TrollByte Kimera

x-ray alignment tools - the next generation

TrollByte Kimera combines two different high grade polymers in a single holder.

- Stiff arm ensures accuracy of sensor placement.
- Softer claw allows fine adjustment of the tension to reduce the risk of tearing the sensor cover.
- Custom-made for most sensors on the market.
- Autoclavable.

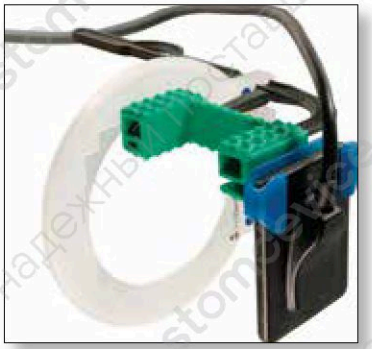

TrollByte Kimera Endo

x-ray alignment tools for Endodontics

- Specially designed bite block secures the sensor in the holder when closing the teeth
- Developed primarily for indicator pictures, and for ortho radial pictures of implants
- Height of the bite block guarantees the sensor holder does not interfere with reamers or rubber dam clamp

TrollByte Lynx Blue

TrollByte Lynx Yellow

Benefits:

- Colour coded and marked with size number- for easy identification
- Durable - made in one piece, no moving parts
- Thin - gives less shadows on the picture
- Time saving - only two different holders to take any kind of images
- Autoclavable

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СН

TrollBags
Optimised patient comfort

TrollBag #2 (standard)
TrollBag #1 (small)

- Elastic, stretches easily around your sensor
- Soft, comfortable & strong, no sharp edges
- Latex free plastic - no taste
- Easily separated for removal - no stretching of sensor cables

Box 500 pieces

TrollBag XL

- Fits over the sensor and sensor holder to prolong life of holder
- Can use the same bag for several images of the one patient

Box 500 pieces

TrollBag Cordless

- Snug fit over cordless sensor
- Double sided tape ensures an hygienic seal

Box 500 pieces

TrollBag PSP Ultra Soft

new!

Insertion

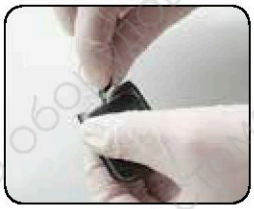

A protective bag for image plates

- Very soft and smooth for best patient comfort
- Latex free, no taste
- No sharp edges or seams
- Easy to insert
- Clear and black sides

