Cervitec® Gel

Professional oral care in the dental office and at home

Pictures: Dr F. Zimmerling Ivoclar Vivadent AG, Schaan, Liechtenstein

Optimized care formula

The optimized care formula of Cervitec® Gel contains chlorhexidine and fluoride as well as additional ingredients such as the provitamin D-panthenol and xylitol. The gel therefore protects the teeth, gums, periimplant tissue and mucous membrane with even more efficiency.

Many areas of application

Cervitec Gel supports the treatment of gingivitis, mucositis, denture stomatitis, periodontitis and periimplantitis as well as in cases of increased bacteria counts.

It prevents inflammation and it freshens breath.

A good feeling in the mouth

Cervitec Gel is widely accepted due to its mild taste. The soothing ingredients leave a perceptibly good feeling in the mouth.

Cervitec® Gel – The oral care gel

Advantages	Benefits
0.2% chlorhexidine + 900 ppm fluoride + provitamin D-panthenol + xylitol	▸ Powerful combination for the care of gums, periimplant tissue, the oral mucous membrane and teeth ▸ Moisturizes the gums and mucous membrane
Smooth consistency	Easy distribution on intricate surfaces
Mild taste	High user compliance
