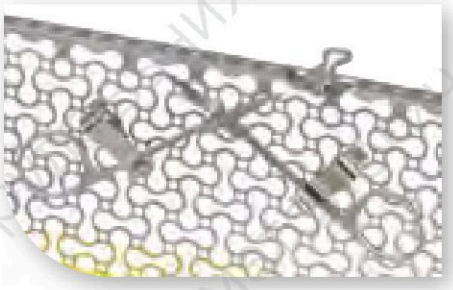

not actual size

HINGED INSTRUMENT CLIPS

Secure scissors, hemostats and other hinged instruments in the open position for optimal cleaning and sterilization.

Hinged Instrument Clips, 2 Pack
| IM1000

Hinged Instrument Clips, 6 Pack
| IM1002

NEEDLE CAP HOLDER

Needle Cap Holders, 2 Pack
| IM1001

Needle Cap Holders, 6 Pack
| IM1003

Combination Pack**
| IM1004

**6 snap-in needle cap holders and 6 snap-in hinged instrument clips. Maintains cap in upright position for one-handed needle recapping.

IMS COLLECTIONS

"Hu-Friedy Cassettes keep your set-ups together as a unit, so instead of processing hundreds of single instruments, you process fewer, larger items. The economy of time and effort is undeniable, but wait until you see the increased safety to go along with the efficiency! Sharp instruments are organized for safer, easier use, and contained for safer handling. Cassettes with needle cap holders also become an engineered safety device for re-capping."

—NANCY DEWHIRST, RDH, BS

“Using an instrument management system like Hu-Friedy’s IMS facilitates processing and can substantially enhance instrument organization. It is essential to keep tasks as organized and safe for clinical personnel. Because direct handling of contaminated instruments is significantly reduced before sterilization, personnel responsible for instrument cleaning sterilization are at much less risk for sharps injuries.”

–JOHN MOLINARI, PhD

“Worker and patient safety are my passion! During presentations I am often asked for practical advice on how to reduce the risk of sharps injury for workers and also how to save time while safely processing instruments. With the Hu-Friedy IMS cassette system both issues are easily addressed. Securing contaminated instruments immediately reduces the risk of sharps exposure creating a safer work environment. Efficiencies are gained through utilization of the IMS system which organizes instruments based on the procedure to be performed, eliminating the need to hand organize instrument. This action alone reduces operatory turn over time.”

–KAREN GREGORY, RN

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

"As a former practicing dentist, my favorite part of IMS was not searching for missing instruments! The complete instrument setup is always in the cassette so we were more organized and efficient throughout the day. Not only did this save the practice money, but it also allowed team members to spend more time with patients. Most importantly, I felt confident knowing team members involved in instrument processing had a safer work environment with less risk of injury."

– Dr. Marie Fluent, DDS

"Orthodontic practices clean and sterilize 600 to 1,000 instruments everyday! Cleaning and sterilizing this many instruments while treating patients can create a lot of stress for busy orthodontic teams. Hu-Friedy cassettes have helped my orthodontic clients improve clinical efficiency in addition to protecting orthodontic pliers during the cleaning and sterilization process. Improved efficiency gives the orthodontic team more time to focus on patient care and stay on schedule! Happy Staff + Happy Patients = Happy Doctor!"

Hu-Friedy has created a collection of procedural instrument kits that corresponds to **American Dental Association (ADA) – Current Dental Terminology (CDT)** Coding. Start pairing patients and insurance codes more effectively to move from standardized care to personalized care.

Begin each preventative appointment with an Evaluation Kit and add the supplemental treatment kit based on the patient assessment.

Each kit, uniquely color-coded, offers the highest quality, technology, and ergonomic instrumentation within a small, space-efficient cassette for ensured equipment compatibility and safety. Plastic Test Sticks are included to test for sharpness prior to utilizing instrumentation to provide ergonomic, efficient and quality care to your patients. ADA CDT Coding kits can be ordered easily using a single part code at a significantly reduced bundled cost.

Hu-Friedy IMS instrument cassettes have made a major difference in my mobile practice of Dental Hygiene and my infection control practices. As a mobile dental hygiene business owner and infection control specialist, I have invested a lot into my instruments. These simple, durable devices are so easy to use and made a complex job become trouble-free. This product has been one of the greatest investments I have made into my practice. They simplify my life, save time and frustration. Every practice should be using this time and life saving device!

*Double-Decker Large Ortho Cassette with Accessory Area - IM920x-OR

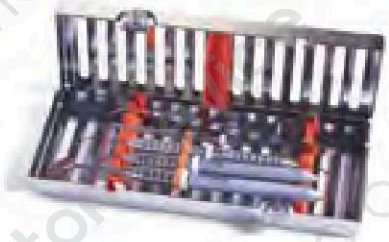

"IMS Cassettes are, in my opinion, the most important efficiency tool for each dental procedure. Handling one cassette verses all the individual instruments for each procedure saves so much time during set-up, clean-up and reprocessing. If dental practices want to enhance productivity and efficiency, they simply must implement the IMS cassette system."

—MARY GOVONI, CDA, RDA, RDH, MBA

IMS RESIN CASSETTES

Hu-Friedy Resin Cassettes are constructed of high-quality resin. Soft silicone instrument rails gently hold instruments in place. Cools down quickly after sterilization and are lightweight.

Small Cassettes

Exterior Dimensions 4.5" x 8" x 1.5" (114 mm x 203 mm x 38 mm)

Small Resin 7 Instruments | **IMS-3107**

Holds up to 7 instruments. The cassette is perfect for exam and prophylactic procedures.

Small Resin 12 Instruments | **IMS-3112**

Holds up to 12 instruments

Small Resin 16 Instruments | **IMS-3116**

Holds up to 16 instruments in a compact space (pictured)

Large Cassettes – No Accessary Area

Exterior Dimensions 8" x 11" x 1.5" (203 mm x 279 mm x 38 mm)

Large Resin 18 Instruments | **IMS-1118**

Holds up to 18 instruments (pictured)

Large Resin 24 Instruments | **IMS-1124**

Holds up to 24 instruments

Large Cassettes – with Accessary Area

Exterior Dimensions 8" x 11" x 1.5" (203 mm x 279 mm x 38 mm)

Large Resin 12 Instruments | **IMS-1112**

Holds up to 12 instruments (pictured)

Large Resin 16 Instruments | **IMS-1116**

Holds up to 16 instruments

BLEACH CLEANING RECOMMENDATIONS FOR RESIN CASSETTES

The resin cassettes should be bleach cleaned on a six month basis. They may be submerged in a solution of two cups bleach to one gallon of water (0.5 liters bleach to 4 liters of water) for 5 to 30 minutes. If staining has occurred, use less water and more bleach. If bleach does not break through the stain, wipe cassettes with isopropyl alcohol prior to bleaching. Be sure to remove instruments before placing cassettes in bleach solution as bleach is destructive to metal. This cleaning procedure is only recommended with resin cassettes. If staining does occur on stainless steel cassettes, wipe clean with soap and water. DO NOT use bleach process described for resin cassettes on stainless steel cassettes.

