AutoScan-DS300 features bigger scan space, articulation scan function is supported

High Efficiency

Scanning time：full arch 12s； upper jaw / lower jaw 30s； 1~8 teeth 37s； impression 120s

Specification

Model	AutoScan-DS300
Camera Resolution	3,000,000
Accuracy	<0.015mm
Scanning Range	100mm*100mm*75mm
Scanning Time	full arch 12s upper jaw / lower jaw 30s 1~8 teeth 37s impression 120s
Scanning Principle	structured blue light 3D scanning
Temperature	10℃~30℃ (higher temperature may affect the scanning result)
Dimension	325mm*325mm*470mm
Weight	19kg
Output	STL，OBJ
Interface	USB 3.0
Power	AC 24V
