TCM Endo,
For all rotary endodontic files

The TCM Endo is a microprocessor controlled motor system for fast and easy root canal preparation with rotary instruments.

Torque-control reverse rotation reduces instruments breakage.

The lightweight, ergonomic handpiece is distinguished by low vibration operation. Wide speed range also allows working with high speed instruments.

Art. No. 1518

Advantages:

- Best price/performance ratio
- Usable for all established NiTi instruments
- For fast, economical and less time consuming treatment
- Highest quality for a gentle and trouble-free using
- Reverse mode to avoid file breakage