SIGNATURE SERIES™ TUBS

Together, procedure tubs and cassettes create an efficient and organized system for managing instruments and consumable products. The time savings achieved by using IMS (Instrument Management System) cassettes and procedure tubs will allow the staff to spend time on more value added activities in the dental office.

Signature Series Tubs are designed to match IMS cassette rail colors and are treated with [Sanafor® PO-5] antimicrobial* to protect the product by helping prevent the growth of stain and odor causing bacteria.

Signature Series™ Complete Tub

12-3/4" x 11-3/16" x 4"

Includes:

- Signature Series Tub
- Tub Liner†
- Tub Divider (package of 8)
- Single Tub Cup w/Cover†
- Double Tub Cup w/Cover†
- Divided Slide Tray†
- Locking Tub Cover†

SIGNATURE SERIES™ TUBS

SIGNATURE SERIES TUB CUPS & COVERS

Signature Series Tub cups and covers can be used to store brushes, clamps, cotton pellets, syringe tips, prophy paste, prophy angle tips, pumice, implant tools, etc.

Single Tub Cup with Cover†

2-1/4" x 1-5/8" x 1-1/8" | IMS-1424

Double Tub Cup with Cover†

3-3/8" x 2-1/4" x 1-1/8" | IMS-1425

Long Tub Cup with Cover†

8-1/3" x 2-1/4" x 1-1/8" | IMS-1426

- Provides 5 storage compartments
- Dividers are removable for customization
- Perfect for storing capsules, discs, abrasive strips, wedges, matrix bands, etc.

SIGNATURE SERIES RACKS

Adjustable 3 Tub Rack

Adjustable 4 Tub Rack

Adjustable 3 Tub Rack

MIN 7-1/2" - MAX 15-1/2" x 10-1/2" x 13" | IMS-1433

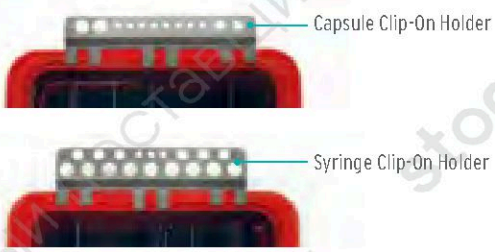

- Fits most standard storage cabinets
- Holds a maximum of 3 tubs with lids or 6 cassettes
- Non-slip feet
- Sturdy metal construction
- No screws, tools, nuts or bolts needed

Adjustable 4 Tub Rack

MIN 7-1/2" - MAX 15-1/2" x 10-1/2" x 18-3/4" | IMS-1434

- Holds a maximum of 4 tubs with lids or 8 cassettes
- Sturdy metal construction
- Non-slip feet

SIGNATURE SERIES CLIP-ON HOLDERS

Capsule Clip-on Holder

8" x 2-1/2" x 3/4" | IMS-1429

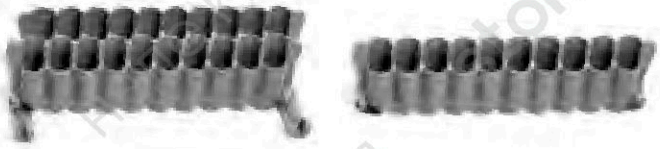

- Allows quick access to composite material during procedure
- Conveniently clips on any side of tub
- Holds up to 8 capsules, 4 syringe tubes and capsule/gun dispenser

Syringe Clip-on Holder

8" x 2-5/8" x 3/4" | IMS-1430

- Allows quick access to composite material during procedure
- Conveniently clips on any side of tub
- Holds up to 15 syringe tubes and 3 applicator tips

SIGNATURE SERIES SYRINGE STANDS

20-Unit Syringe Stand

9" x 4-3/4" x 2 1/2" | IMS-1431

- Stands up for easy access to syringes
- Lays flat to fit inside a tub or drawer
- Holds up to 20 syringe tubes

10-Unit Syringe Add On

8-1/2" x 2-3/8" x 3/4" | IMS-1432

- An add-on for the Syringe 20 Unit Stand
- Provides additional space for syringe storage
- Holds up to 10 syringe tubes

ANTIMICROBIAL PROTECTION

*Antimicrobial protection is integrated into the tub and tub components during the manufacturing process. This technology works by interrupting key cell functions that allow the microorganisms to function, grow and reproduce. Antimicrobial protection begins to work as soon as the microorganism comes into contact with the product surface and works continuously to inhibit the growth of microbes that can cause stain, odors and product degradation - for the lifetime of the product.

*These antimicrobial properties are built-in to protect the product. This product does not protect users or others against bacteria, viruses, germs or other disease organisms.

STAYING COMPLIANT
IS MORE CRITICAL THAN EVER.

According to an industry research study,* 99% of dental professionals believe their infection control programs are effective. But 62% are still concerned with how current their programs are, when compared to published OSHA standards.

Compliance covers more than just OSHA; CDC and state board regulations also factor into your infection prevention protocols. The number and extent of published standards means practices are held to a high level of accountability. But with these standards, there is no "good enough" – only compliant or noncompliant.

NO FACILITY IS IMMUNE FROM THE RISK OF NONCOMPLIANCE.

