COMBI *touch*

■ stop all that stuff

There are countless instruments you currently use during an ordinary prophylaxis treatment: curettes, scalers, contra angles, polishers, pastes – wouldn't it be perfect if you could have them all in one?

▶ start all in one

Well, now you can: the combi *touch* combines ultrasound and air polishing in one unit – it allows complete prophylaxis treatment from removal of supragingival and subgingival calculus to gentle removal of stain and biofilm and even implant cleaning.

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

stomdevice

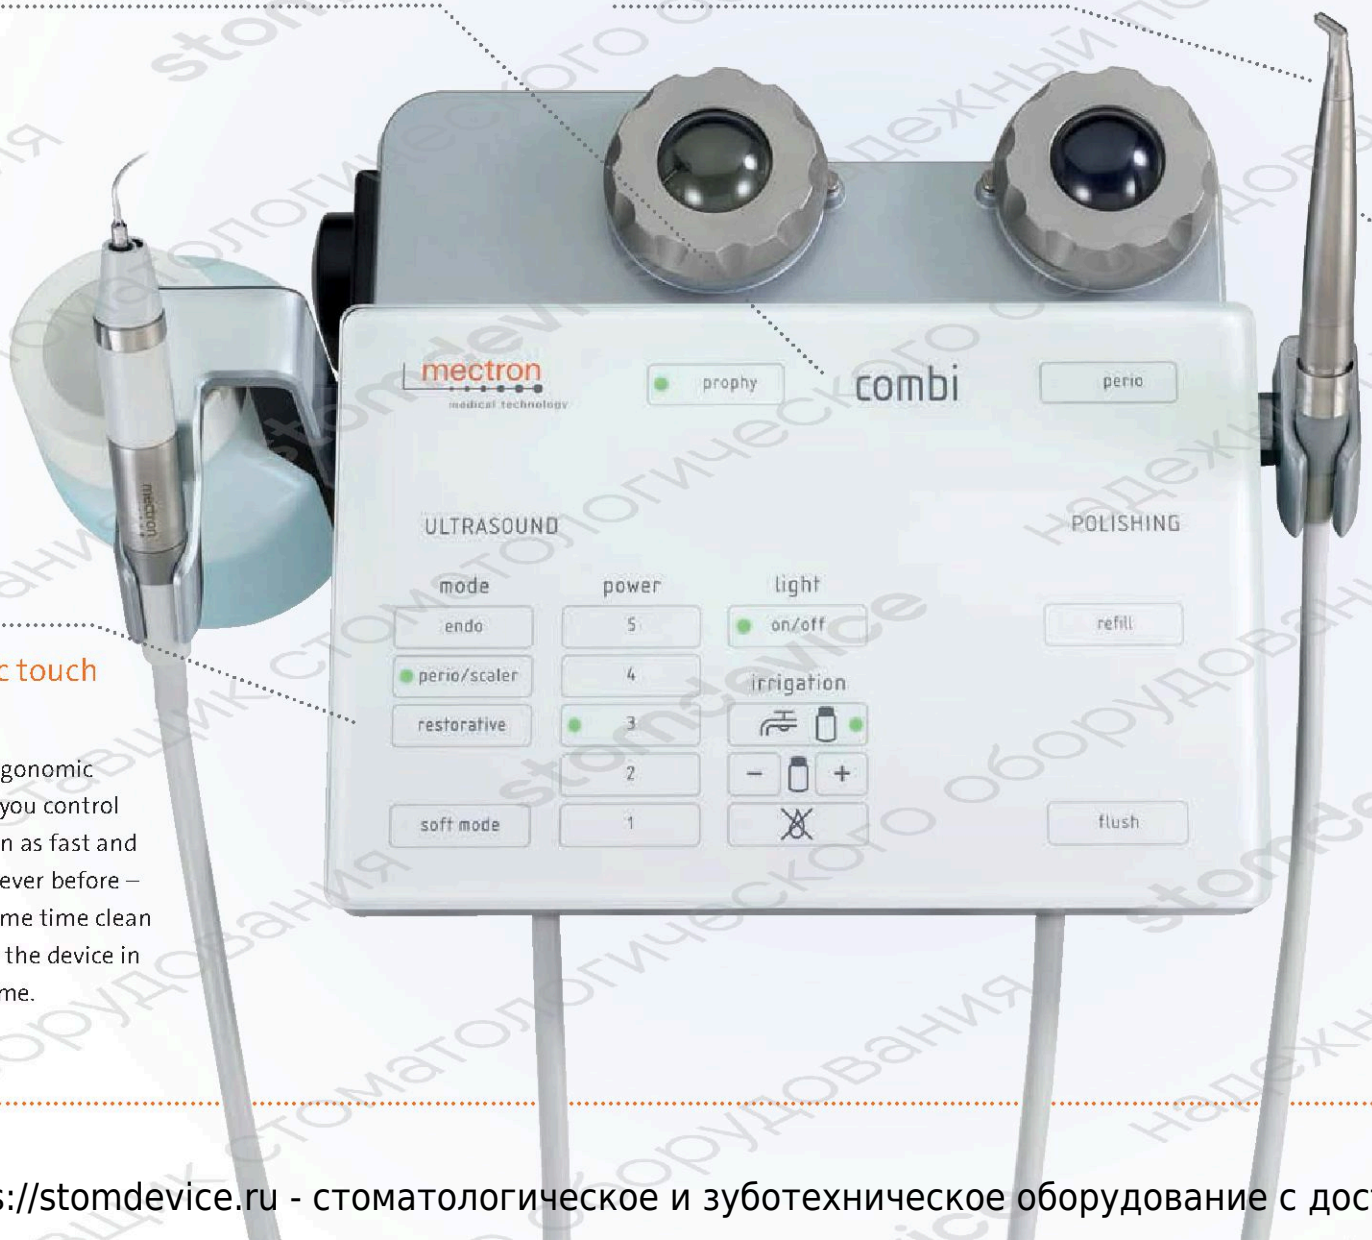

mectron
medical technology

▶ supra and subgingival

Easily switch during the treatment between supra and subgingival air polishing by simply pressing prophy or perio button.

▶ clogging protection

Once the unit is switched on, the tubing remains clean by a consistent stream of light air.

▶ slim air polishing handpieces

3 different slim air polishing handpieces: 120°, PERIO, 90° (optional)

▶ ergonomic touch panel

Due to the ergonomic touch panel, you control every function as fast and intuitive as never before – and at the same time clean and disinfect the device in literally no time.

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

stomdevice

▶ led handpiece

The 360° rotatable LED cone of the ultrasound handpiece lets you set the light focus on the insert tip in every situation – regardless of the insert shape.

▶ refill function

Thanks to the exclusive „refill“ function, you can easily remove the powder chambers without switching the unit off, for fast and efficient maintenance.

▶ irrigation system

Two irrigation lines for the ultrasound system, tap water or 500 ml bottle for flexible use of water or medicinal solutions.

▶ SOFT MODE

mectron innovative SOFT MODE avoids excessive ultrasound oscillation, allowing a gentle and efficient insert movement. Results: nearly painless treatment for patients and maximum comfort for clinicians. All efforts are perfectly met.

SOFT MODE

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

stomdevice

mectron
medical technology

▸ 3 different air polishing handpieces