Roll of 500 pieces

Removal

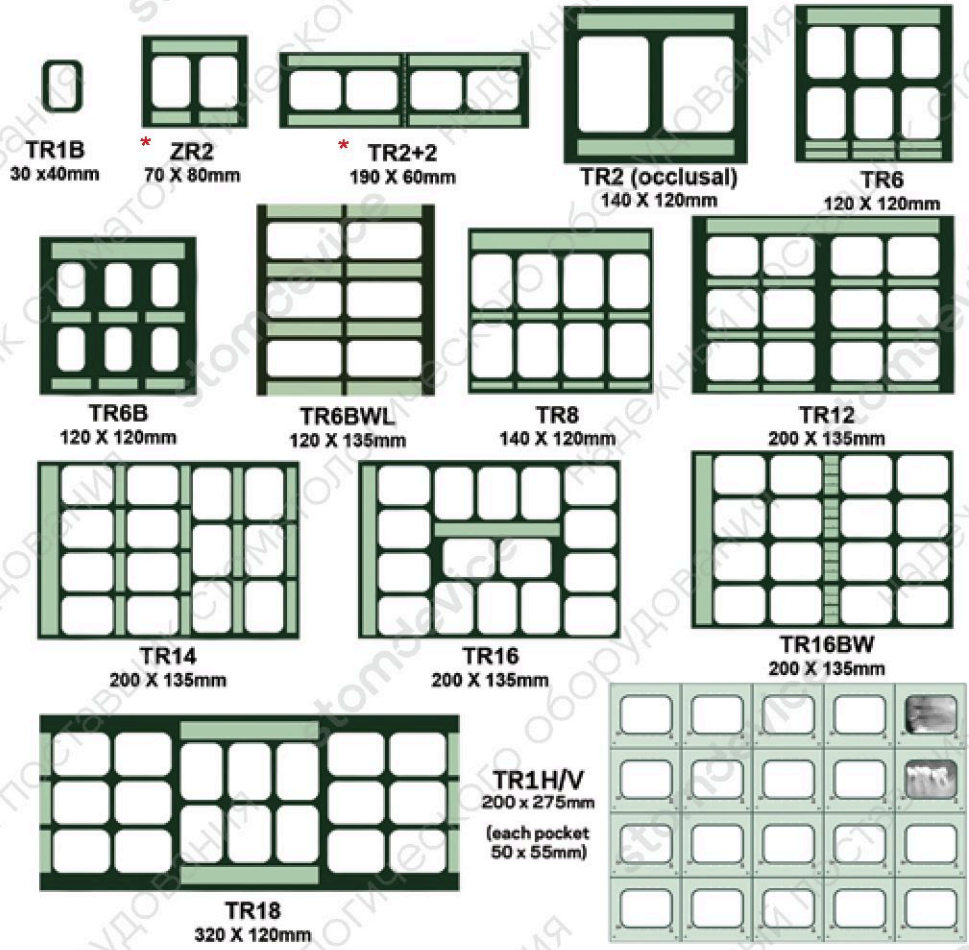

TrollMounts

The original x-ray mounting system, and still the only system guaranteed to safely store your xrays for 100 years!

Go directly to webshop

Box 100 sheets

* TR2+2 & ZR2
Box 200 sheets

- Made from softener-free plastic, therefore will cause no damage to your xrays - ever.
- Feature spaces for patient notes
- Some styles can be cut into smaller mounts (eg. TR2+2, TR12, TR16BW, TR1H/V)

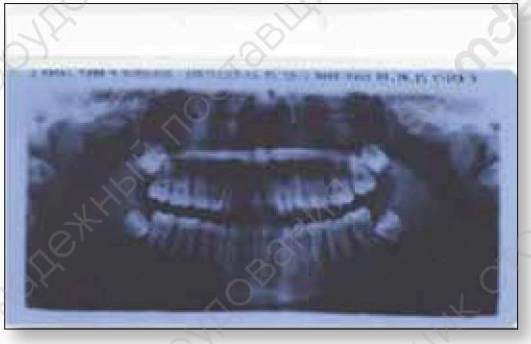

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

OPG Pockets

TrollDental

Your precious film protected on both sides

- Clear, softner free, flexible plastic
- No need to handle film directly, reducing damage risk
- Can be hole punched for filing
- Includes 100 cardboard slips to record patient information
- Holds film 300mm x 150mm Total size 303mm x 190mm

Box of 100 pockets
Additional slips available on request

X-Ray Viewer

DIRECTA

Extremely useful for viewing details on x-rays

- The long lens is specially ground to prevent parallax distortion.
- Focus on a frame by placing the Binocuscope in direct contact - has a 30x30mm viewing area.
- The special design excludes all distracting light

LM-TwistOut C3 curved 3mm blade

LM-TwistOut C4 curved 4mm blade

LM-TwistOut C5 curved 5mm blade

LM SlimLift & Root Out

Luxate atraumatically

LM feel the difference

The LM-SlimLift instruments are especially designed to reach places you cannot go with traditional luxating instruments. They allow tooth extraction to be done as atraumatically as possible. The extremely fine tip of the instrument is introduced into the very narrow periodontal space. Instrument is slowly advanced towards the apex of the root while turning the instrument gently back and forth. The LM-SlimLift is not suitable for use as an elevator.

Luxator® ORIGINAL

DIRECTA

Preserve bone integrity
Perform less traumatic extractions

- Dramatically less traumatic - for practitioner and patient
- Specially designed periodontal ligament knife with a fine tapering blade that compresses the alveolar
- Minimises tissue damage, subsequent healing is quicker
- Cuts the membrane, gently eases the tooth from its socket

Ref	Luxator	Colour	Blade Size	Indications
L-1S	Straight Blade	Light green	1mm	Integrates periotom properties
L-2S	Straight Blade	Green	2mm	Apical and/or interproximal
L-3C	Curved Blade	Black	3mm	General use/starter
L-3S	Straight Blade	Grey	3mm	Interproximal
L-3CA	Contra Angle	Blue	3mm	Lingual and/or distal - molars
L-3IC	Inverted Curved	Light blue	3mm	General, lingual and/or distal
L-5C	Curved Blade	Brown	5mm	Large molar roots - general use
L-5S	Straight Blade	Tan	5mm	Interproximal
L-10				Sharpening tool

- Sold individually with Fixus 1 cassette
- L-K4 - set 4 *(L-10, 3C, 3S, 5C, 5S)*
- L-K7 - set 7 *(L-10, 2S, 3C, 3S, 3CA, 3IC, 5C, 5S)*
- Sharpening tool *(L-10)*

Important! Luxator Original is *not* to be used as an elevator! *Not ever.*

To use the instrument for leverage rather than luxation is likely to result in damage to the tip of the instrument. Should extra force be needed, we recommend Luxator Forte

Luxator® SHORT

All the benefits of Luxator original with a shorter shaft

- Correct working position for smaller hands
- Shaft 10mm shorter than Luxator original

  - Sold individually with Fixus 1 cassette
  - S-K4 Set 4 *(S-3C, S-2S, S-3C, S-3CA)*

