Diamond like feel & precision

Restorative instruments with LM Dark Diamond non-stick coating are ideal for placing and contouring of composite resins. The diamond like coating reduces the stickiness and allows pleasant and precise restorative instrumentation.

- Exclusive diamond like coating for non-stick placement and sculpting of composite resin
- Not sensitive to scratches due to hard surface
- Smooth surface for easy cleaning
- Dark color coating offering maximum contrast against filling and minimal reflections
- Ergonomic LM-ErgoSense for excellent precision and feel