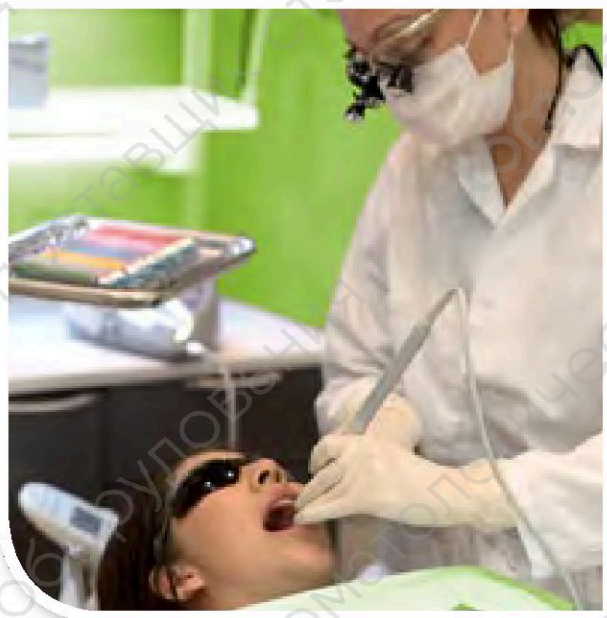

DISCOVER GREENLIGHT

A BETTER WAY TO STAY COMPLIANT

Maintaining compliance doesn't have to be a burden. GreenLight Dental Compliance Center by Hu-Friedy is an exclusive program that keeps all your infection prevention guidelines and regulations conveniently housed in one portal.

HOW YOU BENEFIT

GreenLight Dental Compliance Center helps you create customized infection prevention and instrument reprocessing protocols and internal audits, so you are prepared. GreenLight also saves time on staff training and updates, with improved performance in your infection prevention practices. You'll find more than convenience with GreenLight – you'll also gain the confidence that comes from knowing your facility is in compliance.

"More than ever dental practices are being held accountable–publicly and professionally for their infection prevention/control standards. The ideal approach to ensure your infection prevention processes are as up-to-date as possible and that your team is standardized is to leverage Hu-Friedy's Greenlight Dental Compliance Center. Greenlight has all the infection prevention policies and procedures and resources you need to maintain optimum infection prevention compliance. And best of all, Greenlight is state specific! So no more guess work when it comes to being compliant with the Centers for Disease Control and Prevention (CDC) and state dental boards. Protect your patients and your practice with the Greenlight Compliance Center."

–LINDA HARVEY, RDH, MS, HRM
Compliance/Risk Management Specialist
Trusted Confidential Protection for Your Practice

GREENLIGHT DELIVERS

- Exclusive access to a comprehensive members-only online infection prevention portal
- A one-stop resource for updated compliance information from regulatory bodies
- Easy access to state board web pages
- Customized infection prevention protocol templates compliant with your practice's specific requirements
- Free consultation for new members to review protocols
- Online infection prevention practice self assessment
- Online continuing education on OSHA and other topics
- Breach response plan with accompanying tools
- Training and resources specifically for infection control coordinators

READY TO PERFECT YOUR PROTOCOLS?

Your Hu-Friedy representative will explain program requirements and how you can get started on the path to increased compliance.

Learn more by calling your rep, or visit us online at

GreenLightComplianceCenter.com

*Hu-Friedy engaged The Key Group, an independent third-party market research company, to survey dental professionals on their infection control practices.

CLEANING AND CARE

Enzymax® Dual Enzyme Ultrasonic Detergent is specifically formulated for efficient ultrasonic cleaning and pre-soaking of cassettes and instruments. Contains Steelgard™ agents to extend instrument life and chelating agents to protect instruments from harmful minerals naturally found in water that contribute to buildup, spotting and corrosion. Multi-purpose applications including ultrasonic detergent, presoak, linen presoak and evacuation cleaner.

ENZYMAX

Enzymax Liquid

Box of 40 Liquid Packets Makes 40 Gallons (151 liters)	| IMS-1222
10 boxes of 40 Liquid Packets Makes 400 Gallons (1,510 liters)	| IMS-1222C
Quart Bottle Makes 32 Gallons (121 liters)	| IMS-1224
Case of 12 Quart bottles Makes 384 Gallons (1,452 liters)	| IMS-1224C
Gallon Bottle Makes 128 Gallons (485 liters)	| IMS-1226
Gallon Pump	| IMS-1226P

Enzymax Powder

1.76 lb (800 g) Powder Makes 50 Gallons (189 liters)	| IMS-1230
6 containers of 1.76 lb (800 g) Powder Makes 300 Gallons (1,134 liters)	| IMS-1230C

CLEANING MONITORS

Proper instrument cleaning is the most important step to instrument reprocessing. If an instrument is not properly cleaned, it cannot be effectively sterilized. Take the steps to assure that your cleaning process achieves the highest quality results by incorporating Hu-Friedy Cleaning Monitors into your instrument reprocessing protocols. Using multi-parameter testing, Hu-Friedy Cleaning Monitors are designed to give you a clear interpretation of your cleaning process.

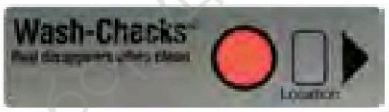

Clear & Simple Results Interpretation

Removal of all test soil indicates effective cleaning

	Washer-Disinfector	Ultrasonic
Fail (Unexposed)		
Fail		
Pass		

See Troubleshooting Charts (N1736 and N1692) for possible reasons for results and corrective actions.

Washer-Disinfector Cleaning Monitor, 50 PCS
| IMS-1200W

Ultrasonic Cleaning Monitor, 50 PCS
| IMS-1200U

Cleaning Monitor Holder, 1 EA
| IMS-1200H

	Washer-Disinfector	Ultrasonic
Ideal Cleaning Monitor Usage	Run a monitor test in the morning to release the equipment for use and minimum of one monitor per load for load release.	Monitor once daily with an empty load for a machine release and periodically throughout the day with instruments for a load release, if needed.
Parameters tested by the cleaning monitors	• Time • Temperature • Detergent concentration • Spray arm function • Enzyme soak	• Cavitation • Time • Temperature • Detergent
Common Cleaning Process Failures	• Inadequate water spray/impingement • Clogged spray arms • Overloading • Instrument shadowing • Inadequate detergent dosing • Improper detergent dosing	• Ineffective cavitation • Overloading • Insufficient time, temperature and/or detergent

SURFACE DISINFECTION

Hu-Friedy's AdvantaClear™ Surface Disinfectant is designed to clean and disinfect dental surfaces while working quickly and effectively killing a broad spectrum of disease-causing microorganisms in one minute.* With a low-alcohol, fragrance-free formula, AdvantaClear is safe on all hard, non-porous healthcare surfaces, including glass, plastics, stainless steel and vinyl.

ADVANTACLEAR SURFACE DISINFECTANT

AdvantaClear Wipes

Powerful scrubbing wipes that quickly and effectively clean and disinfect while still being safe on surfaces.

