TrollDental Order Guide

TrollDental distributes premium Scandinavian dental products throughout Australia and New Zealand.
The products are warranties for quality and fitness for purpose by both the manufacturing centres and by **TrollDental**.

DENTAL PRACTICE PURCHASES

Wholesale prices (inc GST) are quoted in A$ throughout the product guide.
Minimum quantities for wholesale are the retail packs indicated next to each product, bonus stock is included when larger quantities are ordered.
Throughout the product guide there is a white carton

Box 10 Retail Packs

indicating the number of products or packs contained in this wholesale carton.
Freight is free for orders above $300 (inc GST) and for orders below this amount freight is $12 (inc GST).

PATIENT PURCHASES

To assist patient ordering (for consumer products) we offer a home delivery service through **oralcare4u.com.au**.
Patients can order from here and if your practice is a member of the oralcare4u program they can use the rewards code
that we provide to receive a 10% reward when ordering.
Postage and handling for patients is just $4 along with the assurance that they will receive the exact product that you have prescribed.

INSTRUMENT SHARPENING

TrollDental offers an instrument sharpening service at just $11 (inc GST) per instrument.
Simply telephone ahead, post the instruments (autoclaved) to us at PO Box 3013, Wollongbar 2477

Generally sharpened instruments are dispatched within 2 business days by courier.
When instruments are beyond sharpening you will be contacted to discuss further options.

TePe®
We care for healthy smiles

Quality in every detail

TePe's wide selection of interdental brushes offers an option for every need. The brushes are available with a short or long handle, straight or angled brush head and different filament textures. Of course, they also come in a variety of sizes to fit every interdental space.

TePe's high quality products are developed in collaboration with dental expertise and designed for optimal utility and function, in every little detail.

Made in Sweden, used worldwide.

Angle Brushes™

Plastic Coated Wire

All sizes and models of TePe's interdental brushes have a plastic coating on the wire for safe and gentle cleaning. The interdental brushes can also be used for cleaning around implants or braces.

Optimal Access

TePe Interdental Brushes Original and Extra soft have a straight neck, while TePe Angle has a pre-angled neck for extra good access between the back teeth and from the inside.

Toothbrushes

TePe

CODE:	PRODUCT:	DESCRIPTION:	PRICE:	
352 100 *(cellulose bag)*	Supreme	The **TePe Supreme** toothbrush has an innovative two-level filament design. The longer filaments clean further in between the teeth and along the gum line, while the shorter filaments gently clean the rest of the tooth surfaces. The Supreme toothbrush has a tapered brush head and a stable, non-slip handle with thumb pad. The new TePe Supreme™ Compact features a small tapered brush head and the signature two-level filament design, allowing great access for efficient plaque removal. In line with TePe Supreme™ standard, the new toothbrush is also supremely gentle on both teeth and gums. A user-friendly handle with a stable, non-slip grip.	**$2.86 ea** **$205.92** *(80 pieces)*	*Assorted Colours Box/ 80 pieces in cellulose bags*

LM Instruments – Sharp Diamond

Opposites attract. This holds true with high-quality, periodontal instruments. Optimally they are razor sharp, extremely hard, yet smooth and light. A new micro membrane coating made using modern Physical Vapor Deposition (PVD) technology enables LM to create Sharp Diamond instruments with the optimum combination of these features. Sharp Diamonds are completely sharpen free, tough but refined, offering unique benefits for you and your patient.

Sharpen free

- *Long-lasting superior sharpness*
- *Savings of time & money*
- *Highest rated ergonomics with sensational grip*
- *Improved productivity & clinical results*
- *Full control Shaving off calculus instead of fracturing it*

Sharpen free micro coating

Savings of time & money ---------- Long-lasting superior sharpness

Highest rated ergonomics with sensational grip* ---------- Improved productivity & clinical results

