UP3D Scanner

UP400

Ultra-high-speed Scan

Automatic add-scan

PLY

Open System

Support PLY format
Enables to import 3shape and EXOCAD files directly

High Speed Scan

Only need 14s to scan unsectioned model

Upgraded Upscan Software

Optimize the UI layout and upgrade the core algorithm to delive faster scan speed and less post-processing time.

Ultra-high-speed Model Scanning
14s For Unsectioned Model, 11s For Sectioned Model

Powered by upgraded software algorithm,UP400 is able to scan the modle with high speed and improve your efficiency

Unsectioned model

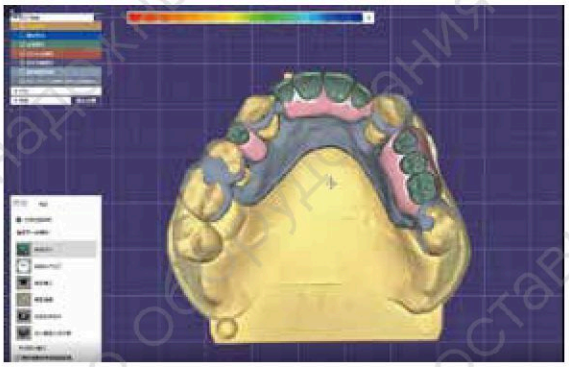

UP400 scan data

https://stomdevice.ru - стоматологическое и зуботехническое оборудование с доставкой по России и СНГ

Open System, Better Integration
Highly Restore The True Color Of The Model To Help Rpd Design

UP400 is able to provide you the ture color images, Combining with variety of design software such as exocad and 3shape to achieve the easiest PRD design

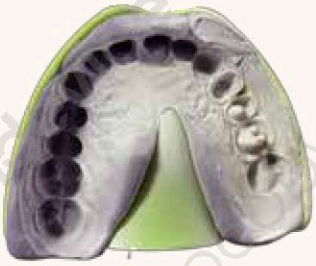

With The Ultra-high-speed Scan
Up400 Provides You The Better Scan Experience

Post & core impression scanning

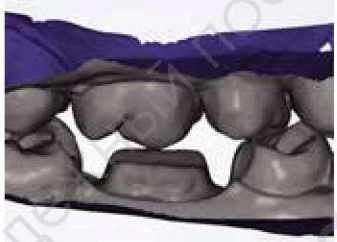

Only need 33 seconds

Triple Tray Impressions Scanning Only Need 70 Seconds

UPSCAN

Upgrade Scan Software

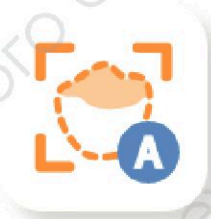

New UI interface,
post-processing speed upgrade

Freely Switch Scanning Steps

Support freely switch scanning steps,
no need to re-create the order,
simple and convenient operation

Full Arch Automatic Add-scan

One click on the software can add-scan automatically

Fill Hole On Abutment

No need to add the wax manually,
the software fills the screw holes automatically

Mark Margin Line

Mark the margin line directly in the software after scanning,
reducing time of the tooth design.

Up3d Scanner Series Parameters

Model	UP400
Size	355*268*384 (mm)
Weight	10kg
Cameras	2*1.3 (mp)
Accuracy	8 microns
Projector	Customized blue-light / Multi-color scanning
Interface	USB 3.0
Output Formats	STL; UM; PLY; OBJ
Power Supply	AC110-240V , 50HZ
Product Features	All-in-one scan One click scanning triple tray Detect margin line True color texture scan
Main Feature	Unsectioned models scan All-in-one smart scan
Scan Speed	Full arch: 11s Unsectioned models scan: 14s post&core scan: 33s All-in-one: 20s Triple tray: 70s True color texture scan: 16s