	US	Canada
Canister, 160 Wipes, 6" x 6.75" (15 cm x 17 cm)	| IMS-2160	| IMS-2160CA
Flat Pack, 10 Wipes 6" x 6.75"	| IMS-2010	

AdvantaClear Ready-to-Use Liquid

Convenient, ready-to-use packaging that is easy to use. No mixing or diluting required.

	US	Canada
Spray Bottle, 24 fl. oz (710 mL)	| IMS-2024	| IMS-2024CA
Gallon Bottle, 3.8 L	| IMS-2128	

Available in the US and Canada

*This product kills the following organism in 2 minutes on pre-cleaned, hard, non-porous surfaces at room temperature: Mycobacterium bovis BCG (TB)

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

FAST-ACTING ONE MINUTE CONTACT TIME

A broad-spectrum disinfectant with one minute kill time† – faster kill times mean faster turnover.

SAFE ON SURFACES

Designed to be compatible with a wide range of surfaces from acrylic, aluminum, brass, copper, stainless steel, chrome, plastics and more.

CLEANS & DISINFECTS

Quick and easy way to effectively clean and disinfect surfaces.

FRAGRANCE FREE

Helps eliminate odor-causing bacteria with no harsh fragrance.

LOW ALCOHOL FORMULA

Will not affix blood and soil to surfaces.

	Norovirus	1
Fungi	*Trichophyton interdigitale* (ringworm)	1
Mycobacteria	*Mycobacterium bovis* BCG tuberculosis (TB)	2

*HBV, HCV and HIV-1 Precautions: This product kills HBV, HCV and HIV-1 on pre-cleaned environmental surfaces/objects previously soiled with blood/body fluids in health care or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood/body fluids, and in which the surfaces/objects can be associated with the potential for transmission of HBV, HCV and/or the human immunodeficiency virus Type 1 (HIV-1) associated with AIDS. **Special Instructions for cleaning against HBV, HCV and HIV-1 of surfaces/objects soiled with blood/body fluids: Personal Protection:** Specific barrier protection items to be used when handling items soiled with blood or body fluids are disposable latex gloves, gowns, masks and eye coverings. **Cleaning Procedure:** Blood and other body fluids must be thoroughly cleaned from surfaces/objects before disinfection. **Contact Time:** Allow hard, non-porous surfaces to remain wet for 30 seconds to kill HBV, HCV, and HIV-1 prior to wiping or allow surface to air dry. **Infectious Materials Disposal:** Cleaning materials used that may contain blood/body fluids must be autoclaved and/or disposed of in accordance with local regulations for infectious materials disposal.

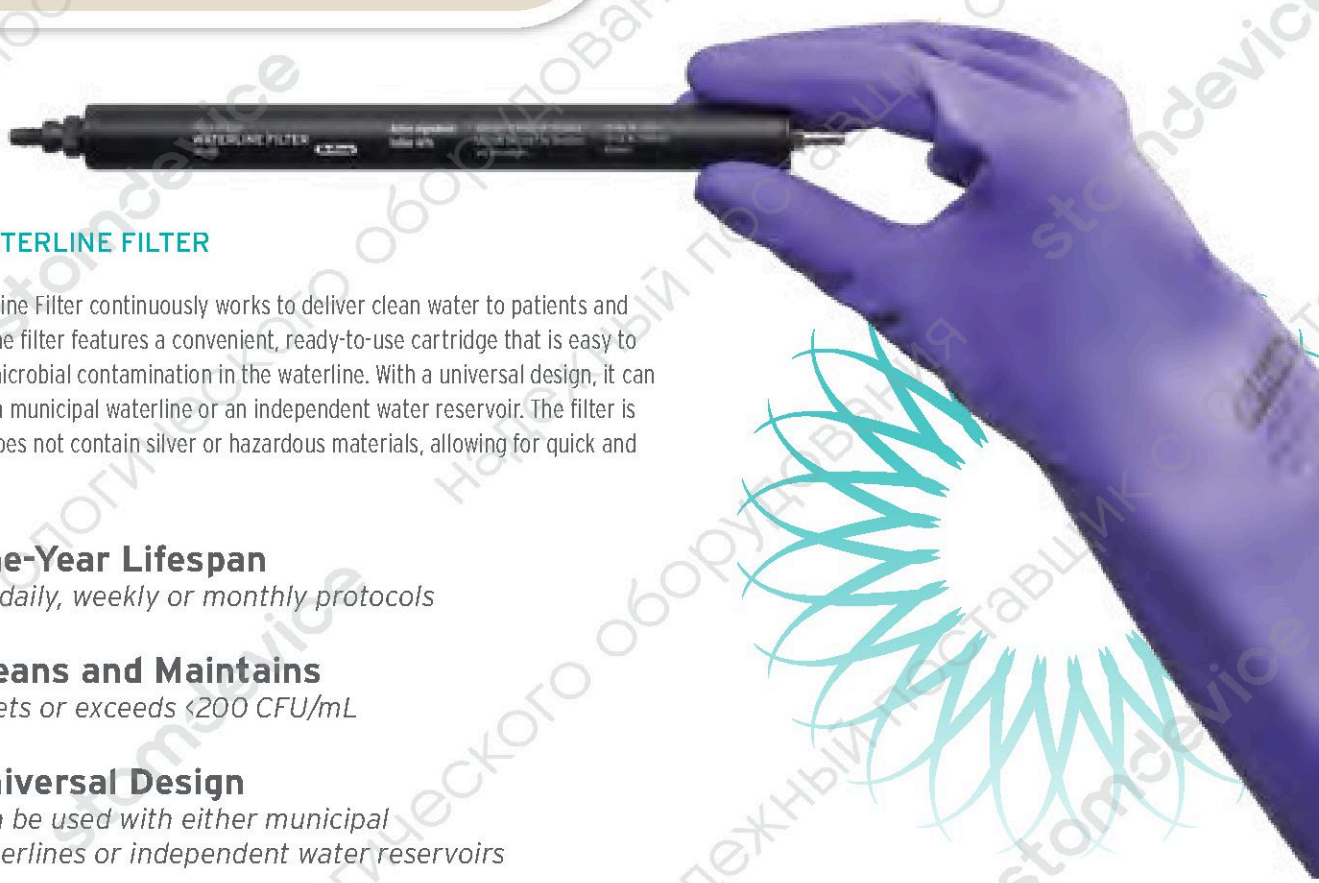

† This product kills the following organism in 2 minutes on pre-cleaned, hard, non-porous surfaces at room temperature: Mycobacterium bovis BCG (TB). See product label for details.