Sharpen free ----------

Superior sharpness ----------

Highest rated ergonomics ----------

Minimum maintenance ----------

LM Instruments – Sharp Diamond

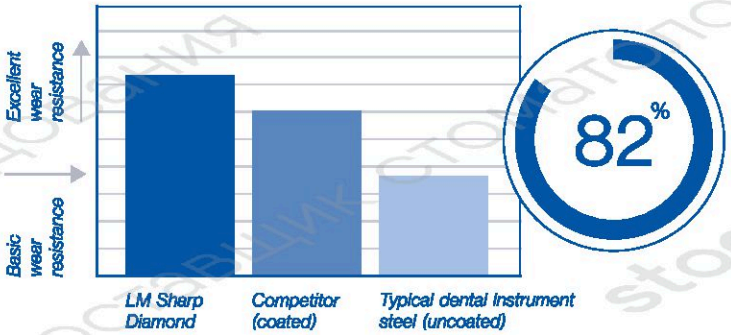

The sharpen free feature is most significant for instruments that have a small and narrow working end, such as mini curettes and fine sickles. The effect of sharpening is relatively higher for these instruments, and without sharpening and with Sharp Diamond coating, they retain their size and structural characteristics throughout their lifetime.

Hardness

Hardness contributes to the durability of the instrument. Sharp Diamond reach hardness of over 63 on Rockwell scale.

Wear resistance**

decrease in wear compared to typical dental hand instrument material

LM Instruments – Handle Selection

Choosing the handle

LM instruments are available with a selection of different handles. All exceptionally ergonomic due to the elastic silicone coating and optimized contouring. The clinician's hand fit and indication both play a role in selecting an ideal handle type. Interchanging different handles, may place the user's hand under even less strain.

LM-ErgoSense

The larger diameter and design provide sensational grip that has been proven to be ergonomic and efficient in scientific clinical testing. Uniquely intelligent handle with the option for RFID tagging. The compatibility with the LM Dental Tracking System™ offers many opportunities to improve asset management and patient safety (see more on www.dentaltracking.com).

LM-ErgoMax

Classic ergonomic design that others copy. Functions well in all clinical procedures and guarantees excellent tactile sensitivity and relaxed grip.

LM-ErgoNorm

The thinner handle that functions best in light clinical procedures.

LM-ErgoMix

The LM-ErgoMix handle for exchangeable tips offers all the economical and ecological benefits of retipping.

LM-ErgoAccess

Curved LM-ErgoAccess handle provides better access to hard-to-reach areas.

LM-ErgoSingle

Well balanced mirror handle with better reachability.

Codes and diameters

LM Instruments – Dental Tracking System

LM Dental Tracking System™

Improving material flows and patient safety

What if you could see the exact location of every dental instrument and material on your computer?

LM Dental Tracking System™ (DTS) is the first commercially available system to use RFID technology to efficiently track and monitor instruments and materials in the dental industry.

The LM-ErgoSense hand instrument with advanced built-in RFID technology together with scanning readers and server software create a unique Dental Tracking System™. The cutting edge system gives the visibility of instruments and materials from storage and maintenance through to clinic and patient care.

The scanned and documented information improves patient safety, material handling and increases cost efficiency. DTS offers new possibilities within maintenance and clinical use for dental clinics.

Patient safety

- Safe materials
- Sterilized instruments
- Material traceability

Cost reduction

- Avoid time consuming manual controls
- Decrease stock
- Improve material flow

Asset management

- Ease consumption recording
- Indication of demand
- Improve time management

Documentation & education support

- Reduce risks
- Decrease loss
- Clinical training
- Patient session planning

"Feels great in the hand."