Always best access - 90° and 120° angled handpieces for supra- and subgingival use in periodontal pockets up to 5 mm depth.
The PERIO handpiece equipped with the disposable sterile Subgingival Perio Tip provides optimal access in pockets deeper than 5 mm.
Each handpiece is easily attached with just a click and is safely fixed, thanks to a dedicated security connection system.

▸ 500 ml bottle

The illuminated bottle-system lets you use different liquids (e.g. chlorhexidine in perio or sodium hypochlorite in endo).

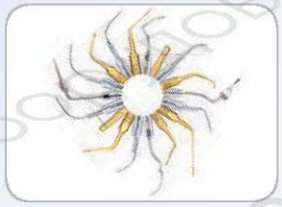

▸ 2 removable powder chambers

Thanks to the refill function, powder chambers are easily removable for flexible use of supra-gingival powder (prophy) and subgingival powder (perio).

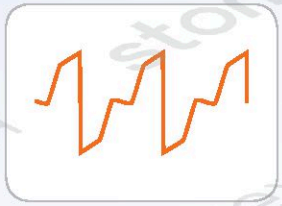

▸ Subgingival Perio Tip

Flexible and soft - the subgingival, disposable Perio Tip will come sterile and gets simply attached to the perio nozzle by hand.

▸ wide range of treatments

There are more than 45 ultrasound inserts available – for scaling, perio, endo and restorative treatments.

▸ PULSE MODE

The PULSE MODE transforms the ultrasound oscillation to a new profile – which results in an optimized performance for extractions and prosthetics.

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

stomdevice

COMBI + TURBODENT

■ stop occasional prophy treatments

Prophylaxis treatments are performed occasionally in many practices – however, this part of your job is quite lucrative?

▶ start from 9 to 5

Why not do this all day long? combi or turbodent are your air polishing units for doing more prophylaxis treatments than ever before:
both units feature a large powder chamber, which is sufficient for more than 3 patients, in most cases – and the non-clogging nozzle construction puts them among the most reliable units on the market.

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

stomdevice

mectron
medical technology

▶ supra and subgingival

Easily switch between supra and subgingival air polishing by pressing one button.

▶ various treatments

There are more than 45 ultrasound inserts available – for scaling, perio, endo and restorative treatments.

▶ large powder chamber

The large powder chamber guarantees you the maximum efficiency.

