About ICANCLAVE E type B sterilizer

2024-02 не купили

ICANCLAVE mode E6 is a Class B steam sterilizer which compliance European EN13060 standard. E6 has two sizes which is the most simple and cost-effective class B autoclaves among the ICANCLAVE family. It is a full automatically steam sterilizer that can not only achieve complete sterilization of various instruments wrapped and unwrapped, but also meet the lower budget requirements of some clinics.

Reliability and safety

Full compliance with European small steam sterilizer standard and certified quality. Ensure a completed safety sterilization result.

For any load type

Class B steam sterilizer can be used steriize any load, such as the instruments of hollow, porous or solid.

Effiency

Equipped with an independent steam generator, it can quickly generate saturated steam to achieve efficient sterilization.

Multi Protection

Combined with mechanical and electronic dual security lock systems as well as pressure & temperature overload protection system to ensure safety.

Internal printer

A sterilization cycle report be allowed simply printed by a thermal paper after cycle end.

Data export

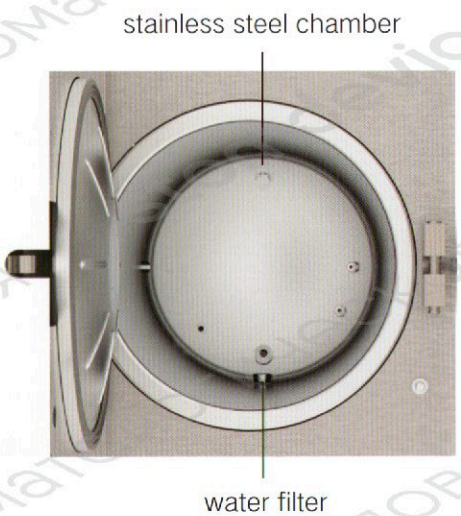

Standard equipped with an internal memory able to store 10000+ cycles, and the cycle reports can be automatically saved via the USB driver.