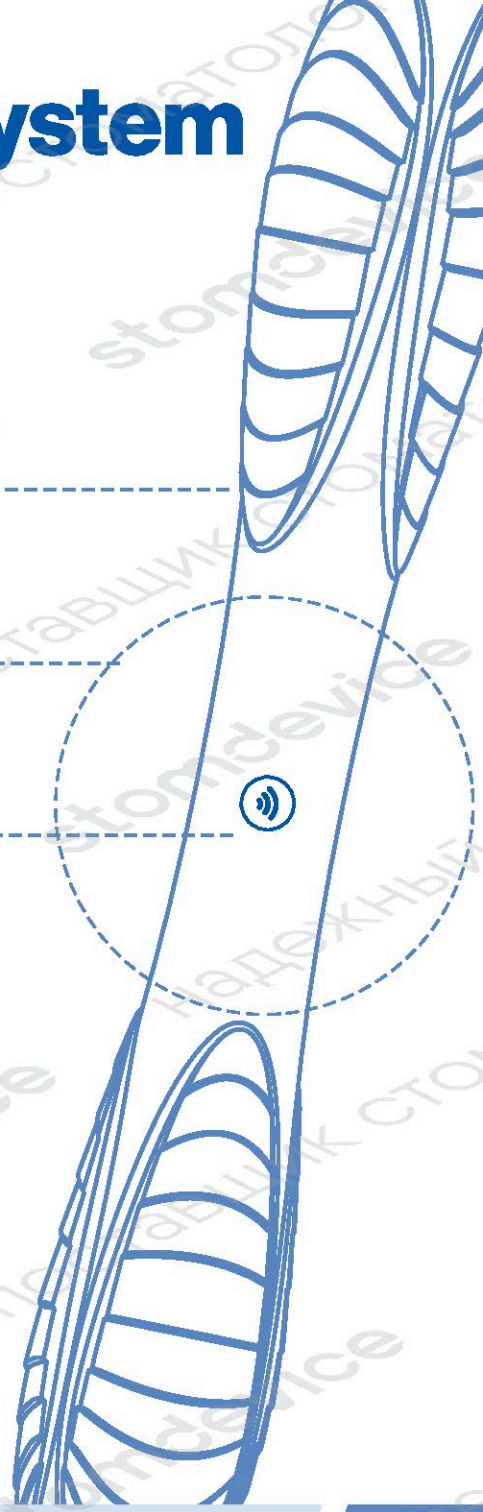

Great tactile sensitivity

Larger diameter & optimal design

Unique intelligence with RFID technology

LM-Dental has developed the idea of an ergonomic instrument even further. An advanced RFID chip can now be integrated into LM-ErgoSense instrument handles enabling complete and reliable traceability of the instrument.

Rated best in clinical testing

Become an OralCare4U Rewards member today, achieve patient compliance and start earning TrollDollars tomorrow.

With **OralCare4U** Rewards from **TrollDental** your practice will be rewarded for every purchase of oral care products that your patients make from OralCare4U.

For simply referring your patients to **www.OralCare4U.com.au** you will be rewarded with **TrollDollars** that can be redeemed against any product from the **TrollDental Catalogue.**

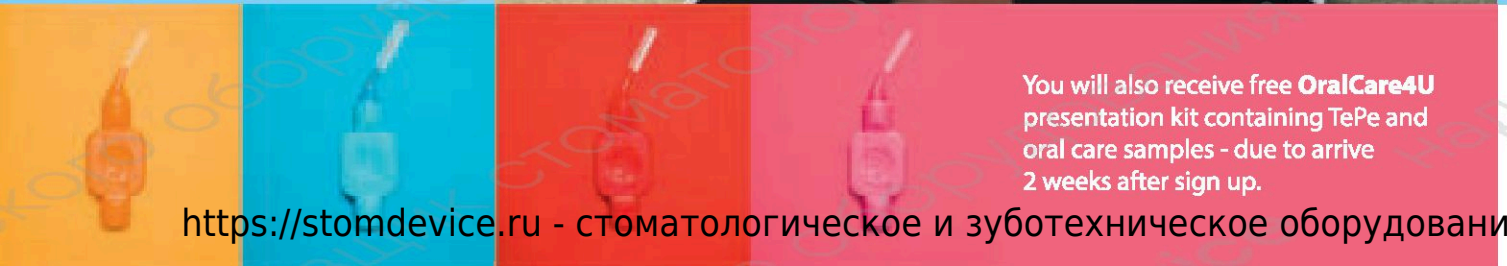

THE BENEFITS

- Easy access to recommended oral care products will improve patient compliance
- Recommend oral care products to earn **TrollDollars**
- Your patients receive a 10% discount
- Oral care products delivered direct to your patient's door
- **TrollDollars** can be spent on any products listed in the **TrollDental Catalogue**

HOW IT WORKS

- Sign up and receive your Practice code
- Refer your patient to **OralCare4U.com.au** with your **OralCare4U** Practice code
- Patient makes a purchase and receives 10% discount for being your patient
- You earn **TrollDollars** to spend on any products from the **TrollDental catalogue**

You will also receive free **OralCare4U** presentation kit containing TePe and oral care samples - due to arrive 2 weeks after sign up.