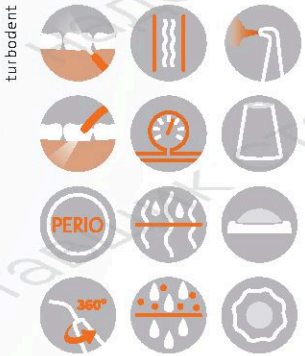

▶ controlled powder jet

Powder and water travel separately until they reach the nozzle: as a result the water surrounds the jet of powder and air and prevents powder dust.

▶ clogging protection

The tubing is cleaned by a permanent air stream – and once the handpiece is placed into the cradle, a pressure release is automatically triggered, which empties entirely the tubing.

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

stomdevice

STARJET*

■ stop limitations

A typical scenario - you complete the supragingival air polishing with your turbine-adapted handheld unit and your next step is subgingival cleaning but your unit is not intended for this use.

▶ start flexibility

With the starjet, these limitations no longer exist. With the flexibility of choosing the appropriate powder, you can easily switch from supra- to subgingival by simply turning the selection ring between prophy and perio. Not flexible enough? You can also select your preferred nozzle, with three options.

120° PERIO 90° (optional)

▶ 3 different nozzles, two lengths

Always best access - 90° and 120° angled spray nozzles for supra- and subgingival use in periodontal pockets up to 5 mm depth.
The Perio nozzle equipped with the disposable sterile Subgingival Perio Tip provides optimal access in pockets deeper than 5 mm.
The optional nozzles are also available in two lengths, for greater efficiency and flexibility. Just one click connects the nozzles safely to the air polishing hand-piece, thanks to a dedicated security connection system.

* patent pending

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

stomdevice

mectron
medical technology

▶ transparent powder chamber

For the best powder level visibility.

▶ Subgingival Perio Tip

Flexible and soft - the subgingival, disposable Perio Tip will come sterile and attaches easily to the perio nozzle by hand.

▶ easy filling

Refills are clean and simple due to the lateral opening of the powder chamber. No balancing act or messy spills.

▶ exclusive twist ring for powder selection

Reach the maximum flexibility as it can be used supra- and subgingival.

▶ 7 different turbine adapters

- Bien Air Unifix and Unifix L
- KaVo multiflex and multiflex lux
- Sirona R and B
- W&H Roto Quick and Roto Quick lux
- NSK

AIR POLISHING POWDERS

stop too much choice

The number of powders for dental use is countless - how on earth could you possibly find exactly the one you need to achieve the best results?

start always the right choice

Here's a tip: just go for the well-known mectron quality. Our specially developed air polishing powders not only come with a hydrophobic effect, which prevents clogging perfectly – but, more importantly, they also guarantee perfect air polishing results.

INDICATIONS	INTENSE	SMOOTH	SOFT	SENSITIVE
SUPRAGINGIVAL BIOFILM REMOVAL	●	●	●	●
REMOVAL OF STAINS AND PIGMENTATIONS	●		●	
SUBGINGIVAL BIOFILM REMOVAL				●
PERIODONTAL POCKET DETOXIFICATION				●
IMPLANT MAINTENANCE				●
PERI-IMPLANTITIS TREATMENT				●
FIXED ORTHODONTIC APPLIANCES		●	●	●
PREPARATION FOR WHITENING		●		●
CLEANING OF PROSTHESIS AND RESTORATION MATERIALS		●	●	●
CLEANING OF CAVITY MARGINS BEFORE ETCHING	●		●	
CLEANING OF FISSURES BEFORE SEALING	●		●	●
RESTORATION MAINTENANCE		●	●	●

INTENSE

PROPHYLAXIS POWDER INTENSE

effectively removes supragingival biofilm and stubborn extrinsic stains on the enamel surface (sodium bicarbonate-based - average particle size less than 120 µm)

Indications:
- Removal of stains and extrinsic discolorations due to smoke, wine, tea and coloring agents
- Cleaning of fissures and cavities
- Removal of partially mineralized deposits

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

stomdevice

mectron
medical technology

SMOOTH

▶ PROPHYLAXIS POWDER SMOOTH

gently removes, thanks to its spherical shape, supragingival biofilm while respecting the surrounding tissues (calcium carbonate-based - average particle size between 45 µm and 75 µm)

Indications:
- Teeth cleaning to a shiny finish, while avoiding enamel damage
- Allows better access to the areas difficult to reach
- Aids in reducing the PH acidity in the mouth
- Reduction in aerosol effect and risk of device clogging
- Sodium and silicon (SI) free
- The absence of sodium makes it possible to treat patients maintaining a salt-free diet

SOFT

▶ PROPHYLAXIS POWDER SOFT

gently and effectively removes supragingival biofilm and stains on the enamel surface (sodium bicarbonate-based - average particle size 40 µm)

Indications:
- Removal of stains and extrinsic discolorations due to smoke, wine, tea and coloring agents
- Cleaning of fissures and cavities
- Cleaning of orthodontic brackets