DENTAL UNIT WATERLINES

HU-FRIEDY WATERLINE FILTER

The Hu-Friedy Waterline Filter continuously works to deliver clean water to patients and staff for one year. The filter features a convenient, ready-to-use cartridge that is easy to install and inhibits microbial contamination in the waterline. With a universal design, it can be used with either a municipal waterline or an independent water reservoir. The filter is non-corrosive and does not contain silver or hazardous materials, allowing for quick and easy disposal.

One-Year Lifespan
No daily, weekly or monthly protocols

Cleans and Maintains
Meets or exceeds <200 CFU/mL

Universal Design
Can be used with either municipal waterlines or independent water reservoirs

User Friendly
Easily installed in just minutes

Anti-Microbial Cleaner
Inhibits growth of microbial contamination

	US	Canada
Hu-Friedy Waterline Filter	IMS-1440	IMS-1440CA

CDC RECOMMENDATIONS

The Centers of Disease Control (CDC) recommends that dental unit waterlines be tested on a regular basis to maintain its established standard of less than 500 colony-forming units per milliliter.*

If dental unit waterlines are not maintained on a regular basis, bacteria will develop on the inner surfaces of the tubing, blocks and other system components.

Simply maintaining the waterlines is not enough; it is a two part process of cleaning and maintenance. Over time, bacteria can overwhelm the waterline environment and begin to create microbial deposits. Using a daily irrigant, like VistaClean, and cleaning the waterlines regularly with an EPA approved antimicrobial, like VistaTab, will clean and control microbial contaminants to provide improved water quality while helping to protect patients, staff and equipment.

*Reference Centers for Disease Control and Prevention. Guidelines for Infection Control in Dental Health-Care Settings – 2003. MMWR 2003; 52 (No. RR-17): [pg. 31].

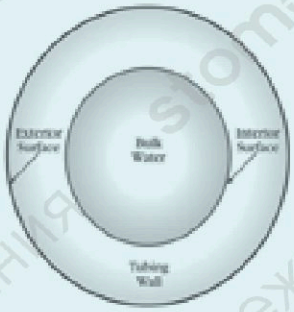

Figure 1. Clean dental waterline tubing. No biofilms or free-floating organisms present.

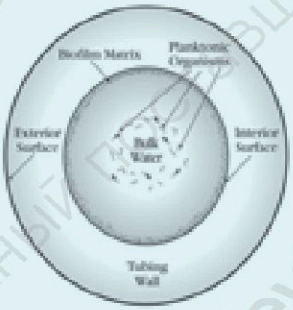

Figure 2. Contaminated dental waterline tubing. Biofilm on interior surface with abundant free-floating organisms.

DENTAL UNIT WATERLINE PRODUCTS

VistaTab™ Dental Waterline Cleaner Tablets

VistaTab is an antimicrobial tablet used for the cleaning and control of microbial contaminants in dental unit waterlines. When placed in water, the solid tablet quickly dissolves to create a non-corrosive solution that is **seven times more effective than bleach.**

CONTAINS: | IMS-1451
15 - VistaTab Cleaner Tablets

- Antimicrobial tablet used periodically for the cleaning and control of microbial contaminants
- Quickly dissolves to create a non-corrosive solution seven times more effective than bleach
- EPA registered in all 50 states
- Available in the U.S. only

VistaClean™ Irrigant Solution Concentrate

VistaClean is a daily irrigant solution derived from organic citrus botanicals and is safe for use with patients. It helps protect waterlines and equipment from deposits and scale and works to emulsify organic and inorganic contaminants that can build up in waterlines. VistaClean leaves no taste or odor and is non-toxic when used as directed. This **environmentally friendly solution is non-corrosive** and has no negative effect on bond strength.

CONTAINS: | IMS-1452
1 - One Fl oz bottle of VistaClean Irrigant Solution

- Derived from organic citrus botanicals
- Listed with the FDA as a Class I Medical Device
- Helps protect waterlines and equipment from deposits and scale
- Works to emulsify organic and inorganic contaminants that build up in waterlines
- Safe for use with patients
- No odor or taste
- Non-toxic, non-corrosive
- No effect on bond strength
- Available in the U.S. and Canada

STERILIZATION

IMS CASSETTE WRAP

Bonded Double Wrap

Hu-Friedy's Bonded Double Wrap allows dental practitioners to be in compliance with the most stringent sterilization standards for healthcare settings set forth by ANSI/AAMI ST79 and CDC Guidelines. Our Bonded Double Wrap is comprised of two sheets of wrap, ultrasonically bonded together to form a single, two-ply application providing enhanced safety and increased efficiency and productivity during wrapping and unwrapping. The two sheets are different colors which aids in identifying breaches in the packaging post sterilization and allows package differentiation by color. Compatible with the most common sterilization cycles, the material is also recyclable for reduced waste. Manufactured for single use only.

24" x 24" (610 mm x 610 mm) 240 Pieces	IMS-2224
20" x 20" (508 mm x 508 mm) 480 Pieces	IMS-2220
15" x 15" (380 mm x 380 mm) 480 Pieces	IMS-2215

Autoclave and Universal Wraps

IMS Cassette Wrap is engineered to withstand the harsh conditions of sterilization. Our unique compilation of textiles is designed to be strong and soft for easy wrapping and durability. This low-lint, memory free wrap is available in two grades to meet your needs. Manufactured for single use only.

Autoclave Wrap

Autoclave Wrap offers the best combination of softness and added strength.

24" x 24" (610 mm x 610 mm) 500 Sheets	IMS-1210
20" x 20" (508 mm x 508 mm) 500 Sheets	IMS-1212
15" x 15" (380 mm x 380 mm) 1,000 Sheets	IMS-1211
12" x 12" (305 mm x 305 mm) 1,000 Sheets	IMS-1213

Universal Wrap

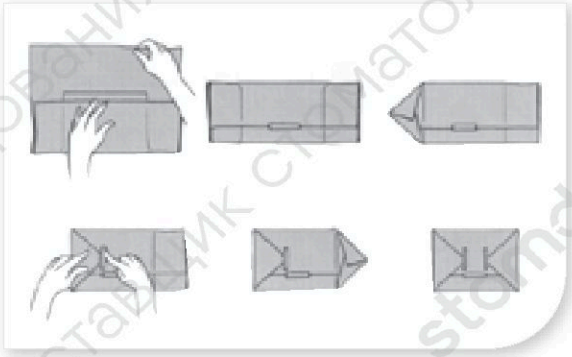

Universal Wrap provides great performance at a lower cost.

