NV PRO3 Microlaser

Soft-Tissue Diode Laser

The NV PRO3 Microlaser delivers all the full power and capabilities of a much larger desktop laser but in a small package. The laser's innovative, cordless, hand-held design gives you unprecedented freedom to move between operatories.

The next-generation NV PRO3 Microlaser is optimized for all of your periodontal, restorative and orthodontic procedural needs. This device enables you to deliver the benefits of laser dentistry to each patient, while increasing practice production across all departments.

- 12 user-friendly preset procedures to increase efficiency
- Feather-light, cordless laser reduces fatigue (only 1.9 oz.)
- Extended battery life and wireless footpedal enable easy movement between operatories

Why laser dentistry?

Dental professionals who use lasers perform more procedures, in less time, with better results than those using traditional methods.

Patient Comfort
- Healthier approach to tissue management*
- Minimal need for anesthesia
- Reduction in post-op discomfort

Production Efficiency
- Improved access and field of vision
- Decreased treatment time in many cases
- Reduced impression retakes

Clinician Benefit
- Seamless integration into the practice
- Incremental revenue through additional procedures
- Increases patient acceptance
- Generates patient referrals

*As compared to a scalpel or electrosurge.