SENSITIVE

▶ PROPHYLAXIS POWDER SENSITIVE – GLYCINE POWDER *

gently removes supra and subgingival biofilm (glycine-based - average particle size 25 µm)

Indications:
- Mild pigmentation and stain removal
- Periodontal pocket detoxification
- Periodontal maintenance
- Implant maintenance and treatment of peri-implantitis
- Orthodontic patient maintenance
- Gentle cleaning of restoration materials and comfortable treatment on exposed root surfaces
- Reduction of bacteria colony-forming units (CFU)
- Can be successfully used for the treatment of each type of patient

* available only in Europe

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

FEATURES

TOUCH PANEL
- ergonomics of control
- easy cleaning

SUPRAGINGIVAL USE
For comfortable cleaning of supragingival, enamel covered dental surfaces.

SUBGINGIVAL USE
For gentle cleaning of subgingival dental surfaces up to 5 mm pocket depth, restorations and implant surfaces.

SUBGINGIVAL PERIO TIP
For gentle cleaning of periodontal pockets greater than 5 mm depth. The disposable sterile Subgingival Perio Tip is flexible and is easily attached by hand.

REMOVABLE POWDER CHAMBERS
Both powder chambers can easily be removed for cleaning.

CLOGGING PROTECTION
Once the unit is switched on, the tubing remains clean by a consistent stream of light air.

PERIO FUNCTION
Reduces the air pressure for a safe subgingival treatment.

HANDPIECES AND SPRAY NOZZLES
- just a click to connect
- fully sterilizable, 360° rotating head
- powder and water travel separately
- the water surrounds the jet of powder and air to prevent powder dust

SILICONE PROTECTOR
- protects teeth
- prevents any pollutant entry
- detachable
- fully sterilizable

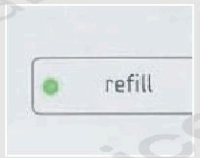

TRANSPARENT POWDER CHAMBER CAP
Permanent control of the remaining powder.

ERGONOMIC TWIST GRIP AT THE POWDER CHAMBER CAP
Easily opens and closes.

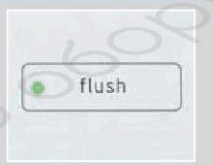

REFILL FUNCTION
Releases the air pressure of the powder chambers, without switching the unit off. Allows to open or remove the powder chambers, for a fast and efficient refill and maintenance.

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

CLEAN/FLUSH FUNCTION

The clean function is activated at the press of a button: the air and water tubes will be cleaned automatically.

PRESSURE CONTROLLER

- enables air input pressures between 4 and 8 bars
- enables water input pressures between 1 and 6 bars

CONDENSATE SEPARATOR

Ensures dry air.

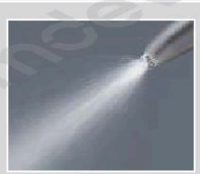

WATER FILTER

- prevents the passage of suspended particles
- water filter is easy to clean without needing any tools

HEATED WATER

The water will be heated to a physiologically comfortable temperature.

BOTTLE SYSTEM

- flexible use of medicinal solutions
- upright positioned (no leakages)
- easy connection

FEATURES

LED HANDPIECE

- 360° rotatable light,
- focus at the insert edge regardless of the insert shape
- prevents the "fog" effect due to the cavitation of the irrigation, no dazzling

SOFT MODE

Whenever needed mectron's innovative SOFT MODE reduces the amplitude of the ultrasound oscillations to allow the insert to move gently and efficiently. The result: treatment efforts are met perfectly – sensitive patients are treated nearly painless and with maximum comfort.

PULSE MODE

The PULSE MODE (combi *touch*, level 5 of restorative/prosthetics function) transforms the traditional sine wave formed ultrasound oscillation (standard function) to a new profile, characterized by specific power peaks, which results in an optimized performance for extractions and prosthetics.

APC (AUTOMATIC PROTECTION CONTROL)

- recognizes deviations automatically
- stops ultrasound and flow of liquid in less than 0.1 seconds
- shows cause of the interruption on the display

FEEDBACK SYSTEM

- constant and optimal tuning of insert movement
- automatically detects and adjusts the necessary power according to the clinical need
- user intervention simplified to the push of the foot pedal