24" x 24" (610 mm x 610 mm) 500 Sheets	IMS-1214
20" x 20" (508 mm x 508 mm) 500 Sheets	IMS-1216
15" x 15" (380 mm x 380 mm) 1,000 Sheets	IMS-1215
12" x 12" (305 mm x 305 mm) 1,000 Sheets	IMS-1217

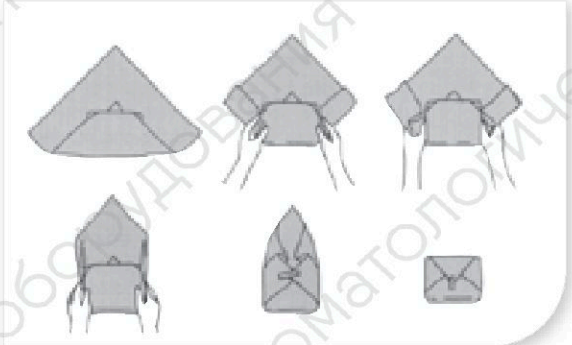

Note: Hu-Friedy Autoclave and Universal wrap is also available in packs of 100 sheets. Add "H" to the end of the part code.

WRAPPING TECHNIQUES

Method 1: Standard Gift

Method 2: Hospital style

WRAP SIZE RECOMMENDATIONS

IMS Cassettes	12" x 12"	15" x 15"	20" x 20"	24" x 24"

IMS STEAM STERILIZATION MONITORS

IMS Steam Sterilization Indicators

IMS Steam Sterilization Indicators

Indicator strip verifies that steam sterilization parameters of time and temperature have been met. Use one in each cassette or pouch and retain for office records.

250 per box	| IMS-1240

IMS Steam Sterilization Integrators

IMS Steam Sterilization Integrators

Sterilization Integrators are a Type 5, multi-variable, sterilization monitor designed to react to all critical variables in the sterilization cycle: time, temperature and presence of steam. The integrators utilize a moving front indicator technology, which is an advancing color bar moving from reject to accept, eliminating the need to interpret or match colors.

100 per pouch	| IMS-1241

SPORECHECK BIOLOGICAL MONITORING SYSTEM

The SporeCheck 24 Hour In-Office Test® biological monitoring system provides reliable results in 24 hours, while being in compliance with local, state and federal guidelines. The SporeCheck system can be used with all types of steam sterilizers – including gravity, pre-vacuum and flash sterilizers.

SporeCheck Starter Kit Contains: Dry Block Incubator with built-in vial crusher, record notebook and 1 box SporeCheck Biological Indicators, 25 count	| IMS-1376
SporeCheck Biological Indicator Vials, 25 count	| IMS-1373

Hand Essentials Instant Hand Antiseptic

An essential aid to disinfect hands

16 Fl oz (473 mL) Bottle w/Pump	| IMS-1505

- Contains Vitamin E and aloe vera to condition skin
- 70% v/v ethyl alcohol gel dries quickly on hands
- Scent-free formula
- CHG and latex compatible

Sterillium Comfort Gel® Hand Antiseptic

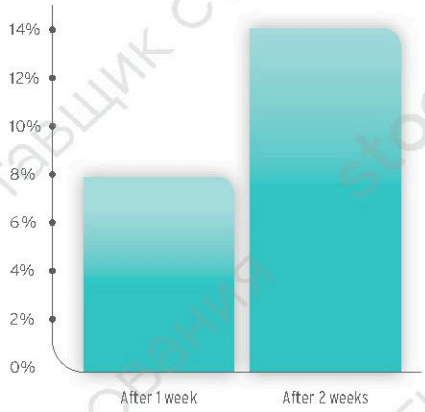

Scientifically proven, easy-to-use hand sanitizing gel

16.06 Fl oz (475 mL) Bottle w/Pump	| IMS-1504
Sterillium Wall Bracket (for IMS-1504) 2/pk	| 974730
1.69 Fl oz (50 mL) Bottle	| IMS-1504S

- 85% alcohol kills 99.999% of a broad range of nosocomial pathogens within 15 seconds
- Proven at only 2.4 mL per application
- Proven to increase skin hydration within one week
- CHG and latex compatible

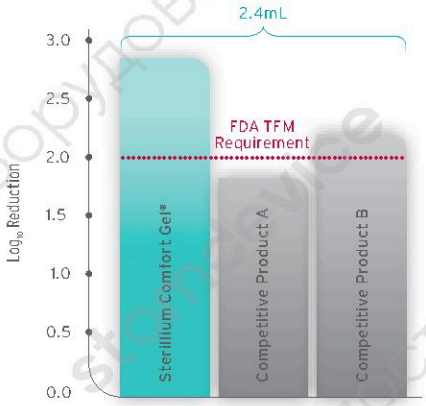

INCREASED SKIN HYDRATION

Sterillium Comfort Gel® significantly increases skin hydration after only one week of product usage compared to untreated skin.[1]

TRADING ECONOMY FOR EFFICACY - IN VIVO TEST

Our test comparing Sterillium Comfort Gel® against two competitors products showed that for Sterillium, only 2.4 mL was required to entirely cover the hands and nails.

Test method follows FDA TFM for Health-Care Antiseptic Drug Products[2] and compliant with ASTM E1174, Standard Test Method for Evaluation of Healthcare Personnel Handwash Formulations. SterilliumComfort Gel® in comparison to two other alcohol-based hand sanitizers available on the market.[3] In vivo testing shows, use of only 2.4 mL of SterilliumComfort Gel® exceeds the FDA TFM efficacy requirements.*

Sterillium Comfort Gel is a registered trademark of Bode Chemie GmbH Co.

