# Highlights

### Sonic technology

Philips Sonicare electric toothbrush's unique dynamic action gently and effectively reaches deep between teeth and along the gumline.

### Angled brush head neck

The uniquely angled brush head neck of this toothbrush head makes it easier to reach back teeth, removing plaque in those hard-to-reach areas.

### Naturally whiter teeth

The dynamic cleaning action of this toothbrush and the direct broader contact with each tooth, has proven to remove everyday stains, to help keep teeth naturally whiter.

### Safe and gentle

Philips Sonicare is a gentle electric toothbrush for braces (brush heads wear out sooner when used on braces), and is safe for dental restorations (fillings, crowns, veneers) and periodontal pockets, too.

### Improves gum health

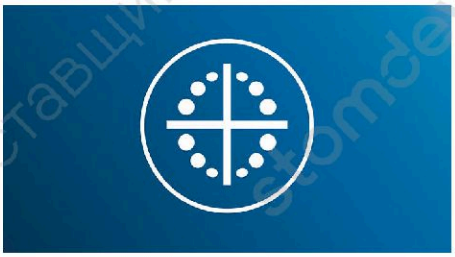

This Philips Sonicare electric toothbrush provides optimal cleaning between teeth and along the gumline for improved gum health in just two weeks.

### SmarTimer

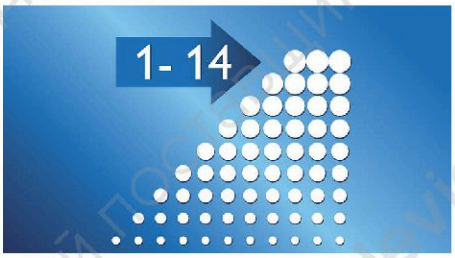

2-minute timer on this Philips Sonicare electric toothbrush helps ensure dental professional recommended brushing time

### Quadpacer

30 seconds interval timer indicates when you have completed each quadrant of your mouth and signals for you to move on resulting in more consistent cleaning throughout your mouth

### Easy-start program

Gently increases power over first 14 uses to ease into the Philips Sonicare electric toothbrush experience

### Five different cleaning modes

The five modes include a Clean mode for an outstanding clean in two minutes. A Sensitive mode for gentle yet thorough cleaning of the gums. A Refresh mode for those quick one minute touch-ups. A Massage mode to stimulate the gum and a Gum Care mode that helps improve gum health.