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

stomdevice

WE ♡ PROPHYLAXIS

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

ultrasonic devices

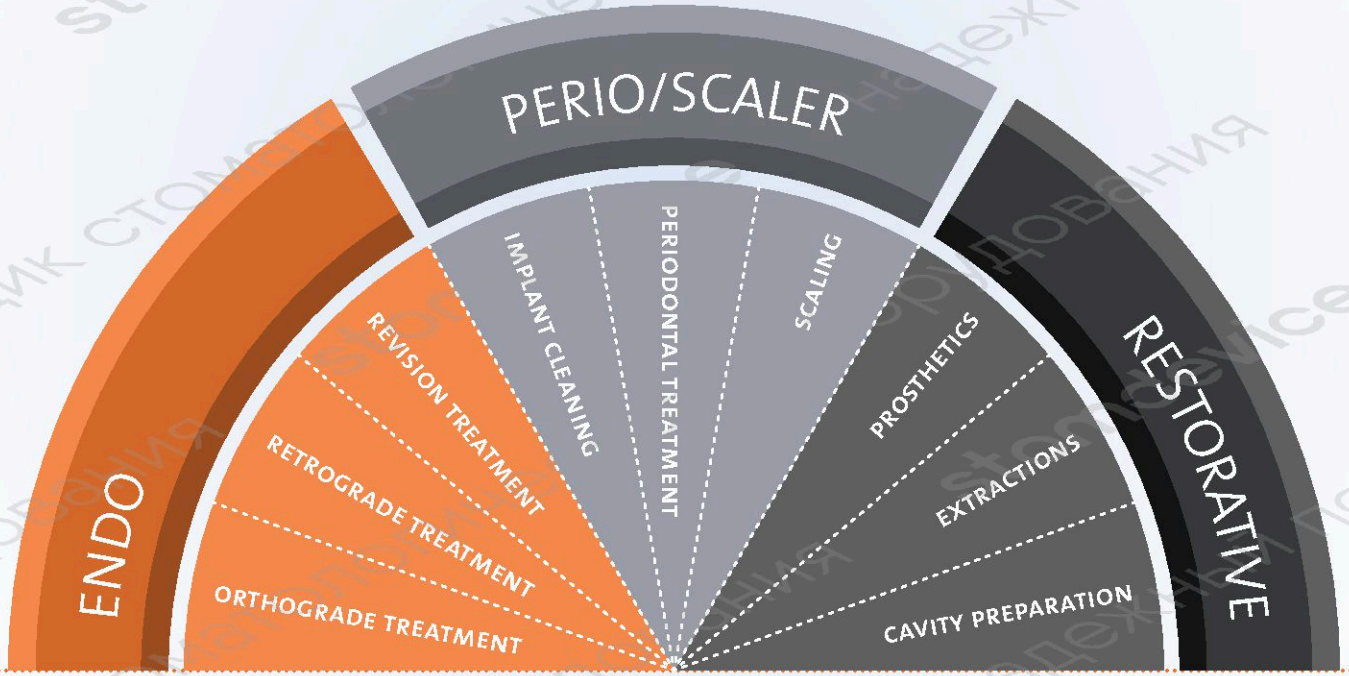

MULTIPIEZO PRO *touch*

■ stop limited options

At some point, every ultrasound unit reaches its limit – whether it is due to power, the equipment available or the variety of treatments it has been built for.

▶ start endless possibilities

The multipiezo pro *touch* comes with the widest range of indications in the market – from calculus to caries, from endodontics to periodontics, from extractions to restorations. It is perfectly indicated for many types of oral treament challenges that are seen in daily practice.

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

stomdevice

mectron
medical technology

▶ two handpieces

The two LED handpieces guarantee full flexibility – e.g. you can use both the right and left curved perio anatomic inserts without changing the inserts by simply selecting the second handpiece.

▶ pulse mode

The PULSE MODE transforms the ultrasound oscillation to a new profile – which results in an optimized performance for extractions and prosthetics.

▶ two 500 ml bottles

The 2-bottle-system lets you use two different liquids (e.g. sodium hypochlorite in endo or chlorhexidine in perio) without having to change bottles.

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

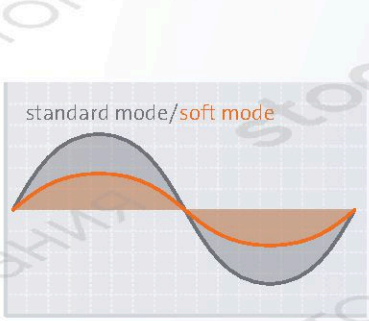

MULTIPIEZO *touch* + MULTIPIEZO *white*

■ stop painful

When it comes to sensitive patients and subgingival scaling, one thing is of maximum importance: minimize discomfort. At the same time, you need powerful insert movement for ideal results.

▶ start beautiful

The solution: the innovative multipiezo SOFT MODE. It reduces the amplitude of ultrasound oscillations in order to produce a gentle and efficient insert movement and allows for the first time nearly painless but 100 % effective treatments – for 100% beautiful results.

SOFT MODE

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

stomdevice

mectron
medical technology

▶ irrigation system

The irrigation system with its illuminated 500 ml bottle prevents any dripping and leaking.

▶ ergonomic touch panel

Due to the ergonomic touch panel, you control every function as fast and intuitive as never before – and at the same time clean and disinfect the device in literally no time.