SUGGESTED STERICENTER LAYOUT

The Center for Disease Control (CDC) recommends the processing area should be divided into four sections to control quality and ensure safety:

1. Receiving, Cleaning & Decontamination
2. Preparation & Packaging
3. Sterilization
4. Storage

Space Requirements: Cassettes vs. Trays

Counter Space Cassettes vs. Trays

	Cassettes	Trays
Instrument Break Down Area	12"	36"
Ultrasonic Cleaner Area	24"	24"
Sink	24"	24"
Drying and Packaging	18"	36"
Hand-piece Maintenance	12"	12"
Sterilizer	24"	24"
Tray Assembly and Storage	18"	36"
Total Space	11 feet	16 feet

Counter Space Required

	Cassettes	Trays
4 - 6 Operatories (Stericenter)	11 feet	16 feet
7 - 8 Operatories (Stericenter)	13 feet	19 feet
9 or more	15 feet	22 feet

Adapted with permission from Dr. Mark Tholen's book "A Guide to Designing an Elegant Dental or Medical Office"

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

CASSETTE AND EQUIPMENT "RULES OF THUMB"

In order to determine your specific instrument and cassette needs, review these "Rules of Thumb." They offer good insight into your decisions about cassettes and equipment.

How many cassettes do I need?

To estimate the minimum number of cassettes needed for your office:

1. Take the average number of procedures performed per day — 20
2. Divide that number in half — 10
3. Add one additional cassette for backup and emergency — 10+1=11
4. Total number if cassettes needed per day — 11*

***Note: Guidelines only!** This example processes instruments through sterilization 2 times per day. High production offices will need enough cassettes for 3-4 sterilizations cycles per day. **To determine compatibility of Hu-Friedy IMS cassettes with cleaning and sterilization equipment, please refer to Hu-Friedy's Equipment Capacity Chart at Hu-Friedy.com/IMS-get-started. Learn more about your potential savings from switching to IMS by visiting Hu-Friedy.com/IMS-calculators.**

What kind of ultrasonic equipment do I need?

Offices with:

- 1 Doctor / 1 Hygienist = 3 gallon tank minimum
- 1 Doctor / 2 Hygienist = 3 gallon tank or 6 gallon tank (if a fast-pace office)
- 2 Doctors / 1 Hygienist = 3-6 gallon tank
- Group Practices = Two 6 gallon tanks or instrument washer

Note: 1 Gallon = 3.785 liters

Sterilization Equipment?

Offices with:

- 1 Doctor / 1 Hygienist = 10" + chamber
- 1 Doctor / 2 Hygienist = 10" + chamber
- 2 Doctors / 1 Hygienist or users of Dental Automated washer/ disinfector = One-Two 10" + chambers or one very large sterilizer

HUSAVE℠ CONSUMABLES SAVINGS PROGRAM*

Experience huge savings and earn great benefits as a member of Hu-Friedy's HUSAVE program!

HUSAVE offers a variety of products direct from Hu-Friedy at significantly reduced prices. No more worrying about re-ordering or stocking bulky products. The HUSAVE program is designed to dramatically reduce the time you spend purchasing while saving you money in the process!

Simply choose the product you would like to order, and when you would like them to ship, and we will do the rest. We will ship the product as you indicated and bill you through your participating dealer of choice.

To enroll in HUSAVE or to learn more about the savings program, please call 1-866-HUSAVE3 or go to Hu-Friedy.com/HUSAVE

SAVE MONEY: 10-50% price discounts on all Consumable Product purchases.

SAVE TIME: Less time ordering. Place one order for the entire year or call us when you need product.

SAVE SPACE: Regular shipments when you need them. No need to store excess supplies.

*Available in the contiguous US only

TROUBLESHOOTING

Problem	Cause	Prevention
• Spotting	• Insufficient rinsing after ultrasonic cleaning	• Rinse thoroughly under steady stream of water for 30 seconds. Use distilled water if possible
	• Insufficient drying after ultrasonic cleaning	• Rinse with hot water • Optional: Dip cassettes in alcohol after rinsing
	• Not changing ultrasonic solution	• Solution should be changed at least once a day
	• Sterilizer has not been cleaned	• Follow manufacturer's guidelines for maintenance and cleaning • Use only distilled water for reservoir
• Rust	• Corrosion from carbon steel instruments spreads to stainless steel instruments	• Separate stainless and carbon instruments • For carbon steel instruments: Dip in pre-sterilization solution as suggested by sterilizer manufacturer
	• Abrasion can destroy the chromium/oxide surface	• Lubricate joints and lock area
	• Sterilizer not clean	• Follow manufacturer's guidelines for maintenance and cleaning
• Pitting	• Chemical attack on instruments	• Rinse and dry instruments thoroughly. • Use approved cleaning and sterilization solutions only, never use household bleach or stain and tartar remover
	• Chlorides (water leakage from water softener or additives containing chlorides	• Use demineralized or distilled water in final rinse
	• Organic residues (blood, saliva, sweat)	• Use approved cleaning and sterilization solutions only. Never use bleach, tartar or cement remover

Problem	Cause	Prevention
Staining (Resin cassettes)		
• Black/ Purple	• Amalgam left in carrier	• Thoroughly remove amalgam or other compounds from the instrument prior to processing • If carrier is plugged, sterilize separately and unplug while carrier is warm
	• Contact with ammonia	• Use only proper and approved cleaning agents and rinse thoroughly
• Green	• Chrome breakdown of instruments	• Inspect instruments and replace those with cracked handles or peeled plating
• Yellow/ Brown	• Sterilizer has not been cleaned	• Change reservoir water once a week • Regularly clean chamber and filters according to manufacturer's instructions
	• Normal use discoloration	• Every 6 months soak resin cassettes (without instruments and not in the ultrasonic) in 2 cups bleach to 1 gallon of water for 5 to 30 minutes
• Brown/ Blue	• Sterilizer has not been cleaned	• Regularly clean chamber and filters according to manufacturer's instructions
• Turning Matte Gray	• Excessive lime in water	• Use demineralized or distilled water for softened water in cleaning stage
	• Cement remover has been in contact with instruments	• Wipe off cement removers prior to placing in an automatic washer
Cassette Issues		
• Broken Hinges	• Overloading/ improperly placed instruments	• Instruments should not protrude from cassette • Only light force is needed to close the cassette
	• Improperly placed rails	• Do not reposition resin cassette rails
• Wet Packs	• Insufficient drying before or during sterilization	• Thoroughly dry cassette after cleaning, before wrapping • Crack open autoclave sterilizer door during dry cycle • Optional: After sterilization cycle, leave cassettes in warm sterilizer for 10 minutes
	• Improper loading of cassettes in sterilizer	• Do not overpack sterilizer • Keep cassettes slightly separated within the chamber • Always use sterilizer's cassette rack

DO I HAVE A PLAIN OR EMBOSSED CASSETTE?

