FUTAR® – SIMPLY IMPRESSIVE!

Bite registration

The **Futar**® product family includes eight different bite registration materials based on A-silicone for making accurate occlusal records.

SUPER IN QUALITY AND PROGRESS

- "Made in Germany" with its own research and development as well as production in Germany

SUPER THROUGH VERSATILITY

- Choose between high and highest final hardness in addition to different processing times!

SUPER FOR OVER 20 YEARS

- Trust Germany's market leader[1)]!

Do not make compromises with your bite registration!

[1)] Acc. to GfK, a German consumer research association

FUTAR® – THE ADVANTAGES AT A GLANCE

NEW

Futar® / Futar® Fast:

- High final hardness (Shore-A 90)
- Flexible in processing: easy to cut
- Also available with fast-setting characteristics: for more patient comfort!

Futar® Easy / Futar® Easy Fast:

- High final hardness (Shore-A 90)
- Flexible in processing: easy to cut
- Also available with fast-setting characteristics: for more patient comfort!
- **Low dispensing force – easy to apply**

The Futar® family can do even more:

KETTENBACH DENTAL
Simply intelligent

Futar® D / Futar® D Fast:

- Extra high final hardness (Shore-D 43)
- Offers very good millability
- Also available with fast-setting characteristics: for more patient comfort!

Futar® Cut & Trim Fast:

- Extra high final hardness (Shore-D 35)
- 15 seconds Working time + 45 seconds Intraoral setting time = 1 minute Total setting time[2)]
- Ideal for processing with a mill and/or scalpel
- Scannable for using with CAD/CAM

Futar® D Slow:

- Extra high final hardness (Shore-D 43)
- Extra long processing time for time-consuming applications
- Versatile use also in the laboratory

- Accurate results thanks to excellent flow properties
- Low elasticity reduces springiness in the model assignment
- Surplus can be broken off easily

SIMPLE, CLEAN AND FAST TO USE!

[2)] Total setting time (removal time from mouth) from the start of mixing