▶ pulse mode

The PULSE MODE transforms the ultrasound oscillation to a new profile – which results in an optimized performance for extractions and prosthetics.

▶ led handpiece

The 360° rotatable LED cone of the handpiece lets you set the light focus on the insert tip in every situation – regardless of the insert shape.

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

MICROPIEZO S

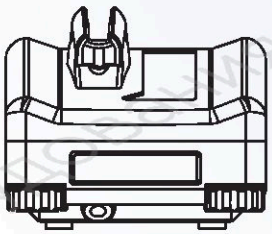

■ stop broken down

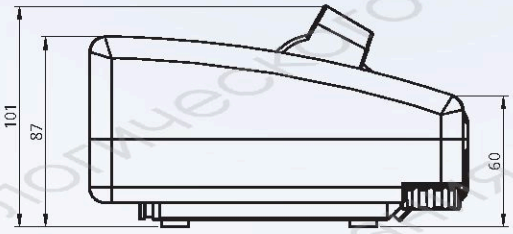

When it comes to your ultrasound unit, cheap is not always economical: even if the only thing you want to do with it is scaling, you simply won't save anything if you have to buy a new unit every 12 months.

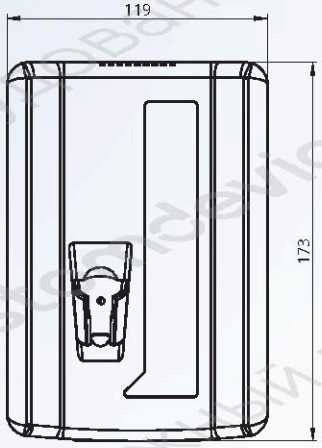

▶ start profitable

Well then, start something really profitable: the micropiezo s is your powerful scaling unit at a reasonable price – with the well-known mectron quality already built in.

Units of measurement in mm.

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

stomdevice

mectron
medical technology

water filter

The water filter prevents the passage of suspended particles – and can be cleaned easily thanks to its accessibility.

fixed water line

With the fixed water line in the micropiezo s there is no need to refill your bottles.

check function

The “check” signal flashes to indicate wear or incorrect fitting of an instrument or any handpiece or handpiece-cord defects, additionally, power and liquid supply of the unit will be immediately stopped.

APC

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

COMPACT PIEZO P2K + COMPACT PIEZO LED

■ stop no space left

There is simply no space left in your practice rooms – and your large scaling unit is one of the reasons for that?

▶ start no space needed

What if you needed no space at all for this unit? The compact piezo P2K and the compact piezo LED are powerful scaling units which can easily be integrated into nearly every dental chair – and then be operated simply via its controls.

▶ high precision

The ultrasound performance can be controlled perfectly due to its electronic feedback system.

▶ handpiece

The handpiece is made of titanium and Radel – which makes it 100 % sterilizable.

APC

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

stomdevice

mectron
medical technology

SOFT MODE

▶ soft mode

The SOFT MODE guarantees a perfectly gentle but still efficient insert movement.

▶ rotatable LED cone

The 360° rotatable LED cone lets you set the light focus on the insert tip in every situation – in order to avoid the "smog effect" which occurs when the light beam encounters the fog of a fluid.

APC

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

stomdevice

INSERTS

■ stop only for scaling

You have to deal with countless indications and treatments everyday – however the inserts offered by most dental brands are limited to scaling only.

