Isolation/Suction Adapter Device Compatible with the DryShield® Isolation System*
For Use with Standard HVE Dental Office Suction

System Components

Mouthpiece Adapter

Hi-Vac Connector

4-Foot Tubing

Installation Instructions

1. Thoroughly clean all components before installation.
2. Attach the small end of the Mouthpiece Adapter into one end of the 4-foot tubing.
3. Insert one end of the Hi-Vac Connector into the other end of the 4-foot tubing.
4. Locate available HVE and remove cap.
5. Insert the open end of the Hi-Vac Connector into your HVE.

All components are autoclavable in a standard steam autoclave.