To identify an embossed style cassette, look at the lid. If it has two embossed stripes across the infinity pattern, you have an embossed cassette.

Embossed stripe detail on lid of Infinity Series Embossed Cassette

TECHNICAL SERVICE

Complete servicing for IMS Cassettes in North America is available at our Chicago facility. Please wrap and sterilize cassette prior to returning for repair. Items returned for servicing should be sent via UPS or registered insured mail:

ATTENTION: Technical Service Department
Hu-Friedy Mfg. Co., LLC
3232 N. Rockwell St.
Chicago, IL 60618

Price quotations on cost of repair are available upon request. If in need of additional service, please contact your local Hu-Friedy dealer. For IMS cassette service outside North America, please contact your local Hu-Friedy dealer.

REFERENCES FROM DATA ON PAGES 48

4. Independent lab testing done on all products, April 13 2007.

IMS LIMITED WARRANTY

IMS® Cassette Limited Warranty

Hu-Friedy, at its sole option, will repair or replace, for a period of four years following the date of purchase, any IMS® cassette that is defective because of failure of materials (including corrosion) or workmanship of the cassette shell. Hu-Friedy, at its option, will also repair or replace, for a period of one year following the date of purchase, any, IMS® cassette that is defective because of failure of materials or workmanship of the internal and moving components. Purchaser must return the defective cassette (postage prepaid) and must have previously provided Hu-Friedy with the warranty registration card.

HU-FRIEDY DISCLAIMS LIABILITY, UNDER THIS WARRANTY OR OTHERWISE, FOR DAMAGES ARISING FROM (1) USER NEGLIGENCE, MISUSE, ABUSE OR ALTERATIONS TO THE CASSETTE; (2) THE USE OF COMMERCIAL/RESIDENTIAL GRADE WASHERS; (3) DENTAL AUTOMATED WASHER – DISINFECTORS WHERE MANUFACTURER'S PROCESSING GUIDELINES ARE NOT FOLLOWED; AND/OR (4) IMPROPER SET-UP AND INSTALLATION OF THE DEVICE.

Care Instructions for IMS cassettes can be found on the instrument processing insert included with each cassette and in the approved Instrument Reprocessing Guide on Hu-Friedy.com.

See website for complete warranty information.
Hu-Friedy.com/IMSwarranty

TROUBLESHOOTING: REPROCESSING DO'S AND DON'TS

DO

...wear Hu-Friedy's Lilac Utility Gloves when handling contaminated cassettes and instruments.

...change the ultrasonic solution at least once a day or when visibly soiled. Dirty solution harbors particles that may inhibit efficient cleaning process.

...wipe off cement residue, glass ionomer and/or other heavy debris at chairside immediately after use.

...use Hu-Friedy's Enzymax products when cleaning Hu-Friedy cassettes and instruments for best results.

...sharpen instruments at chairside after sterilization and before a procedure. Hu-Friedy's sharpening stones can be processed along with instruments in the IMS cassette.

...autoclave utility gloves in seperate sterilization pouches.

DON'T

...let instruments protrude from cassettes.

...place cassettes in temperatures above 350°F/177°C.

...overload the cassette. If there is resistance when closing cassette, stop. Remove excess items and repeat the closing process. Forcing cassette to close under stress may inhibit future performance.

...put stainless steel and carbon steel instruments in the same cassette.

...reposition the location of the rails in resin cassettes. Improper rail location may cause undue stress on the cassette and can damage it.

...use IMS Autoclave Wrap in dry heat sterilization.

...run ultrasonic unit or steam autoclave without water.

HU-FRIEDY SOCIAL RESPONSIBILITY

At Hu-Friedy we believe in helping dental professionals perform their best. We strongly believe in protecting the health of our planet in addition to supporting the health of individuals. Part of this effort is looking toward the future and finding solutions such as printing this catalog on 30% recycled paper.

Hu-Friedy is proud to join a number of proactive, forward-thinking companies who are working together to ensure a better future for our planet with environmentally-friendly programs and products. Our internal effort includes a recycling program in which we recycled over 48,000 lbs of paper, 37,000 lbs of cardboard and over 1,000 lbs of batteries.

We are working toward finding ways to conserve energy, building our offering of "green" products and providing recycling options for our customers. Look for the leaf design throughout this catalog signifying our "green" offerings.

ENZYMAX EARTH™ DETERGENT

Enjoy all of the same great benefits of Enzymax detergents with an increased awareness for our environment. All Enzymax Earth products are biodegradable* and phosphate free (see page 31).

DENTAL WATERLINE CLEANER

VistaClean™ Irrigant Solution Concentrate utilizes an organic irrigant derived of citrus botanicals (see page 36).

IMS LEAD AND LATEX FREE MONITOR TAPE†

Making it safe for the environment, your staff and your patients and does not require special hazardous disposal (see page 38).

STERILIZATION CONTAINERS

Sterilization containers are a system of sterilization packaging in which reusable aluminum containers are used to sterilize instruments and cassettes. They provide a low cost of use, long service life and minimal use of disposable products (see pages 40–41).

ENVIRONDENT® INSTRUMENT RECYCLING PROGRAM

This program has been making a positive impact on the environment for over 20 years by recycling old, broken or retipped instruments in an environmentally responsible way. Visit **Environdent.com** for more information.

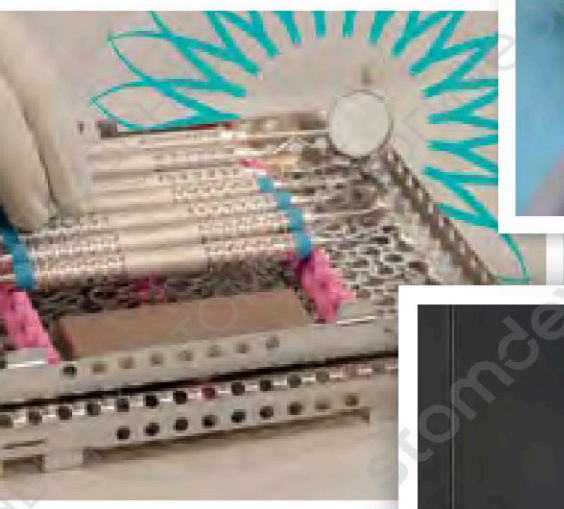

*Biodegradable formula according to the organization for Economic Cooperation and Development (OECD) Testing
† Not made with natural rubber latex