▶ start suitable for everything

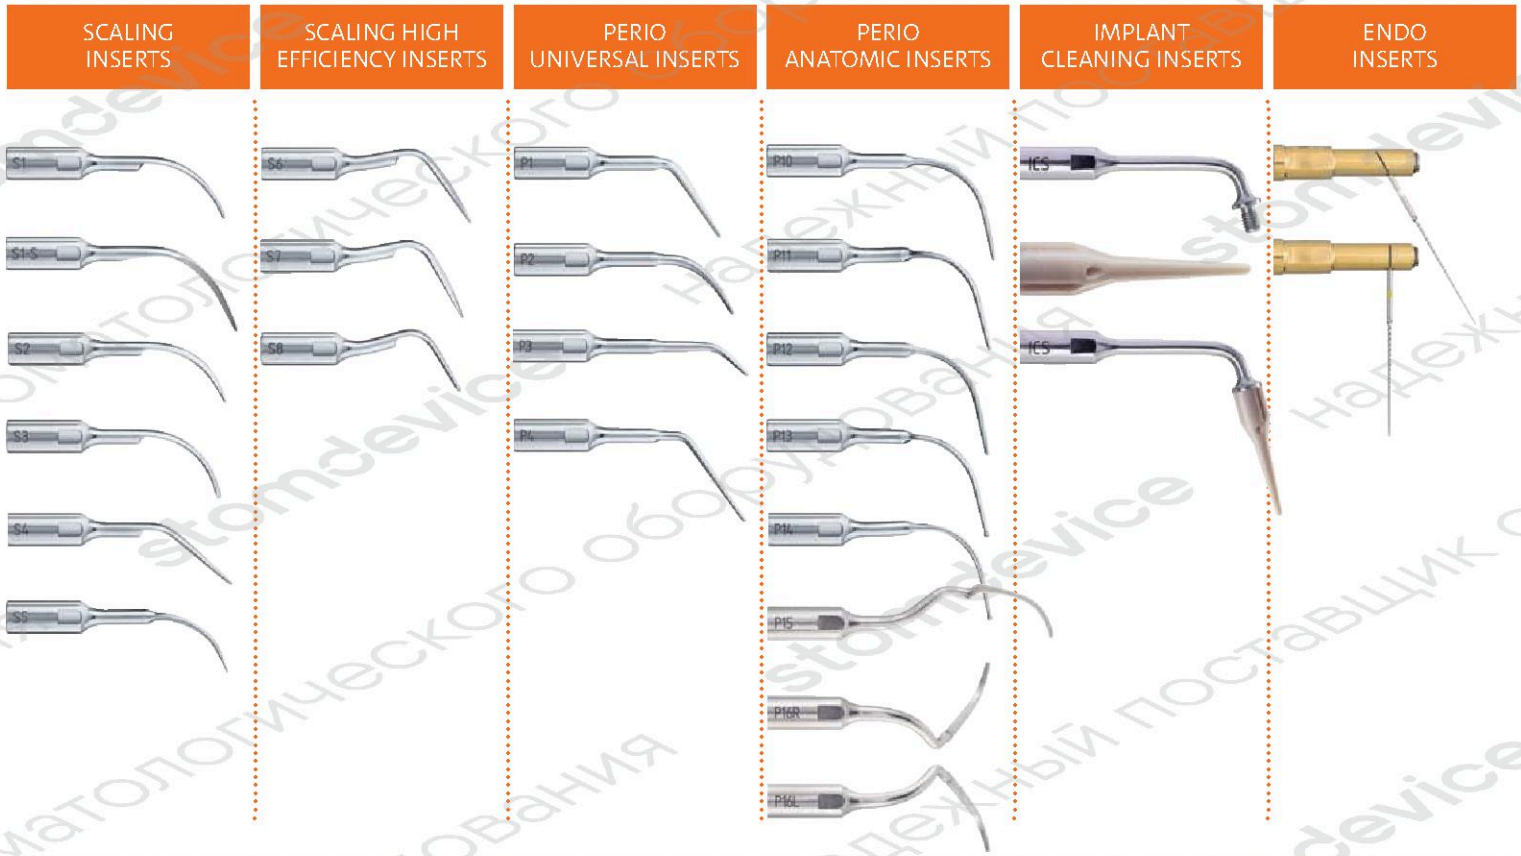

Therefore, we offer you an unequaled variety of inserts – for every indication, every treatment, and every situation you will face in your daily practice.

▶ K10 wrench

protects your handpiece and inserts

- sterilisable dynamometric torque wrench
- every insert is supplied with its own torque wrench

stomdevice

led polymerization

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

STARLIGHT UNO

■ stop too heavy

Curing composites can become hard work. 10, 20, sometimes still 40 seconds can feel incredibly long if your polymerization light weighs too much.

▶ start featherweight

Only 77 g and simple handling thanks to the one-button control – discover a new world of powerful light curing.

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

stomdevice

mectron
medical technology

▶ 3 Watt LED

Works with selected high efficiency 3 Watt LEDs with a light intensity of more than 1.500 mW/cm²

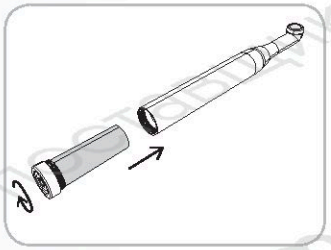

▶ lightweight

Only 77 g.

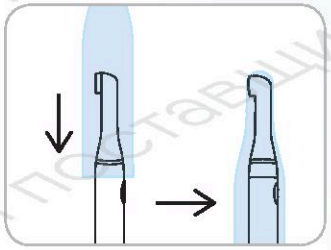

▶ removable lithium-ion battery

The removable lithium-ion battery provides you with 240 working cycles of 10 seconds.

▶ protective sleeves

Protective sleeves avoid direct lamp contamination.

▶ light spectrum

The light spectrum from 440 to 480 nm is focused on camphorquinone, a photoinitiator used in 98 % of dental materials.

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

STARLIGHT PRO + STARLIGHT ORTHO

■ stop too complex

Many polymerization units are difficult to adjust and complicated in their handling – which makes it really hard to integrate them into your workflow.

▶ start to work

Well, what about just starting to work? Due to its cordless design, you can use the lightweight starlight pro and starlight ortho wherever you want to – and its one-button-handling couldn't be any easier.