Ref	Luxator	Colour	Blade Size	Indications
S-2S	Straight Blade	Green	2mm	Apical and/or interproximal
S-3C	Curved Blade	Black	3mm	General use/starter
S-3S	Straight Blade	Grey	3mm	Interproximal
S-3CA	Contra Angle	Blue	3mm	Lingual and/or distal - molars
S-5S	Straight Blade	Tan	5mm	Interproximal

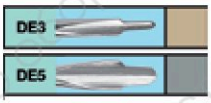

Luxator® DUAL EDGE

Innovative dual purpose tip for probing and luxating

- Integrated periotome and Luxator action - less effort required
- Stepped insertion reduces the risk of slipping
- Ideal for deeply fractured teeth, decayed roots

  - Sold individually with Fixus 1 cassette

Ref	LuxatorDual Edge	Colour	Blade Size	Indications
DE3	Dual Edge/Straight	Brown	3mm/1.5mm	Deep fractrured and decayed roots
DE5	Dual Edge/Straight	Grey	5mm/3mm	Deep fractrured and decayed roots

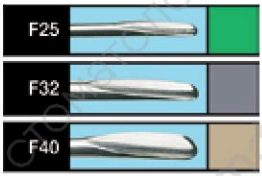

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

Luxator® FORTE

Elevating Luxator

- Provides extra strength and maintains tactility when needed
- Complements Luxator original
- Unique cornered tip design grasps dentine or root cementum for controlled and safer tooth elevation
  - Sold individually with Fixus 1 cassette

Ref	Luxator Forte	Colour	Blade Size	Indications
F25	Straight Blade	Green	2.5mm	General use
F32	Straight Blade	Grey	3.2mm	General use
F40	Straight Blade	Light Brown	4.0mm	General use

DIRECTA

Luxator Root Picker

- Provides extra strength and maintains tactility when needed
- Complements Luxator original
- Unique cornered tip design grasps dentine or root cementum for controlled and safer tooth extraction
- Straight or Curved
- Also available as a set of 2

TrollFoil

Gives an exact marking on wet or dry porcelain and gold

- One piece of foil is enough to give an accurate diagnosis - *8 microns*
- Works in all conditions - ***even wet*** - and on all materials - ***even gold*** - with only a light bite!
- Leaves no marking on your gloves - no need for forceps

Box of 500pcs or 100pcs

Available inTrollFoil blue or TrollFoil red

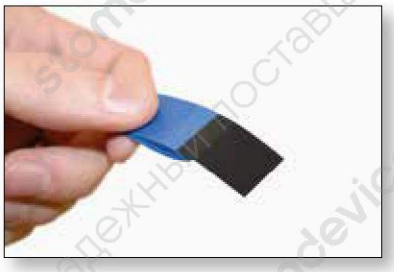

TrollFoil Mini

- A smaller TrollFoil for only 1–2 teeth
- Same properties as TrollFoil original
- The intelligently designed folding system - protection for the foil and a stable grip

Box 500 pcs

FENDERWEDGE®

DIRECTA
directadental.com

FenderWedge protects adjacent teeth during Class II preparations

- Easily inserted - combines a wedge and a stainless steel protective plate
- Work with peace of mind that the adjacent tooth is protected during challenging preparations
- Placing FenderWedge prior to preparation facilitates easy placement of the matrix and establishment of contact points

		WedgeWidths	
Large	L	2.3mm	
Medium	M	1.9mm	
Small	S	1.4mm	
x-small	X-S	1.0mm	

Assorted 4 x 36pieces
Refill Box 36 pieces
Value Pack 100 pieces

FENDERPREP™

- Protects the adjacent tooth & surrounding gingiva for all major preparations e.g. crowns, veneers & inlays
- Can be inserted buccaly or lingually.
- The steel plate is perforated thus allowing it to be bent before insertion so that it will lean against the adjacent tooth to be protected, providing better space and vision, saves time with increased safety

Box 36pieces
Value Pack 100 pieces

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

FENDERMATE™

A revolutionary wedge and section matrix combined

- Offers a unique solution to the challenge of achieving good proximal contacts for Class II restorations

- The wedge and matrix are inserted as one; once inserted, both ends of the matrix are released, shaping the matrix to the tooth

Assorted	4 x 18 pieces
Refill Box	18 pieces
Value Pack	100 pieces

1 Inserts as a wedge

2 Tight cervical marginal adaptation avoids overhangs

3 Convex natural contact point

4 Flexible wing exerts pressure for maintained separation & cervical adpatation

FENDERPRIME™

- Enables a fast, simple and safe restoration of primary teeth

- The "boat-shape" of the tip allows gingiva to be condensed without damage, reducing the risk for bleeding

- FenderPrime long can be bent to adapt to the contour of the tooth, & can easily be secured with floss

- FenderPrime is available in two sizes, long and short
