Sterilization cycles
Two sterilization programs, 121°C/1.1Bar and 134°C/2.1Bar.

Time
Adjustable sterilization and drying time.

Pressure safety lock
It only allows the door to open when the pressure is 0.

Drying (option)
Heat drying function.

Automatic pressure release
Automatically discharge of water and steam after cycle over.

High precision control
High precision temperature control within 0.1 °C.

Protection
Temperature and pressure overload protection.

Safety door lock
It only allows the cycle to start when the door is properly locked.

Drying + (option)
Drying plus function for reducing drying time and better drying result.

E SERIES

Icanclave E is class N steam sterilizer series which includes the chamber size of 18L, 23L, and 50L, they provide an economic sterilization solution for dental clinics, laboratories, cosmetic hospitals, tattoo shops, veterinarians, etc.

How to order

E - X X X

- 18: 18Liter; 23: 23Liter;
- 3: no drying 4: with drying* 5: with drying and drying plus*

*drying: drying by heater. For better drying results, open the door and leave a small gap once the autoclave finishes the cycle.
*drying plus: it equips with an addtional air compressor that is activated automatically once the cycle is finished improving drying results.

Fox Example : E418 means E series 18L autocalve with drying function