▶ starlight ortho

Designed for the special needs of orthodontists

- cures all current materials used in orthodontics efficiently and fast
- exposure times of 5 sec and 10 seconds
- allows curing of a few brackets up to a whole quadrant, with the push of one button

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

stomdevice

mectron
medical technology

▶ lithium-ion battery

The lithium-ion battery provides you with 320 working cycles of 10 seconds - after only 90 minutes of charging.

▶ click-clack connection

Exclusive connection in metal ensures an optimal light beam transmission.

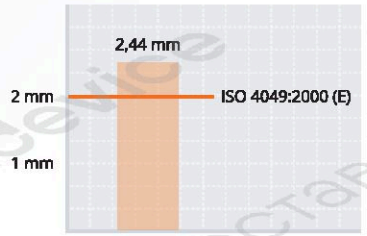

▶ lightweight

Only 105 g.

▶ high performance level

The power of more than 1.400 mW/cm² lets you harden a 2-mm thick layer in only 10 seconds.

average polymerization depth in compliance with ISO 4049:2000 (E)

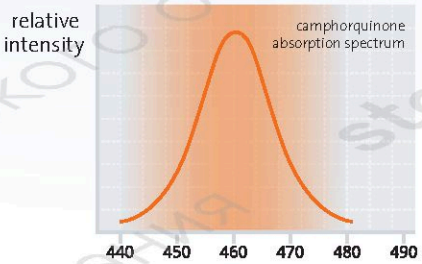

▶ optical fiber

The sterilizable optical fiber (8 mm) is made of many single threads for maximum light power.

▶ light spectrum

The light spectrum from 440 to 480 nm is focused on camphorquinone, a photoinitiator used in 98 % of dental materials.

starlight wavelength spectrum

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

stomdevice

STARLIGHT S + STARLIGHT S+

■ stop hide-and-seek

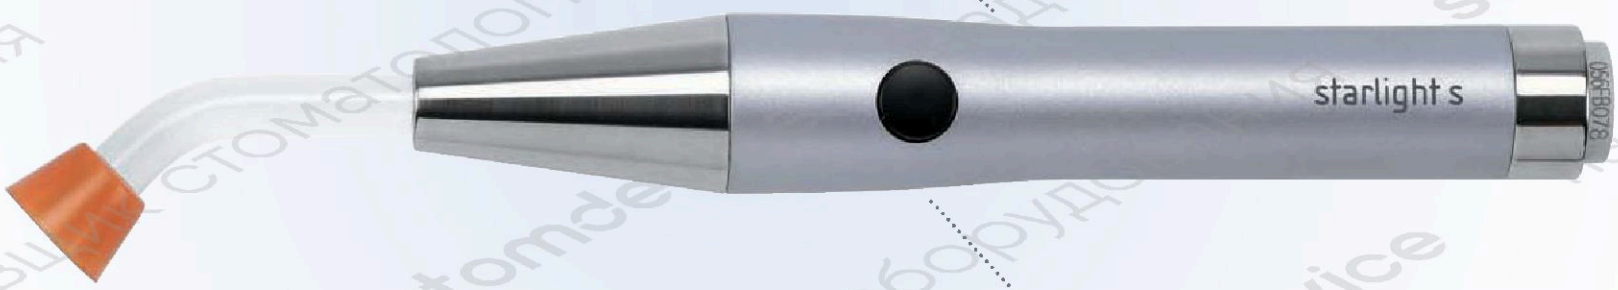

An everyday situation: You need the curing light - but who used it last? And most important: in which of all the different drawers can you find it?

▶ start plug-and-cure

The solution: starlight s and starlight s+. Both units can easily be built into your dental unit and are simply placed in the handpiece holder – exactly where you need them.

▶ ergonomic handpiece

The handpiece weighs only 75 g – and can simply be placed in the quiver.

▶ two curing modes

The starlight s comes with two different curing modes: 10 s fast curing and 20 s slow rise (soft start) can easily be adjusted in every situation.

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

stomdevice

mectron
medical technology

▶ 3 operating modes

FAST: Exposure time 10/20 seconds.
SLOW RISE: Exposure time 10/20 seconds. Gradual increase during first 2 seconds.
SOFT: Exposure time 10/20 seconds. Light emission at 70% of maximum power.

SCIENTIFIC RESEARCH

SCIENTIFIC RESEARCH

The present collection of scientific abstracts and clinical case reports gives you an overview of the existing evidence for Mectron ultrasonic and air-polishing devices. Many clinicians and specialists have been involved in the clinical and scientific validation of the ultrasonic and air-polishing devices with piezoelectric technology. Today, a continuously growing number of publications confirm the clinical benefits of the ultrasounds and air-polishers in prophylaxis:

- Wide range of indications
- Maximum comfort for the patient
- Maximum performance for the clinician

With the clinical proof statement of these benefits, the use of ultrasounds and air-polishers has defined a new dimension in the prophylaxis field.
